Michael, 2012-12-15 Statemaking and Territory in South Asia Lessons from the Anglo Gorkha War 1814 1816 seeks to understand how European colonization transformed the organization of territory in South Asia through an examination of the territorial disputes that underlay the Anglo Gorkha War of 1814 1816 and subsequent efforts of the colonial state to reorder its territories The volume argues that these disputes arose out of older tribute taxation and property relationships that left their territories perpetually intermixed and with ill defined boundaries It also seeks to describe the long drawn out process of territorial reordering undertaken by the British in the nineteenth and twentieth centuries that set the stage for the creation of a clearly defined geographical template for the modern state in South Asia **Transnationale Geschichte** Gunilla Budde (Historikerin), Sebastian Conrad, Oliver Janz, 2006 English summary This volume discusses and compares alternative approaches of a trans national

Wielding the Ax Thaddeus Sunseri, 2014-08-26 Forests have been at the fault lines of contact between African peasant communities in the Tanzanian coastal hinterland and outsiders for almost two centuries In recent decades a global call for biodiversity preservation has been the main challenge to Tanzanians and their forests Thaddeus Sunseri uses the lens of forest history to explore some of the most profound transformations in Tanzania from the nineteenth century to the present He explores anticolonial rebellions the world wars the depression the Cold War oil shocks and nationalism through their intersections with and impacts on Tanzania's coastal forests and woodlands In *Wielding the Ax* forest history becomes a microcosm of the origins nature and demise of colonial rule in East Africa and of the first fitful decades of independence *Wielding the Ax* is a story of changing constellations of power over forests beginning with African chiefs and forest spirits both known as ax wielders and ending with international conservation experts who wield scientific knowledge as a means to controlling forest access The modern international concern over tropical deforestation cannot be understood without an awareness of the long term history of these forest struggles

The City as Target Ryan Bishop, Gregory Clancey, John W. Phillips, 2012-03-29 Bringing together scholars from a diverse range of disciplines *The City as Target* provides a sustained and critical response to the relationship between the concept of targeting in its many forms and notions of understanding imagining and shaping the urban Among the many spatial and graphic terms used to describe cities in urban studies the word target is rarely encountered Though equally spatial it differs from these others by implying some motive force and more than that a force with some intentionality To target is to aim to project and ultimately to impact It suggests a space of violence or at least action or movement resulting in displacement which most other terms do not In that sense it is useful underused and perhaps revelatory Rather than approach the city as simply a site of growth processes and developments the contributors to this volume treat it as the recipient of attentions The work draws on a wide variety of geographical sites and historic monuments in order to explore this concept examining and challenging current urban theories It seeks to highlight both the power of The Global City and the current vulnerability and fragility of urban culture exploring the city as a recipient and a culprit in relation to issues including terrorism and urban warfare the latest cyclical failure of global financial markets and the relatively new spectre of environmental unsustainability Offering a unique and relevant contribution to the literature this work will be of great interest to scholars of urban theory international relations postcolonial politics and military studies

The Nature of Entrustment Parker MacDonald Shipton, 2007-01-01 This groundbreaking book addresses issues of the keenest interest to anthropologists specialists on Africa and those concerned with international aid and development

Drawing on extensive research among the Luo people in western Kenya and abroad over many years Parker Shipton provides an insightful general ethnography. In particular he focuses closely on nonmonetary forms of exchange and entrustment moving beyond anthropology's traditional understanding of gifts loans and reciprocity. He proposes a new view of the social and symbolic dimensions of economy over the full life course including transfers between generations. He shows why the enduring cultural values and aspirations of East African people and others around the world complicate issues of credit debt and compensation. The book examines how the Luo assess obligations to intimates and strangers including the dead and the not yet born. Borrowing lending and serial passing along have ritual religious and emotional dimensions no less than economic ones. Shipton shows and insight into these connections demands a broad rethinking of all international aid plans and programs.

Savage Attack Crispin Bates, Alpa Shah, 2017-07-06 Papers presented at a conference held at London in June 2008

Future of the Forest Anand P. Vaidya, 2025-04-15 Future of the Forest is the story of legal transformations of forests across India through collective action. Since the nineteenth century Indian forest dwellers have been unable to enforce their claims to the land on which they live or the products of it that they use. But at the turn of the twenty first century a new national movement led to the passage of the Forest Rights Act a landmark law that recognizes the tenure and use rights of India's millions of landless forest dwellers. Anand P Vaidya tracks the Forest Rights Act from the movements that pushed for its passage to its drafting and the many

revisions it underwent to satisfy coalitions of local peoples conservationists and a wide spectrum of political parties and movements and finally to its impact on two neighboring villages in central India s forest belt The forests have seen a long history of political authority enacted to the benefit of the powerful Future of the Forest follows the work of activists and forest dwellers who turned to the law to shift this balance of power **The Nature State** Wilko Hardenberg,2017-07-14 Following the industrial revolution and post war exponential increase in human population and consumption conservation in myriad forms has been one particularly visible way in which the government and its agencies have tried to control manage or produce nature for reasons other than raw exploitation Using an interdisciplinary approach and including case studies from across the globe this edited collection brings together geographers sociologists anthropologists and historians in order to examine the degree to which socio political regimes facilitate and shape the emergence and development of nature states

Civil War Settlers Anders Bo Rasmussen,2022-05-19 The first thorough analysis of Scandinavian Americans examining citizenship settler colonialism and whiteness in the Civil War era **The Great Syrian Revolt and the Rise of Arab Nationalism** Michael Provence,2009-09-17 A historical study of the 1925 revolt against French rule in Syria and how it established a new popular nationalism that helped shape the Middle East The Great Syrian Revolt of 1925 was the first mass movement against colonial rule in the Middle East Mobilizing peasants workers and army veterans it was also the region s largest and longest lasting anti colonial insurgency during the inter war period Though the revolt failed to liberate Syria from French occupation it provided a model of popular nationalism and resistance that remains potent in the Middle East today Each subsequent Arab uprising against foreign rule has repeated the language and tactics of the Great Syrian Revolt In this work Michael Provence uses newly released secret colonial intelligence sources neglected memoirs and popular memory to tell the story of the revolt from the perspective of its participants He shows how Ottoman subsidized military education created a generation of leaders who rebelled against both the French Mandate rulers of Syria and the Syrian elite who helped the colonial regime This new popular nationalism was unprecedented in the Arab world Provence shows compellingly that the Great Syrian Revolt was a formative event in shaping the modern Middle East
