Agricultural Reform In Taiwan From Here To Modernity:

Agricultural Reform in Taiwan Irene Bain, 1993 In both the literal and metaphorical senses it seemed as if 1970s America was running out of gas The decade not only witnessed long lines at gas stations but a citizenry that had grown weary and disillusioned High unemployment runaway inflation and the energy crisis caused in part by U S dependence on Arab oil characterized an increasingly bleak economic situation As Edward D Berkowitz demonstrates the end of the postwar economic boom Watergate and defeat in Vietnam led to an unraveling of the national consensus During the decade ideas about the United States how it should be governed and how its economy should be managed changed dramatically Berkowitz argues that the postwar faith in sweeping social programs and a global U S mission was replaced by a more skeptical attitude about government s ability to positively affect society From Woody Allen to Watergate from the decline of the steel industry to the rise of Bill Gates and from Saturday Night Fever to the Sunday morning fervor of evangelical preachers Berkowitz captures the history tone and spirit of the seventies He explores the decade s major political events and movements including the rise and fall of d tente congressional reform changes in healthcare policies and the hostage crisis in Iran The seventies also gave birth to several social movements and the rights revolution in which women gays and lesbians and people with disabilities all successfully fought for greater legal and social recognition At the same time reaction to these social movements as well as the issue of abortion introduced a new facet into American political life the rise of powerful politically conservative religious organizations and activists Berkowitz also considers important shifts in American popular culture recounting the creative renaissance in American film as well as the birth of the Hollywood blockbuster He discusses how television programs such as All in the Family and Charlie s Angels offered Americans both a reflection of and an escape from the problems gripping the country

'From Here to Modernity' Irene Bain, 1989 Land Reform in Developing Countries Michael Lipton, 2009-06-24 Redistributing land rights is a tricky subject and one that easily becomes controversial as recent experience has shown This new book calmly examines the strengths and weaknesses of different forms of land redistribution

Taiwan's Environmental Struggle Jack Williams, Ch'ang-yi David Chang, 2008-02-25 Taiwan experienced a highly successful economic transformation in the last 50 years that produced one of Asia s genuine miracles of modern development in terms of improvement in per capita income and overall quality of material well being for its citizens The process though involved rapid industrialization and urbanization and breakneck mass consumption that inevitably resulted in rapid escalation in degradation of the island s fragile air water and land and produced some of the worst environmental pollution to be found anywhere in Asia This book examines the causes of Taiwan s environmental predicament engaging in Taiwan s unique geological geographical demographical political industrial historical and economic circumstances In addition Jack Williams and Ch ang yi David Chang assess the efforts of the government NGOs and private citizens to create a green environmentally sustainable island with a high tech economy based on the silicon chip the backbone of Taiwan s highly

successful IT industry Finally the authors discuss what can be done to improve Taiwan s environmental future As the first commercially available book in English on Taiwan s environmental problems this is an invaluable read for students and scholars interested in environmental studies sustainable development and the island of Taiwan

State Formation in China and Taiwan Julia C. Strauss,2020 An ambitious comparative study of regime consolidation in the revolutionary People s Republic of China and conservative Taiwan in the early 1950s

Handbook of Agricultural Economics Robert E. Evenson,Prabhu Pingali,2009-10-20 Advances in agriculture offer many countries the best and only chance of reducing poverty Yet economic growth and population increases are driving higher demand for food and rising real prices What solutions have successfully promoted agriculture This volume examines national and international food agriculture policies and how they enhance agricultural productivity growth It provides unique historical reviews on policies and their effects and it clearly articulates both positive and negative lessons for promoting agriculture lead growth With chapters written by international authorities this book recognizes that agriculture is not just about providing food for today but about growing it in an environmentally sustainable way that can help people work their ways out of poverty Chapters cover international macro economic policies and trade farm structure in developing countries regional experiences in agriculture and regional studies on agricultural productivity policies

Political Booms: Local Money And Power In Taiwan, East China, Thailand, And The Philippines Lynn T White,2009-06-10 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise of middle classes promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike most previous studies shows that both the roots and results of growth are largely political rather than economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the four places under consideration Violence has been common in these polities along with money Elections have contributed to socio political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non state local power affects elections By considering the effects on fair justice of local money and power largely from small and medium sized firms that emerge after agrarian reforms this book asks democrats to face squarely the extent to which electoral procedures fail to help ordinary citizens Students and scholars of Asia will all need this book as will students of the West whose methods have become parochial

Political Booms Lynn T. White,2009 Why have Taiwan rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically Do booms abet democracy Does the rise of middle classes promise future liberalization Why has Philippine democracy brought no boom and barely served the Filipino people This book unlike previous books shows that both the roots and results of growth are largely political not just

economic Specifically it pays attention to local not just national power networks that caused or prevented growth in the aforementioned countries Violence has been common in these politics along with money Elections have contributed to socio political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non state local power affects elections By considering the role of local money and power above all from small and medium sized firms that emerged after agrarian reforms on elections and justice this book asks democrats squarely to face the extent to which electoral procedures have failed to help ordinary citizens Students and scholars of Asia will all need this book as will students of the West whose methods have become parochial

The Great Transformation Robert Marsh,2016-09-16 This study of the effects and directions of social change in Taiwan examines questions such as what was the society of Taiwan like before the current period of economic growth how has it changed and are there aspects that did not change despite the significant transformation in some spheres

Group Behaviour and Development Judith Heyer,Frances Stewart,Rosemary Thorp,2002-09-19 A substantial introduction to the study of group behaviour in developing countries this text provides both relevant theoretical issues and case studies

What Has Changed? Dafydd Fell,Henning Klöter,Bi-yu Chang,2006 In March 2000 for the first time in its history Taiwan witnessed a democratic change in ruling parties Given the contrasting stances on Taiwan s political and cultural belonging held by the defeated party the KMT and the new ruling party the pro independence DPP the change was a historical turning point Although there has been increasing interest in Taiwan Studies in the last decade no single volume has yet addressed the complexity and impact of the change in ruling parties in Taiwan This book aims to fill that gap by comparing the years before and after the DPP s transition to power Although the analytical starting point is the regime change of 2000 the scope of topics goes beyond party politics Designed to provide an all encompassing view the thirteen chapters examine and evaluate the extent to which the change in Taiwan s ruling party has resulted in a political social economic and cultural transformation of the island They build a complex picture of the differences and the perhaps surprisingly high degree of continuities between the two regimes The book addresses readers interested in interdisciplinary approaches to Taiwan s recent political social and cultural changes

Reforma Agraria di Indonesia Dr. Muhammad Ilham Arisaputra, S.H., M.Kn.,2021-08-30 Pasal 33 ayat 3 UUD NRI 1945 menggariskan bahwa bumi air dan kekayaan alam yang terkandung di dalamnya dikuasai oleh negara dan dipergunakan untuk sebesar besarnya kemakmuran rakyat Pasal 33 ayat 3 tersebut mengatribusikan kewenangan kepada subjek hukum negara untuk melakukan perbuatan hukum terhadap sumber daya alam Pengelolaan sumber daya alam seharusnya memberi manfaat bagi masyarakat

secara berkeadilan dan berkelanjutan Namun yang terjadi saat ini adalah pengelolaan sumber daya alam yang lebih menitikberatkan kepada eksploitasi sumber daya alam sebagai sumber devisa negara Reforma agraria merupakan gagasan terbaik yang pernah lahir dalam rangka mengatasi persoalan tanah dan pengelolaan sumber daya alam di dunia ini Reforma agraria di Indonesia dimulai setelah lahirnya UUPA di mana pemerintah saat itu menfokuskan pada penataan dan redistribusi tanah pertanian landreform Pelaksanaan reforma agraria dapat berhasil hanya jika dilakukan dalam kerangka yang lebih luas yakni menawarkan bukan hanya akses ke lahan tetapi juga akses ke instrumen penunjang lahan tanah

The Social History of Agriculture Christopher Isett, Stephen Miller, 2016-11-09 This innovative text provides a compelling narrative world history through the lens of food and farmers Tracing the history of agriculture from earliest times to the present Christopher Isett and Stephen Miller argue that people rather than markets have been the primary agents of agricultural change Exploring the actions taken by individuals and groups over time and analyzing their activities in the wider contexts of markets states wars the environment population increase and similar factors the authors emphasize how larger social and political forces inform decisions and lead to different technological outcomes Both farmers and elites responded in ways that impeded economic development Farmers when able to trade with towns used the revenue to gain more land and security Elites used commercial opportunities to accumulate military power and slaves The book explores these tendencies through rich case studies of ancient China precolonial South America early modern France England and Japan New World slavery colonial Taiwan socialist Cuba and many other periods and places Readers will understand how the promises and problems of contemporary agriculture are not simply technologically derived but are the outcomes of decisions and choices people have made and continue to make
