Slatton, 2015-11-17 In this book Brittany

C Slatton uses innovative internet research methods to reveal contemporary prejudices about relationship partners. In doing so she thoroughly refutes the popular ideology of a post racial America. Slatton examines the deep frame of white men found in opinions and emotional reactions to black women and their body types, personalities, behaviours and styles of speech. Their internet responses to questionnaires shows how they treat as common sense radicalised gendered and classed versions of black women. Mythologizing Black Women argues that the internet acts as a backstage setting allowing white men to anonymously express raw feelings about race and sexuality without the fear of reprimand.

**Women Empowerment and the Feminist Agenda in Africa** Musingafi, Maxwell Constantine Chando, Hungwe, Chipso, 2023-10-24. This book argues that African women's lived experiences are often spoken about authoritatively by people who are not included within this demographic, relegating these women to the role of spectators in their own stories. The dominant narratives of African womanhood legitimized by intellectual discourse are neither written by African women nor Africans in general. This book seeks to place feminism in Africa into its historical context by revisiting the experiences, practices, vision and theories of feminism and gender in Africa. It is intended to serve as a comprehensive introduction to the field and provide a starting point for further and more advanced study of the nexus of feminism, gender and development in Africa. Women Empowerment and the Feminist Agenda in Africa is designed to initiate post graduate research and studies in the social sciences for directed and critical inquiry into the nature of feminist and gender politics and power relations in Africa. It is written for researchers, academics and advanced tertiary studies, although professional gender and feminist organizations, especially those in Africa or focusing on Africa, will also find a wealth of information. The book is recommended for university libraries, post graduate students and staff, the non governmental community in Africa, women movement organizations in Africa, independent researchers and academics and the African community at large.

Feminist Nightmares: Women At Odds Susan Ostrov Weisser, Jennifer Fleischnier, 1994-10. Though all women are women, no woman is only a woman, wrote Elizabeth Spelman in *The Inessential Woman*. Gone are the days when feminism translated simply into the advocacy of equality for women. Women's interests are not always aligned; race, class and sexuality complicate the equation. In recent years, feminist ideologies have become increasingly diverse. Today, one feminist's most ardent political opponent may well be another feminist. As feminism grows increasingly diverse, the time has come to ask a painful and frequently avoided question: what does it mean for women to oppress women? This pathbreaking, provocative anthology addresses this troublesome dilemma from various feminist perspectives, offering an interdisciplinary collection of writings that widens our understanding of oppression to take into account women who are at odds. The book examines the social, political and psychological ramifications of this phenomenon as evidenced in a range of texts: from women's antislavery writing to women's anti-abortion writing, from mother-daughter incest stories to maternal surrogacy narratives, from the Bible to the popular romance novel, from Jane Austen to Alice Walker. The value of the volume is perhaps best summed up by an early response to the idea: This is a book that should never be

written feminists should concentrate on how men oppress women Ironically it is precisely because the subject triggers such responses the authors argue that a volume such as *Feminist Nightmares* has become a necessity **Provocations** Susan Bordo, 2015-03-21 The first collection of its kind *Provocations A Transnational Reader in the History of Feminist Thought* is historically organized and transnational in scope highlighting key ideas transformative moments and feminist conversations across national and cultural borders Emphasizing feminist cross talk transnational collaborations and influences and cultural differences in context this anthology heralds a new approach to studying feminist history *Provocations* includes engaging historically significant primary sources by writers of many nationalities in numerous genres from political manifestos to theoretical and cultural analysis to poetry and fiction These texts range from those of classical antiquity to others composed during the Arab Spring and represent Asia the Middle East Latin America Western Europe and the United States Each section begins with an introductory essay that presents central ideas and explores connections among readings placing them in historical national and intellectual contexts and concluding with questions for discussion and reflection **Regulating the Lives of Women** Mimi Abramovitz, 2025-09-23 In the fourth edition of *Regulating the Lives of Women Social Welfare Policy from Colonial Times to the Present* Abramovitz traces how the welfare state regulated the lives of women from colonial times to the present Drawing on important feminist concepts social reproduction the gender division of labor and patriarchy Abramovitz successfully exposes the gendered and racialized myths and stereotypes built into welfare state programs The book carefully explains the contextual conditions that contributed to the precursors of the modern welfare state its rise and expansion after World War II and the recent neoliberal effort to dismantle the cash assistance programs most likely to lift women out of poverty This edition marks the most extensive overhaul to date It revises the conceptual and background chapters discusses cash assistance programs and considers emerging ideas such as the role of economic crises in the development of the US welfare state It also considers the future of the welfare state under the second Trump Presidency *Regulating the Lives of Women* is an essential resource for all students of social work sociology history political science public policy and gender studies **Africana Studies** James L. Conyers, 1997 Known variously as African studies black studies African American studies Afro American studies and Africology the academic study of the African diaspora as a holistic discipline is a relatively new phenomenon University programs have been created with reference to a disciplinary matrix retarding the development of appropriate theory and methods throughout Africana studies Fifteen leaders in the field of Africana studies provide the conceptual framework for establishing the field as a mature discipline The focus is on four basic areas administration and organizational structure disciplinary matrix Africana womanism and cultural aesthetics The work examines both the theory and the method of scholars in African and African diaspora studies **Sisterhood Questioned** Christine Bolt, 2004-07-31 This readable and informative survey including both new research and synthesis provides the first close comparison of race class and internationalism in the British and American women's movements

during this period *Sisterhood Questioned* assesses the nature and impact of divisions in the twentieth century American and British women's movements. In this lucidly written study Christine Bolt sheds new light on these differences which flourished in an era of political reaction, economic insecurity, polarizing nationalism, and resurgent anti-feminism. The author reveals how the conflicts were seized upon and publicised by contemporaries and how the activists themselves were forced to confront the increasingly complex tensions. Drawing on a wide range of sources, the author demonstrates that women in the twentieth century continued to co-operate despite these divisions and that feminist movements remained active right up to and beyond the reformist 1960s. It is invaluable reading for all those with an interest in American history, British history, or women's studies.
