Images of the Body in India Axel Michaels, Christoph Wulf, 2012-03-12 This intriguing book engages with the concept of the body in its

cultural context by acknowledging and demonstrating that the human body is understood differently in Western and Indian cultures. The contributors go on to show that any attempt to put forward a single concept of the body within Indian culture would be misleading. Divided into three parts, the book examines the considerable and often conflicting variations in body images and body concepts. In Part One, the contributors focus on the representation of the body in religious and philosophical texts, representations that emerged from reading, translating and interpreting classical writings from diverse historical and anthropological approaches. Through predominantly ethnographic studies, Part Two explores the role of the body in narratives and ritual performance from dance to ritualistic ceremonies. Visualisation processes of the body are examined in Part Three, focusing on developments in modern and contemporary periods from visual practices at the Mughal court to the multiple bodies of the bride and the influence of new media. This volume is a fascinating collection of articles for those in the fields of sociology and anthropology, history, religion, cultural studies and South Asian studies. *Shooting a Tiger* Vijaya Ramadas Mandala, 2018-10-18

The figure of the white hunter sahib proudly standing over the carcass of a tiger with a gun in hand is one of the most powerful and enduring images of the empire. This book examines the colonial politics that allowed British imperialists to indulge in such grand posturing as the rulers and protectors of indigenous populations. This work studies the history of hunting and conservation in colonial India during the high imperial decades of the nineteenth and early twentieth centuries. At this time, not only did hunting serve as a metaphor for colonial rule, signifying the virile sportsmanship of the British hunter, but it also enabled vital everyday governance through the embodiment of the figure of the officer-hunter-administrator. Using archival material and published sources, the author examines hunting and wildlife conservation from various social and ethnic perspectives and also in different geographical contexts, extending our understanding of the link between shikar and governance. **Servants of the Dynasty** Anne Walthall, 2008-06-10

This book offers a new perspective on the monarchies that have dominated much of human history by offering a comparative view of the women who lived, worked and served in royal courts around the globe. The authors of this volume—historians, anthropologists and archaeologists—investigate women's roles in each era and locale, how those roles changed over time, and what women's histories say about the structures of power and the societies in which they lived. The authors take us to palaces in Early modern Southeast Asia, classic Maya royal courts, the Byzantine court, the harem of the Ottoman royal court, the Mughal palace, an African royal harem, the courts of Chinese Emperors and Empresses, the palace of the Shogun, the court of Versailles, Aztec palaces and a Korean court. **The History of India as Told by Its Own Historians: the Muhammadan Period** Edited from the

Posthumous Papers of the Late H. M. Elliot by John Dowson, 1873 **A Lamp for the Dark World** Parvati

Sharma, 2023-05-15 Akbar the Great is a very familiar figure to most Indians.
