

Growing Old Gracefully

Subi Nathivarman 2019

Strands of silver in the hair
Marks the crosses we had to bear

Rings of black around the eyes
Echoes of the lows and the highs

Advent of wrinkles and crows feet
Shows the travel in sun and sleet

Loss of weight and skinny frame
Shows the stress of winning the game

Creaking knees, aches and pains
Reminder of youth breaking reins

Glasses residing on the nose
Helps eyes to see life's throws.

All signs that time is flying
Glad to say that am not crying

But proud that these are signs
Of a life well lived that always shines.

What next as the years go by
Not rest on laurels and let time fly

Untangle this knot of being alive
Make sense of helping others thrive

Have a laugh and goof around
Look within for something profound

So much to do, before time runs out
To explore and find before we fade out

Ageing Great Britain: Parliament: House of Lords: Science and Technology Committee,2005-07-21 In the 2001 census there were more people over 65 than under 16 for the first time and 20 per cent of the UK population is expected to be over 65 years of age by 2020 Consideration of this trend normally looks negatively at the economic costs and social problems involved rather than the biological and psychological processes and so this report approaches the subject from a scientific perspective Firstly it examines the demographic background Then it considers why and how ageing occurs the ageing process and the natural degeneration of the human body and mind over time and looks at those diseases which are particularly prevalent in old age There are exciting developments in biological research into the causes of ageing and into what can be done to slow the adverse effects of the ageing process and improve the quality of life of older people In the case of the individual diseases which predominantly affect older people research is also showing promising avenues of development in prevention and treatment Next the report examines the environmental challenges assistive technology and the failure of industry to seize the opportunity to exploit the underdeveloped market that the elderly represent The Committee comments here on the failure to apply existing technologies rather than the pace of new developments The report also covers management by the Government of health in old age both for the individual and for society as a whole and the strategic direction and coordination of ageing related research It finds that research is being inhibited by two main factors which are the responsibility of the Government the treatment of the scientific aspects of ageing as very much the junior partner in any consideration of older people and a lack of coordination in particular between the research councils Lord, It's Me Again BroadStreet Publishing Group LLC,2016-01-01 Why do we find it so difficult to admit that we need God all the time He loves to meet us wherever we are and fill us with everything we need for each new day He encourages us to draw near to him with confidence boldly making our requests known As you reflect on these devotional entries scriptures and

Rosenthal,1996-08-29 This view of a

society composed of the aged as well as of the young and the middle aged is reinforced by an examination of peers bishops and members of parliament and urban office holders for whom demographic and career length information exists Many individuals had active careers until near the end of their lives the aged were neither rarities nor outcasts within their world

Spirituality and Ageing Albert Jewell,1999 Spirituality and Ageing presents the experience of ageing as an opportunity for spiritual reflection and affirmation of life The contributors are religious and spiritual leaders and ethical thinkers from a range of different backgrounds They define spirituality not just as a religious concept but as the fulfilment of the universal human need for purpose values and relationships a sense of wholeness in life This spiritual dimension helps people face the emotional and psychological challenges of growing older such as memory loss dementia bereavement and fear of death Existing systems of social care often focus on the material and physical needs of older people this collection proposes that the spiritual needs of older people are as vital a consideration for their welfare Through their spirituality older people can attain a fuller appreciation and understanding of life which can also inform and enrich the lives of others Spirituality and Ageing will be an invaluable resource to carers looking for a holistic and more reflective approach to work with older people The Handbooks of Aging James E. Betters,Susan Hunt,2021-01-25 Aging with Grace by the Power of the Gospel Whatever season of life you're in God has equipped you to flourish to live in the transforming power and beauty of his grace As we age we can easily lose sight of this message as cultural ideals glorifying youth take center stage In this book Sharon W Betters and Susan Hunt offer present day and biblical examples of women who rediscovered gospel rooted joy later in their lives Equipped with a biblical view of aging Aging with Grace will help you encounter afresh the gospel that is big enough good enough and powerful enough to make every season of life significant and
