

2023 STRATEGIC PLAN

Mission: Powering the world's greatest Air Force...

We develop, deliver, support, and sustain war-winning capabilities.

Strengthen Our Team

Advance the professional and personal development, retention, resilience, and innovation of our workforce so every AFMC Airman and Guardian can achieve their full potential.

Revolutionize Our Processes

Implement Enterprise Solutions, Digital Materiel Management, and other methods to revolutionize critical processes in support of mission execution and the warfighter.

Amplify Warfighting Culture

Connect every AFMC Airman and Guardian to the mission and focus the materiel enterprise on delivering capabilities and services in support of operational execution and deterrence.

Deliver Integrated Capabilities

Integrate research, development, test, sustainment, support, and infrastructure to maximize readiness and lethality for each capability and across all capabilities.

Vision: One AFMC—integrated, collaborative, innovative, trusted, and empowered...Indispensable to our Nation, disruptive to our adversaries.

Air Force Plans For Peace:

The Air Force Plans for Peace, 1943-1945 Perry McCoy Smith, 1970 **Planning for Peace** United States. Congress. Senate. Foreign Relations, 1965 **Planning for Peace** United States. Congress. Senate. Committee on Foreign Relations, 1965 **The UN, Peace and Force** Michael Pugh, 2013-11-05 Restoring and maintaining peace within war torn societies is a relatively new task for the United Nations This book examines the options for the UN in the use of force to secure peace and the extent to which peacekeeping can be effectively extended to coerce warring factions A combination of internationally distinguished academics and new scholars at the forefront of research are represented making an important contribution to the debate about the role of international military operations in the maintenance of international peace and security Force Planning in an Era of Uncertainty John F. Troxell, 1997 *The Fog of Peace and War Planning* Talbot C. Imlay, Monica Duffy Toft, 2007-01-24 How do we plan under conditions of uncertainty The perspective of military planners is a key organizing framework do they see themselves as preparing to administer a peace or preparing to fight a future war Most interwar volumes examine only the 1920s and the 1930s This new volume goes back and forward in time to draw on a greater expanse of history in order to tease out lessons for contemporary planners These chapters are grouped into four periods 1815 1856 1871 1914 1918 1938 and post Second World War They progress from low tech to high tech concerns for example the first period examines armies while the second period examines navies the third assesses navies combined with air forces and finally for the Kaiser chapter explores nuclear issues and decision making **On the Wings of War and Peace** Randall Wakelam, William March, Peter Rayls, 2023-11-01 Bringing together leading researchers on Canadian air power On the Wings of War and Peace captures the history of the Royal Canadian Air Force RCAF during the first decades of the Cold War a period which marked the zenith of air force accomplishments in peacetime Canada The volume covers topics that go beyond straightforward flying operations examining policies that drove operational needs and capabilities and the personnel technical and logistical functions that made those operations possible With contributions written by former RCAF members who have both expert and personal knowledge of their topics On the Wings of War and Peace brings new perspectives to the RCAF s role in shaping the modern Canadian nation **The Bomb and America's Missile Age** Christopher Gainor, 2018-10-15 How nuclear weapons helped drive the United States into the missile age The intercontinental ballistic missile ICBM designed to quickly deliver thermonuclear weapons to distant targets was the central weapons system of the Cold War ICBMs also carried the first astronauts and cosmonauts into orbit More than a generation later we are still living with the political technological and scientific effects of the space race while nuclear armed ICBMs remain on alert and in the headlines around the world In *The Bomb and America's Missile Age* Christopher Gainor explores the US Air Force s USAF decision in March 1954 to build the Atlas America s first ICBM Beginning with the story of the guided missiles that were created before and during World War II Gainor describes how the early Soviet and American rocket programs evolved over

the course of the following decade He argues that the USAF was wrongly criticized for unduly delaying the start of its ICBM program endangering national security and causing America embarrassment when a Soviet ICBM successfully put Sputnik into orbit ahead of any American satellite Shedding fresh light on the roots of America s space program and the development of US strategic forces The Bomb and America s Missile Age uses evidence uncovered in the past few decades to set the creation of the Atlas ICBM in its true context not only in the America of the postwar years but also in comparison with the real story of the Soviet missiles that propelled the space race and the Cold War Aimed at readers interested in the history of the Cold War and of space exploration the book makes a major contribution to the history of rocket development and the nuclear age

Peace and the War Industry Kenneth Ewart Boulding, More and more people are demanding an end to violence as a means of arbitrating international demands and resolving problems between nations This collection of essays brings social scientific evidence to bear on the question of the inevitability of war and evaluates the potential for managing the international system in the interest of peace instead of war The contributors discuss methods of lowering distrust among DEGREES nations they consider whether war persists because it has become an economic necessity built into a military industrial complex They deal with implications of expansion of the military into civilian areas such as education and into increasingly sophisticated technology such as the ABM Safeguard system They discuss the involvement of social scientists in the formulation of peace and war policy Collectively these essays present the most serious questions social scientists have been asking about problems of war and peace and offer hope that the present international system dangerous and appallingly costly as it is may offer enough stability to give us time to transform it into something that better serves human needs

Missiles, Rockets, and Space in War and Peace United States. Department of the Army, 1959 United States Government Organization Manual ,1967 *Armed Forces Films for Public and Television Exhibition* ,1955 **Peace Corps Volunteer** ,1964 *Waging War, Planning Peace* Aaron Rapport, 2015-03-19 In *Waging War Planning Peace* Aaron Rapport investigates how U S presidents and their senior advisers have managed vital noncombat activities while the nation is in the midst of fighting or preparing to fight major wars

Germany, pacifism and peace enforcement Anja Dalgaard-Nielsen, 2013-07-19 Germany pacifism and peace enforcement is about the transformation of Germany s security and defence policy in the time between the 1991 Gulf War and the 2003 war against Iraq The book traces and explains the reaction of Europe s biggest and potentially most powerful country to the ethnic wars of the 1990s the emergence of large scale terrorism and the new US emphasis on pre emptive strikes Based on an analysis of Germany s strategic culture it portrays Germany as a security actor and indicates the conditions and limits of the new German willingness to participate in international military crisis management that developed over the 1990s It debates the implications of Germany s transformation for Germany s partners and neighbours and explains why Germany said yes to the war in Afghanistan but no to the Iraq War
