Agonistic Imperative The Rational Burden Of Africacenteredness:

The Agonistic Imperative Kwesi Otabil,1994 This study takes issue with the notion of cultural relativism a notion which translates into the proposition that all known or knowable cultures are co equally worthy valid in their own right and need therefore to be addressed on their own terms so as to be genuinely appreciated Accredited by the liberal school of Western cultural anthropology the proposition is basically a moral concession nay a compulsion to redistributive egalitarianism within the cultural kaleidoscope that our planet has grown to be But beyond its unctuously moral appeal cultural relativism becomes an intellectual humbug For it conceals the starkly conflictual dynamic to the very comparison of cultures or peoples in the first place The dynamic is no other than the order of modernity an order that has levered into relief over the past four centuries the inequality among cultures It is mainly to help combat the propagation of said faith among Africans that I have contributed the Agonistic Imperative The last is a category for distinguishing among the culture complexes that make up the field of modernity Underlying it is the idea of self transcending unrelenting struggle as a property of the human mind an idea that finds expression in the survivalist potentials of given cultures *Conversations in Philosophy* F.
