AIDS as an Apocalyptic Metaphor in North America Susan J. Palmer, 1997 In a single decade AIDS has grown to pandemic proportions The combined forces of medical research and public education have thus far failed to halt the spread of the disease which remains mysterious stigmatizing and fatal In this highly original study Susan Palmer explores the healing practices metaphors and apocalyptic fantasies of various religious racial and sexual minority groups as they respond to the AIDS threat Palmer looks at the response to AIDS by specific groups as diverse as white and black identity movements gay spirituality circles communal and millenarian cults and sci fi and horror films Her study reveals a proliferation of AIDS metaphors that refer variously to medieval plagues social disorder decline of the nuclear family and supernatural powers She argues that the human body tends to become a symbol that mirrors the social body and she finds this process especially dramatic in persecuted marginal groups Well known as a researcher and writer on new religious movements in Europe and North America Susan Palmer brings experience and insight to this study of the metaphors surrounding alternative spirituality and sexuality

AIDS and American Apocalypticism Thomas Lawrence Long, 2012-02-01 Since public discourse about AIDS began in 1981 it has characterized AIDS as an apocalyptic plague a punishment for sin and a sign of the end of the world Christian fundamentalists had already configured the gay male population most visibly affected by AIDS as apocalyptic signifiers or signs of the end times Their discourse grew out of a centuries old American apocalypticism that included images of crisis destruction and ultimate renewal In this book Thomas L Long examines the ways in which gay and AIDS activists artists writers scientists and journalists appropriated this apocalyptic rhetoric in order to mobilize attention to the medical crisis prevent the spread of the disease and treat the HIV infected Using the analytical tools of literary analysis cultural studies performance theory and social semiotics AIDS and American Apocalypticism examines many kinds of discourse including fiction drama performance art demonstration graphics and brochures biomedical publications and journalism and shows that while initially useful the effects of apocalyptic rhetoric in the long term are dangerous Among the important figures in AIDS activism and the arts discussed are David Drake Tim Miller Sarah Schulman and Tony Kushner as well as the organizations ACT UP and Lesbian Avengers

**Cosmologies of Suffering** Agita Lüse, 2009-01-14 The edited volume elaborates on a range of themes that emerged during a workshop of the 8th biennial of the European Association of Social Anthropologists in Vienna in 2004 Among these themes are the paradoxical permanence of transition in post communist countries the accompanying

persistence of social suffering and the structural conditions that give rise to it A final theme focuses on the resources that people mobilize to cope with suffering and trauma Ways of coping manifest a stance towards agency shared by sufferers from diverse post communist regions such as ethnically divided Croatia politically and economically unstable Zimbabwe relatively more peaceful countries such as Hungary Poland and Slovenia and finally two religiously unique areas in Siberia Russia Ethnographic accounts from these diverse settings testify that agency has often involved relinquishing reliance on one's self and turning towards a power higher than the self whether this is conceptualized through the lens of transcendence religion or cosmology *After the Wrath of God* Anthony Michael Petro, 2015 *After the Wrath of God* is the first book to tell the story of American religion and the AIDS epidemic Petro argues that AIDS effected a shift in Christian rhetoric regarding sexuality

**Immigration and Apocalypse** Yii-Jan Lin, 2024-11-26 Tracing the metaphor of America as the Book of Revelation s New Jerusalem Yii Jan Lin shows how apocalyptic narratives have been used to exclude unwanted immigrants America appeared on the European horizon at a moment of apocalyptic expectation and ambition Explorers and colonizers imagined the land to be paradise the New Jerusalem of the Bible s Book of Revelation This groundbreaking volume explores the conceptualization of America as the New Jerusalem from the time of Columbus to the Puritan colonists through U S expansion and from the eras of Reagan to Trump While the metaphor of the New Jerusalem has been useful in portraying a shining God blessed refuge with open gates it has also been used to exclude attack and criminalize unwanted peoples Yii Jan Lin shows how newspapers political speeches sermons cartoons and novels throughout American history have used the language of Revelation to define immigrants as God s enemies who must be shut out of the gates This book exposes Revelation s apocalyptic logic at work in the history of Chinese exclusion the association of the unwanted with disease the contradictions of citizenship laws and the justification for building a U S Mexico wall like the wall around the New Jerusalem This book is a fascinating analysis of the religious biblical and apocalyptic in American immigration history and a damning narrative that weaves together American religious history immigration and ethnic studies and the use of biblical texts and imagery
