Agenda For Leadership 1998:

Agenda for Leadership, 1998 Gabriela Mrad, 1998 **The Macropolitics of Congress** E. Scott Adler, John S. Lapinski, 2011-10-16 How do public laws treaties Senate confirmations and other legislative achievements help us to gain insight into how our governmental system performs This well argued book edited by Scott Adler and John Lapinski is the first to assess our political institutions by looking at what the authors refer to as legislative accomplishment The book moves beyond current research on Congress that focuses primarily on rules internal structure and the microbehavior of individual lawmakers to look at the mechanisms that govern how policy is enacted and implemented in the United States It includes essays on topics ranging from those dealing with the microfoundations of congressional output to large N empirical analyses that assess current theories of lawmaking to policy centered case studies All of the chapters take a Congress centered perspective on macropolicy while still appreciating the importance of other branches of government in explaining policy accomplishment The Macropolitics of Congress shines light on promising pathways for the exploration of such key issues as the nature of political representation It will make a significant contribution to the study of Congress and more generally to our understanding of American politics Contributors include E Scott Adler David Brady Charles M Cameron Brandice Canes Wrone Robert S Erikson Grace R Freedman Valerie Heitshusen John D Huber Ira Katznelson Keith Krehbiel John S Lapinski David Leblang Michael B MacKuen David R Mayhew Nolan McCarty Charles R Shipan James A Stimson and Garry Young

Dead Center Georgia Jones Sorenson, James Macgregor Burns, 1999-11-26 The urgent question of our time is whether we can make change our friend and not our enemy To renew America we must be bold must revitalize our democracy Together with our friends and allies we will work to shape change lest it engulf us With those inaugural words William Jefferson Clinton began his first term as President of the United States Now a Pulitzer Prize winning historian and a former White House aide provide the first penetrating thoughtful evaluation of President Clinton s leadership Before he was voted into office Bill Clinton told the authors in an interview that he wanted to be a transforming leader a president who would fashion real and lasting change in peoples lives in the tradition of Franklin Delano Roosevelt But how has this president who has sought to lead from the center with his vice president Al Gore and the First Lady Hillary Rodham Clinton measured up against his own stated goals and the aspirations and performances of other presidents since World War II From the health care debacle and the 1994 midterm elections that swept the Republicans to a majority in both houses of Congress to the effect of scandal and impeachment on his ability to govern Dead Center examines the leadership style of Bill Clinton and offers a forceful challenge to the strategy of centrism There is no more respected presidential historian than James MacGregor Burns author of several acclaimed books on leadership and the Pulitzer Prize winning study of Franklin D Roosevelt Georgia J Sorenson adds her own insights as a political scientist and presidential scholar Their combined efforts have resulted in an incisive informative authoritative work and an absorbing read **Warring Factions** Lauren Cohen

Bell, 2002 *Warring Factions* focuses on the United States Senate's confirmation process the constitutional process the Senate uses to approve or reject the president's choices to fill federal government positions It is a book about history the evolution and arguably the decline of the process Most significantly it is a book that demonstrates the extent to which interest groups and money have transformed the Senate's confirmation process into a virtual circus Based on in depth research including two dozen original interviews with United States senators former senators and Senate staff members and interest group leaders this volume demonstrates that today's confirmation process is nothing more than an extension of the Senate's legislative work Changes to internal Senate norms in the 1960s and 1970s coupled with changes to the external political environment have allowed interest groups to dominate the Senate confirmation process
