### **Aging In Ontario Diversity In The New Millennium:**

*Aging in Ontario* Wendy Lynn Maurier, Herbert C. Northcott, 2000 Geographically Ontario is the largest province in Canada with a seniors population exceeding 1.3 million persons. These seniors are diverse in terms of age, gender, ethnicity, socio-economic status, geographical location, and health. The authors examine the effects of this diversity on the aging experience and further explore the health and human service needs of these diverse groups. In addition, policy implications and challenges facing health and human service providers are also addressed. The book concludes with an overview of the availability and accessibility of services provided for Ontario seniors and evaluation of the relevance of each service or program and suggestions for prospective programs intended for the diverse population of older persons living in Ontario.

**The Culture of Welfare Markets** Ingo Bode, 2007-10-24 This book examines the rise of welfare markets in Western societies and explores their functioning, regulation, and embeddedness by addressing the particular field of old age provision, including both retirement provision and elderly care. It goes beyond a mere social policy analysis by investigating major cultural underpinnings of the new quasi-markets, with these underpinnings embracing collective normative representations of how societies should institutionally handle old age. The book looks at whether pension and care systems are converging under the influence of globalization, with marketization being a key phenomenon, and to what extent this is creating a transnational culture of welfare markets. This book is the first to systematically describe and analyse the phenomenon of welfare markets, elucidates the complex cultural underpinnings of care and pensions systems in an era of marketization, arguing that we are facing a cultural struggle over the way late modern societies conceptualize institutional old age provision.

**Global Realignments and the Canadian Nation in the Third Millennium** Karin Ikas, 2010 With aggravating global realignments, the dynamics and contradictions of a world risk society are looming ahead in the unfolding Third Millennium, while globalization is gaining further steam. To this bears witness a potpourri of often frightening geopolitical, social, cultural, economic, demographic, ecological, and other changes and challenges that give substantial cause for concern about getting lost in a trans-whatever sea of turmoil, uncertainty, and indeterminateness. The resultant current backlash, or rather renewed interest in the nation as a collective identity-establishing category, is an effort to gain some anchorage in ever more disintegrating times and proves especially those theoreticians wrong for whom the whole concept of the nation has worn off since long ago. In 16 resourceful essays, internationally distinguished Canadian and European experts from a variety of fields take a fresh look at these developments by focussing on one of the most fascinating multicultural and multifaceted nation-states in the world: Canada in the Third Millennium. The topics they discuss include, among others, Canada's difficult dissociation from Europe and the USA, the reframing and reclaiming of the Canadian story, the role of nations within the nation, the efforts to transcend the nation, pending geopolitical and geo-ecological crises, global issues, and new wars. Collectively, the entries prove that Canada is a very

progressive nation and opens up new perspectives for other collectives currently reassessing their national identities in a global environment Thus the book reaches well beyond the study of Canada and will be valuable to academics professionals teachers and students of various disciplines coping with the issue at stake as well as the general reader Canadian Books in Print Marian Butler,2000 **The Oxford Handbook of Diversity in Organizations** Regine Bendl,Inge Bleijenbergh,Elina Henttonen,Albert J. Braudo,Jeffrey Macintosh,2005-08-19 This book examines how transnational corporations small to medium enterprises and governments have emerged as the principal players in industrial development This valuable work examines this trend with particular reference to the role of the tax policy in technology development the financing of technology sector SMEs the role of government policy and the relationship between competition and co operation

**Place, Health, and Diversity** Melissa D. Giesbrecht, Valorie A. Crooks, 2016-06-03 Although health equity and diversity focussed research has begun to gain momentum there is still a paucity of research from health geographers that explicitly explores how geographic factors such as place space scale community and location inform multiple axes of difference Such axes can include residential location age sex gender race ethnicity culture religion socio economic status marital status sexual orientation education level and immigration status Specifically focussing on Canada's rapidly changing society which is becoming increasingly pluralized and diverse this book examines the place health diversity intersection in this national context Health geographers are well positioned to offer a valuable contribution to diversity focussed research because place is inextricably linked to differential experiences of health For example access to health care and health promoting services

and resources is largely influenced by where one is physically and socially situated within the web of diversity Furthermore applying geographic concepts like place in both the physical and social sense allows researchers to explore multiple axes of difference simultaneously Such geographic perspectives as presented in this book offer new insights into what makes diverse people in diverse places with access to diverse resources un healthy in different ways in Canada and beyond **The Dawn of Canada's Century** Gordon Darroch,2014-01-01 Sir Wilfrid Laurier famously claimed that the twentieth century would be Canada s century and indeed its opening decade witnessed remarkable territorial demographic and social transformations Yet the lives of those who lived and laboured to fashion these changes remain largely hidden from historical view The Dawn of Canada s Century presents close and systematic interpretations of everyday lives based on the first national sample of the 1911 census Written by many of Canada s leading historical researchers The Dawn of Canada s Century demonstrates the wide ranging and revealing social histories made possible by the new Canadian Century Research Infrastructure an innovative database of national samples of decennial census microdata from 1911 through 1951 This revealing collection sheds new light on topics including identity and language the socio demography of aboriginal populations national labour market dynamics earnings distributions social mobility gender and immigration experiences and the technologies of census taking Situating early twentieth century Canada within international historical population studies these essays provide new ways to understand individuals lives and connect them to larger structural changes Contributors include Peter Baskerville Alberta Claude Bellevance Universit du Queb c Trois Rivi re Sean T Cadigan Memorial Gordon Darroch York Lisa Dillon UdeM Chad Gaffield SSHRC Danielle Gauvreau Concordia Gustave Goldmann Ottawa Adam J Green Ottawa Kris Inwood Guelph Charles Jones Toronto Richard Marcoux Laval Mary MacKinnon McGill Chris Minns London School of Economics Byron Moldofsky Toronto France Normand Universit du Queb c Trois Rivi re Stella Park Toronto Terry Quinlan Newfoundland and Labrador Statistics Agency Laurent Richard Laval Katharine Rollwagen Ottawa Evelyn Ruppert Goldsmiths University of London Eric W Sager Victoria Marc St Hilaire Laval and Patricia Thornton Concordia
