The Agrarian History of England and Wales: Volume 4, 1500-1640 Joan Thirsk, H. P. R. Finberg, 1967-04 Volume IV of the Agrarian History 1967 examines farming in Tudor and early Stuart England and Wales **Chapters from The Agrarian History of England and Wales: Volume 4, Agricultural Markets and Trade, 1500-1750** Joan Thirsk, John Chartres, 1990 Material from The Agrarian History of England and Wales in paperback with new introductions **The Agrarian History of England and Wales: Volume 3, 1348-1500** Edward Miller, Joan Thirsk, 1991-07-18 The third volume of The Agrarian History of England and Wales which was first published in 1991 deals with the last century and a half of the Middle Ages It concerns itself with the new demographic and economic circumstances created in large measure by endemic plague **An Ungovernable People** John Brewer, John Styles, 2025-09-01 How ungovernable were seventeenth and eighteenth century Englishmen Certainly the historical evidence attests to an unruly and contumacious populace riot was widespread such criminal activities as the counterfeiting of coin flourished disorder pervaded even London's gaols and men at all levels of authority were often hard pressed to enforce the law On the other hand the ruling elite had a powerful instrument the courts for regulating not only crime but also numerous aspects of social and economic life Moreover belief in the value of the rule of law was widespread even among lawbreakers Knowledge of the law extended far beyond the patrician class and men from all classes had recourse to the courts First published in 1980 An Ungovernable People investigates these paradoxes Each chapter focusses on a particular source of conflict village regulation the price and shipment of grain the building of turnpike roads the imprisonment of debtors the circulation of counterfeit coin to assess attitudes to the law and to authority Particular emphasis is placed on the judicial process how the legal system actually worked on how often popular protest was an attempt to remind authority of its duties rather than to challenge its legitimacy and on the way in which law breaking frequently formed part of a negotiative process between rulers and ruled These chapters contribute to our understanding of the conflicts that arose when popular notions of what was just or legitimate clashed with authority and the letter of law **Creatures of Empire** Virginia DeJohn Anderson, 2006 Book Review *Chapters from The Agrarian History of England and Wales: Volume 3, Agricultural Change: Policy and Practice, 1500-1750* Joan Thirsk, 1990 Material from The Agrarian History of England and Wales in paperback with new introductions Tudor and Stuart Devon Todd Gray, Margery M. Bowden, 1990 Material from The Agrarian History of

England and Wales in paperback with new introductions **A Lost Frontier Revealed** Alan Fox,2010-04 A traveller through the length and breadth of England is soon aware of cultural differences some of which are clearly visible in the landscape The eminent English historian Charles Phythian Adams has put forth that England through much of the last millennium could be divided into regional societies which broadly coincided with groups of pre 1974 counties These shire assemblages in turn lay largely within the major river drainage systems of the country In this unusual study Alan Fox tests for and establishes the presence of an informal frontier between two of the proposed societies astride the Leicestershire Lincolnshire border which lies on the watershed between the Trent and Witham drainage basins The evidence presented suggests a strong case for a cultural frontier zone which is announced by a largely empty landscape astride the border between the contrasting settlement patterns of these neighbouring counties **Chapters of The Agrarian History of**

England and Wales: Volume 5, The Buildings of the Countryside, 1500-1750 M. W. Barley,Joan Thirsk,Maurice Willmore Barley,1990-03-22 Material from The Agrarian History of England and Wales in paperback with new introductions

Property and Dispossession Allan Greer,2018-01-11 Offers a new reading of the history of the colonization of North America and the dispossession of its indigenous peoples *Towards a Theoretical Framework for British and International Economic History* Sudha Shenoy,2010 **Chapters from the Agrarian History of England and Wales: Volume 2,**

Rural Society: Landowners, Peasants and Labourers, 1500-1750 Joan Thirsk,1990-03 Material from The Agrarian History of England and Wales in paperback with new introductions **Botanical Poetics** Jessica Rosenberg,2022-10-25

During the middle years of Queen Elizabeth s reign the number of books published with titles that described themselves as flowers gardens or forests more than tripled During those same years English printers turned out scores of instructional manuals on gardening and husbandry retailing useful knowledge to a growing class of literate landowners and pleasure gardeners Both trends Jessica Rosenberg shows reflected a distinctive style of early modern plant thinking one that understood both plants and poems as composites of small pieces slips or seeds to be recirculated by readers and planters Botanical Poetics brings together studies of ecology science literary form and the material text to explore how these developments transformed early modern conceptions of nature poetic language and the printed book Drawing on little studied titles in horticulture and popular print alongside poetry by Shakespeare Spenser and others Rosenberg reveals how early modern print used a botanical idiom to anticipate histories of its own reading and reception whether through replanting uprooting or fantasies of common property and proliferation While our conventional narratives of English literary culture in this period see reading as an increasingly private practice and literary production as more and more of an authorial domain Botanical Poetics uncovers an alternate tradition of commonplaces and common ground of slips of herbs and poetry circulated shared and multiplied **Horses, Power and Place** Neil Ward,2023-12-05 Horses Power and Place explores the

evolution of humanity s relationship with horses from early domestication through to the use of the horse as a draught animal

an agricultural industrial and military asset and an animal of sport and leisure Taking an historical approach and using Britain as a case study this is the first book length exploration of the horse in the more than human geography of a nation It traces the role and implications of horse based mobility for the evolution of settlement structure urban morphology and the rural landscape It maps the growth and various uses of horses to the point of peak horse in the early twentieth century before considering the contemporary place of the horse in twenty first century economy and society It assesses the role of the horse in the formation of places within Britain and in the formation of the nation The book reflects on the implications of this historical and contemporary equine geography for animal geographies and animal studies It argues for the study of animals in general in how places are made not just by humans Written in a clear and accessible style this book will be essential reading for students and scholars of animal geography and animal studies more widely

A Companion to Nineteenth-Century Britain Chris Williams, 2008-04-15 *A Companion to Nineteenth Century Britain* presents 33 essays by expert scholars on all the major aspects of the political social economic and cultural history of Britain during the late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading

The Agrarian History of England and Wales: Volume 2, 1042-1350 H. E. Hallam, H. P. R. Finberg, Joan Thirsk, 1967 This 1988 volume examines the agrarian history of England and Wales from Edward the Confessor to the outbreak of the Black Death in 1348

Inside the Illicit Economy Dr Evan T Jones, 2013-07-28 From the moment governments began making money from levying duty on imported goods a smuggling trade developed to avoid paying such taxes Whilst the popular image of historic smuggling remains a romantic one this book makes clear that the illicit trade could be a large scale and systematic business that relied on the connivance of well connected merchants Taking the port of Bristol as a case study the book provides the most sophisticated historical study ever undertaken of the smugglers trade in England or abroad Following on from the author's prize winning article in *Economic History Review* the volume employs the business accounts of sixteenth century merchants to reconstruct their illicit operations It presents a detailed analysis of the merchants illegal businesses assessing how individual merchants and Bristol's commercial class were able to protect their contraband trade More fundamentally it examines how and why the illicit trade developed why the Crown was unable to suppress it and the role smuggling played within Bristol's wider economy Through an investigation of these matters the study explores a world that has long attracted popular interest but which has always been assumed to be immune to serious historical investigation The book offers a pioneering study demonstrating that a detailed examination of a particular time and place based on a close and integrated reading of both official and private records can make it possible for historians to investigate illicit economies to a greater degree than has previously been believed possible

Consumption and Gender in the Early Seventeenth-Century Household Jane Whittle, Elizabeth Griffiths, 2012-03 In this vivid reconstruction of life in a seventeenth century gentry household the authors delve into the

details of everyday life how did a large wealthy household in the English countryside acquire the goods and services it needed and wanted Was household consumption an exclusively female sphere or did men play an important role too **The Agrarian History of England and Wales** Edward John T. Collins, Joan Thirsk, 2000 The unifying theme of this volume is the changing role of the countryside in national life and the impact upon it of the social and economic forces unleashed by industrialisation and the growth of towns
