

Lesson 3 – Agrarian Reform from the Spanish Colonial Philippines to the Present

Objectives:

At the end of this lesson, you will be able to:

1. *familiarize key concepts of Land and Agrarian reform;*
2. *identify the Republic Acts about the Agrarian and Land Reform;*
3. *differentiate the Agrarian reform from the different administration: Pres. Ferdinand Marcos, Pres. Cory Aquino, Pres. Rodrigo Duterte ;*

Introduction

LAND REFORM has gained great significance all over the world as it aims to achieve social justice and full development of human dignity. Throughout time, the issue of land reform has been persistent, demanding measures to stop social unrest. Worst scenarios were observed during the colonial era when the Spanish colonizers introduced new land-holding systems to caciques. The introduction of Torrens system created serious inhabitants lost their ancestral domains to the colonialists.

The poor economic and social conditions of the peasants in the Philippines need immediate agrarian reform measures by the Philippine government.

Activity 1 Choose the correct word inside the box from the given definition.

<i>Encamienda</i>	<i>maharlikas</i>
<i>aliping namamahay</i>	<i>encomenderos</i>
<i>aliping saguiguilid</i>	

Encamienda 1. A system of giving lands (Royal Land Grants) to the Spanish conquerors that were loyal to the Spanish monarch.

Maharlikas 2. It means freemen.

encomenderos 3. It is termed to a person who must defend his encomienda from external attack, maintain peace and order within, and supports the missionaries.

Analysis

1. What is Agrarian Reform and Land Reform?
Agrarian reform can refer either, narrowly, to government-initiated or government-backed redistribution of agricultural land (see land reform) or, broadly, to an overall redirection of the agrarian system of the country, which often includes land reform measures.
2. How the two (Agrarian Reform and Land Reform) differ from each other?
Under his leadership, the President wants to pursue an "aggressive" land reform program that would help alleviate the life of poor Filipino farmers by prioritizing the provision of support services alongside land distribution.

[Rioting in America](#) Paul A. Gilje, 1999-03-22 a sweeping analytical synthesis of collective violence from the colonial experience to the present American Studies Gilje has written the book on rioting throughout American history The Historian a thorough illuminating and at times harrowing account of man s inhumanity to man William and Mary Quarterly fulfills its title s promise as an encyclopedic study an impressive accomplishment and required reading for anyone interested in America s contentious past Journal of the Early Republic Gilje has written a thought provoking survey of the social context of American riots and popular disorders from the Colonial period to the late 20th century a must read for anyone interested in riots Choice In this wide ranging survey of rioting in America Paul A Gilje argues that we cannot fully comprehend the history of the United States without an understanding of the impact of rioting Exploring the rationale of the American mob brings to light the grievances that motivate its behavior and the historical circumstances that drive the choices it makes Gilje s unusual lens makes for an eye opening view of the American people and their history

[The Munsee Indians](#) Robert S. Grumet, 2014-10-22 The Indian sale of Manhattan is one of the world s most cherished legends Few people know that the Indians who made the fabled sale were Munsees whose ancestral homeland lay between the lower Hudson and upper Delaware river valleys The story of the Munsee people has long lain unnoticed in broader histories of the Delaware Nation Now The Munsee Indians deftly interweaves a mass of archaeological

anthropological and archival source material to resurrect the lost history of this forgotten people from their earliest contacts with Europeans to their final expulsion just before the American Revolution Anthropologist Robert S Grumet rescues from obscurity Mattano Tackapousha Mamanuchqua and other Munsee sachems whose influence on Dutch and British settlers helped shape the course of early American history in the mid Atlantic heartland He looks past the legendary sale of Manhattan to show for the first time how Munsee leaders forestalled land hungry colonists by selling small tracts whose vaguely worded and bounded titles kept courts busy and settlers out for more than 150 years Ravaged by disease war and alcohol the Munsees finally emigrated to reservations in Wisconsin Oklahoma and Ontario where most of their descendants still live today Coinciding with the four hundredth anniversary of Hudson's voyage to the river that bears his name this book shows how Indians and settlers struggled in land deals and other transactions to reconcile cultural ideals with political realities The result is the most authoritative treatment of the Munsee experience one that restores this people to their place in history This book is published with the generous assistance of Furthermore a program of the J M Kaplan Fund

Reluctant Revolutionaries Joseph S. Tiedemann,2018-05-31 The question of why New Yorkers were such reluctant revolutionaries has long bedeviled historians In an innovative study of New York City between 1763 and 1776 Joseph S Tiedemann explains how conscientiously residents labored to build a consensus under difficult circumstances New Yorkers acted the way they did not because they were mostly loyalist or because a few patrician conservatives were able to stem the tide of revolution but because the population of their city was so heterogeneous that consensus was not easily achieved Differences within the city s pluralistic population slowed the process of hammering out a course of action acceptable to the large majority The consensus that finally emerged had to be cautious rather than militant in order to unite as many people as possible behind the revolutionary banner Ultimately the time it took was far less significant Tiedemann notes than the fact that New York proceeded to declare independence and went on to become a pivotal state in the new nation In framing his argument Tiedemann explains the limitations of interpretations offered by both progressive New Left and consensus historians Citing the work of scholars as diverse as Walter Laqueur Theda Skocpol and Louis Kreisberg Tiedemann pays close attention to the dynamics of British colonial rule and its impact on New York **Latin America, Second Edition** Robert B.

Kent,2016-04-24 An authoritative overview of Latin America's human geography and regional complexity It traces Latin America's historical developments while revealing the diversity of its people and places Coverage encompasses cultural history environment and physical geography urban development agriculture and land use social and economic processes and the contemporary patterns of Latin American diaspora Publisher description **Fast Track Land Occupations in**

Zimbabwe Kirk Helliker,Sandra Bhatasara,Manase Kudzai Chiweshe,2021-01-11 This book offers the first detailed scholarly examination of the nation wide land occupations which spread across the Zimbabwean countryside from the year 2000 and led to the state's fast track land reform programme In an innovative way it highlights the decentralized character of the occupations by recognizing significant spatial variation around a number of key themes including historical memory modes of mobilization and gender A case study of the land occupations in Mashonaland Central Province based on original research adds empirical weight to the argument In further identifying and understanding the specificities and complexities of the land occupations the book also frames them by way of a nuanced comparative historical analysis of the three zimurenga It thus examines the land occupations referred to likely controversially as the third chimurenga with reference to the original anti colonial revolt from the 1890s the first chimurenga and the war of liberation in the 1970s the second chimurenga Further the book engages critically with the ruling party's chimurenga narrative and the hegemonic understanding of the land occupations within Zimbabwean studies This book is a crucial read for all scholars and students of post 2000 land and politics in Zimbabwe but also for those more broadly interested in historical comparative analyses of land struggles in Zimbabwe and beyond **The Enterprising Admiral** Julian Gwyn,1974 The hope of prize money was the chief inducement in the

eighteenth century for the men of the Royal Navy to hazard their lives at sea Yet until now the matter has largely been ignored by historians This analysis of Vice Admiral Peter Warren's fortune which largely derived from prize money is the first study of its kind Although Warren married into the well to do New York merchant family of the DeLanceys his wealth began chiefly with the capture of French merchant ships and warships at Louisbourg in 1745 and in 1747 after the defeat of the French fleet off the coast of Spain Warren invested in America Ireland and England He bought land loaned money invested in the London stock market and dabbled in trade In America his land purchases and money lending activities were concentrated in New York and New England with some interests in South Carolina In Ireland his first concern was the recovery of his family's estate in County Meath and the purchases of other nearby properties In England he concentrated his land purchases in Hampshire while investing heavily in the government's wartime debt the stock of the great trading and insurance companies and in private mortgages and bonds Of special interest is the international character of his investments which adds a new dimension to the economic history of the Atlantic region Of particular importance also is his rise in status through wealth from the declining Catholic gentry of Ireland into which he had been born to become MP for the City of Westminster which invariably returned men of the highest social standing His wealth after his early death in 1752 also enabled his

daughters to marry into the nobility The effects of the American Revolution and the 1798 Irish uprising hastened the repatriation of his assets to England where his aristocratic heirs were content with a more modest return on Warren s capital which by then exceeded a quarter of a million pounds sterling **Agro-industrial Labour in Kenya** Gerda

Kuiper,2019-05-21 This ethnography analyses labour relations within the export oriented cut flower industry at Lake Naivasha in Kenya Though this agro industry has attracted critical attention from journalists and non governmental organizations this book is the first comprehensive social scientific analysis of the industry s labour arrangements and production processes Gerda Kuiper here interprets the work on the farms as agro industrial labour a labour system characterized by high levels of discipline and a strict rhythm of work due to the demands posed by a highly perishable agricultural product This framework enables the author to draw on insights from a wide range of anthropological and sociological studies on agro industrial wage labour around the globe This mixed methods approach deployed alongside rich ethnographic detail allows the author to center the flower farm workers in her analysis **The Tree of Liberty** Nicholas N.

Agrarian Change Muchtar Habibi,2022-11-17 Small scale agricultural producers in the peripheral world are often condescendingly assumed to be a single social class the peasantry to be pitted against the state or corporation This book challenges this rather idealistic view by demonstrating that under current capitalist social relations competition efficiency and productivity and profit maximisation these agricultural producers have been differentiated into different agrarian classes by exploitation By comparing two different contexts of local agrarian change in Indonesia rice cultivation in Java and oil palm in Sumatra this book exposes the different class locations of the agrarian classes among petty agricultural producers and the class relations between them These are often inextricably linked to gender clanship and generational issues The power of class dynamics crucially shapes how agricultural production in both rice and oil palm is organised The share received by different agrarian classes from the production site then prominently shapes the different nature of class reproduction for

each agrarian class This analysis demonstrates that the different agrarian classes possess different capacities and responses in their relation to the state or corporations Any real emancipation attempt in the Indonesian countryside and beyond must start from a proper understanding of these class dynamics This book marks a significant contribution to the literature on agrarian change the political economy of development rural development and Marxist political economy
