The Encyclopedia of Aging Linda S. Noelker, PhD, Kenneth Rockwood, MD, FRCPC, Richard L. Sprott, Ph.D., 2006-03-17 A COMPREHENSIVE RESOURCE ON GERONTOLOGY AND GERIATRICS Since its inception in 1987 The Encyclopedia of

Aging has proven to be the definitive resource for scholars and students across the burgeoning and increasingly interdisciplinary fields of gerontology and geriatrics. Like its three esteemed predecessors, the fourth edition contains concise, readable explorations of hundreds of terms, concepts, and issues related to the lives of older adults, as well as timely coverage of the many new programs and services for the elderly. Updated under the distinguished stewardship of editor in chief Richard Schulz to reflect the infusion of new information across the scientific disciplines, this new edition brings readers up to the moment, significant advances in biology, physiology, genetics, medicine, psychology, nursing, social services, sociology, economics, technology, and political science. While retaining the format and standard of excellence that marked the first three editions, the fourth edition encompasses a wealth of new information from the social and health sciences. It contains the most current bibliography of an expanding literature, an exhaustive index, and extensive cross references. This much anticipated update of the field's most authoritative resource will take its place as an indispensable reference for specialists and non-specialists across a broad range of disciplines that now comprise the field of aging. SPRINGER SERVING THE HEALTHCARE AND HELPING PROFESSIONS FOR MORE THAN 55 YEARS. *Ageing and Intergenerational Relations* Misa Izuhara, 2010. Examining the key aspects of the new patterns of family relations, both conceptually and empirically from a global perspective, this text covers Europe, East Asia, Sub-Saharan Africa, Thailand, and the USA, with contributions from a wide range of authors.

Cultural Diversity and Families Bahira Sherif Trask, Raeann R Hamon, 2007-01-18. *Cultural Diversity and Families: Expanding Perspectives* breaks new ground by investigating how concepts of cultural diversity have shaped the study of families from theoretical and applied perspectives. Authors Bahira Sherif Trask and Raeann R Hamon move the dialogue about culturally diverse families to a new level by topically discussing the issues affecting culturally diverse families rather than organizing the information by racial and/or ethnic groups. Key Features: Investigates the impact of cultural diversity on the study of families. In order to transcend simplistic categorizations that have juxtaposed White families in opposition to families of color and vice versa, this book delineates the increasing cultural diversity of American families and examines the impact of these demographic changes for the social sciences. Emphasizes the full range of cultural aspects. The book consciously emphasizes cultural aspects not just ethnicity but also socioeconomic status, gender, religion, etc. over racial impacts on family life so as not to reinforce the myth that race is a biological truth. By sharing unique family experiences across groups, the book enhances understanding, directs future family research, and serves these families through responsive policy and practice. Offers more coverage of culturally diverse families than any other text. Divided into three parts, this comprehensive text first sets the stage of historical, current, and projected demographic trends pertaining to American families, explores issues facing culturally diverse families from a thematic perspective, and discusses the impact of cultural diversity for family theory, research, service delivery, and public policy. Intended Audience: This is an excellent text for advanced undergraduate and graduate courses such as Families in a Multicultural Society, Ethnic Minority Families, and

Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production
