Culture on Two Wheels Jeremy Withers, Daniel P. Shea, 2016-07-01 Bicycles have more cultural identities than many realize functioning not only as literal vehicles in a text but also as vehicles for that text's themes ideas and critiques In the late nineteenth century the bicycle was seen as a way for the wealthy urban elite to reconnect with nature and for women to gain a measure of personal freedom while during World War II it became a utilitarian tool of the French Resistance and in 1970s China stood for wealth and modernization Lately it has functioned variously as the favored ideological steed of environmentalists a means of community bonding and aesthetic self expression in hip hop and the ride of choice for bike messenger idolizing urban hipsters Culture on Two Wheels analyzes the shifting cultural significance of the bicycle by examining its appearances in literary musical and cinematic works spanning three continents and more than 125 years of history Bringing together essays by a variety of cyclists and scholars with myriad angles of approach this collection highlights the bicycle's flexibility as a signifier and analyzes the appearance of bicycles in canonical and well known texts such as Samuel Beckett's modernist novel Molloy the Oscar winning film Breaking Away and various Stephen King novels and stories as well as in lesser known

Chinese Art puts China's recent artistic output into the context of the wider cultural economic and political conditions that surround it. Focusing principally on art produced by artists from mainland China including painting, film, video, photography and performance, he also discusses art created in Taiwan, Hong Kong, Macau and diasporic communities. Illustrated with 150 images, *Contemporary Chinese Art* unravels the complexities of politics, artistic practice and culture in play in China's art scene. *Modern Sculpture* Douglas Dreishpoon, 2022-10-25.
