Aids Sharing The Pain Pastoral Guidelines:

AIDS, Sharing the Pain Bill Kirkpatrick,1990 Pastoral Counseling for Orphans and Vulnerable Children Tuntufye Anangisye Mwenisongole,Elia Shabani Mligo,2018-04-27 The existence of orphans is as inevitable to most African cities and the world as it is death These orphans are caused by the death of one or both parents due to various reasons including the scourge of HIV and AIDS Being orphans most of them are vulnerable to difficult lives because they have nobody to fend for them and take care of their lives They lack adequate food living expenses school fees and care since their current guardians are also in adverse economic situations In such situations orphans end up living a life of hopelessness and trauma which makes them deeply remember their dead parents and the care they received from them before death Following the vulnerable situation of most orphans this book through a study done in the Tanzanian context challenges churches to extend their counseling and caring ministries to Orphans and Vulnerable Children OVC It purports that the use of narrative approach is the most effective way to enter into the world of vulnerable children in order to provide pastoral counseling to them This approach helps pastoral counselors to use life stories proverbs biblical narratives plays arts songs riddles poems symbols and images as healing and coping mechanisms for OVC Therefore this book is helpful not only to churches and their ministry to orphans and vulnerable children but also to those who care for orphans in their homes Moreover it will be helpful to children who live in adverse conditions worldwide to find ways to cope with their situations through the stories of children used inside this book *Clinical Handbook of Pastoral Counseling* Robert J. Wicks,Richard D. Understanding

the Art of Biblical Counseling Dr. Sam S. Gasela-Mhlanga, 2020-10-23 It is a Biblical Counseling book that zeros in on counseling people with HIV/AIDS in particular and any other general disease that has similar stigma in nature in general The book discusses the counsel for sexual behavioral change counseling children with HIV/AIDS women especially in Africa who face social inequality and are exposed to HIV/AIDS infections more than men The book also discusses a secular Rational Emotive Therapy as a model for interventions contrary to Biblical Counseling posing a question if Christian women can opt to use RET as alternative options Counseling people with suicidal thoughts the orphans and counseling the dying is part of the main thrust of this book As a matter of fact this book answers many questions for all Christians who are confronted by dire decisions to make about their health and lives This is a highly recommended book gives practical guidance in making one's decisions about health and choices in life for better future

The Continuing Challenge of AIDS Robert E. Beckley, Jerome R.

Koch, 2002-08-30 As the AIDS crisis spread and gained momentum Protestant Catholic and Jewish clergy in the United States and the United Kingdom became involved in sometimes surprising ways Using quantitative and qualitative data from the early 1990s and from follow up interviews conducted later in the decade the authors show that many clergy became involved in the pastoral care for and counseling of people stigmatized by AIDS including gay and bisexual men despite expressions of antipathy from their denominations Sociological theories concerning clergy roles social movements social space and social capital provide a framework for analyzing the initial findings and the data from subsequent interviews The study concludes that this small but dedicated group of clergy who ministered to the needs of this suffering population were part of a social movement that addressed a community problem despite both obstacles and opposition Using data obtained from structured interviews and responses to questionnaires concerning clergy responses to real and hypothetical situations involving people who are HIV positive or who have AIDS the authors illustrate how clergy and organized religious groups confronted a new

and acute fatal illness that was initially associated with stigmatized behavior. They demonstrate that many clergy saw their roles as advocates for these individuals and as providers of pastoral and spiritual care in spite of the rhetoric of conservative and fundamentalist clergy who condemned the victims as an example of the wrath of God against gay and bisexual men. The study also shows that even those who were less actively engaged in AIDS pastoral care and counseling demonstrated tolerance for those affected by it. Follow up interviews indicate finally that as AIDS became more of a chronic illness the social movement to provide religious and spiritual care and counseling began to wane.

Prayer as Transgression? Sheryl Reimer-Kirkham, Sonya Sharma, Rachel Brown, Melania Calestani, 2020-09-23. Healthcare settings are notoriously complex places where life and death co exist and where suffering is an everyday occurrence giving rise to existential questions. The full range of society's diversity is reflected in patients and staff. Increasing religious and ethnic plurality alongside decades of secularizing trends is bringing new attention to how religion and nonreligion are expressed in public spaces. Through critical ethnographic research in Vancouver and London *Prayer as Transgression* reveals how prayer occurs in hospitals long term care facilities and community based clinics in a variety of forms and circumstances. Prayer occurs quietly on the edges of day to day healthcare provision and in designated sacred spaces. Some requests for prayer however interrupt and transgress the clinical machinery of a hospital such as when a patient asks for prayer from the chaplain while the operating room waits. With contributions by researchers healthcare practitioners and chaplains the authors consider how prayer transgresses the clinical priorities that mark healthcare opening up ways to think differently about institutional norms and social structures. They show how prayer highlights trends of secularization and sacralization in healthcare settings. They also consider the ambivalences about prayer arising from staff and patients varied views on religion and spirituality and their associated ethical concerns amidst clinical and workload demands. A window onto religion in the public sphere *Prayer as Transgression* tells much about how people live well together even in the face of personal crises and fragilities suffering diversity and social change.
