Aids A Diary:

Unbecoming Eric Michaels, 1997 The journals of an American born anthropologist and cultural theorist who worked in Australia and died of AIDS related causes in 1988 Michaels diary offers a forceful and ironic rumination on the cultural phenomenon of AIDS how it relates to his concerns A New Look at Thai AIDS Graham Fordham, 2005 Based on original research in Northern Thailand and drawing on the breadth of indigenous Thai language materials this study offers a sustained and powerful criticism of the normative modeling of the Thai AIDS epidemic in order to elicit new and more effective points of intervention HIV Stories Jean-Pierre Boulé, 2002-01-01 Elizabeth A Kaye specializes in communications as part of her coaching and consulting practice She has edited Requirements for Certification since the 2000 01 edition

Facing It Leigh Ross Chambers, 2023-06-20 For a generation or more literary theorists have used the metaphor of the death of the author in considering the observation that to write is to abdicate control over the meanings one's text is capable of generating But in the case of AIDS diaries the metaphor can be literal *Facing It* examines the genre not in classificatory terms but pragmatically as the site of a social interaction Through a detailed study of three such diaries originating respectively in France the United States and Australia Ross Chambers demonstrates that issues concerning the politics of AIDS writing and the ethics of reading are linked by a common concern with the problematics of survivorhood Two of the diaries chosen for special attention in this light are video diaries *La Pudeur ou l'impudeur* by Herv Guibert author of *To the Friend Who Did Not Save My Life* and *Silverlake Life* by the American videomaker Tom Joslin aided by his lover and friends notably Peter Friedman The third is a defiant but anxious text *Unbecoming* by an American anthropologist Eric Michaels who died in Brisbane Australia in 1988 Other authors more briefly examined include Pascal de Duve Bertrand Duqu nelle Alain Emmanuel Dreuilhe David Wojnarowicz Gary Fisher and the filmmaker not a diarist Laurie Lynd Finally *Facing It* takes on the issue of its own relevance asking what contributions literary criticism can make in the midst of an epidemic Groundbreaking in its approach and potentially wide in its appeal The rigor of the ideas their dramatic nature and the political drive of the rhetoric all should win *Facing It* a large readership that could extend far beyond students of narrative or queer theory David Bergman Towson University editor of *Camp Grounds Style and Homosexuality* Ross Chambers is Distinguished University Professor of French and Comparative Literature University of Michigan and author of *Room for Maneuver Reading the Oppositional in Narrative and Story and Situation Narrative Seduction and the Power of Fiction*

AIDS and the Body Politic Catherine Waldby, 2003-09-02 First published in 2004 Routledge is an imprint of Taylor Francis an informa company Family Support Programs and Rehabilitation Louise Margaret Smith, Hamish P. D. Godfrey, 2013-06-29 The permanent effects of traumatic brain injury TBI are not limited to the person who suffers the injury People who care for the individual particularly family members suffer in various ways Family members are often confused as to the behavioral and neuropsychological changes that they see in a brain injured relative They can become frustrated and

angry when the individual does not return to premorbid levels of functioning They can become tired and worn down from repeated problems in trying to manage the individual s difficulties while having only fragmented information regarding them Drs Smith and Godfrey have provided a useful service for family members by summarizing important neuropsychological changes associated with TBI and providing practical guidelines for coping with these problems While the neuropsychological problems they describe are not completely understood the authors provide a useful description of many of the neuro behavioral problems seen following TBI in young adults They attempt to provide guidelines for family members that have practical utility in understanding and managing these patients Theirs is a cognitive behavioral approach that can have utility for this group of individuals I applaud their efforts to provide something systematic and practical for family members
