Air Power and Warfare Alfred F. Hurley, Robert C. Ehrhart, 1979 **Readings on the Functions of Military Air Power**, 1957 Subject Catalog, 1980 Library of Congress, 1980 Air power and warfare the proceedings of the 8th Military History Symposium United States Air Force Academy 18-20 October 1978 , American Book Publishing Record , 1981

Professional Journal of the United States Army , 2012 **Library of Congress Catalog** Library of Congress, 1980-07 *Air Force History Publications* Air Force History and Museums Program (U.S.), 2008 **Military Review** , 2012 Air University Quarterly Review , 1954 **Air University Periodical Index** , Army and Navy Bulletin , 1948 *Monographic Series* Library of Congress, *Joint Force Quarterly* , 2010 **Flying Magazine** , 1994-11 A Long Cold War Jerry Carrier, 2017-11-10 A Long Cold War is a two volume cultural history of Cold War America from 1945 to 1991 This is the story of America at her peak as a world power with the fear of nuclear war and the hyper competition with the USSR and China a good read for the historical nostalgic or even casual reader **Air Corps News Letter** , 1953

Convair B-36 Peacemaker Graham M Simons, 2024-07-25 The story of the Consolidated B 36 is unique in American aviation history The aircraft was an interesting blend of concepts proven during the Second World War combined with budding 1950s high tech systems The program survived near cancellation on six separate occasions during an extremely protracted development process It was also the symbol of a bitter inter service rivalry between the newly formed US Air Force and the well established US Navy over which of which of the two organizations would control the delivery of atomic weapons during the early years of the Cold War Entering service in 1948 the B 36 was a remarkable design It was the largest mass produced piston engine aircraft ever built having the longest wingspan of any combat aircraft in history Importantly in terms of the developing Cold War at least the B 36 was the first bomber capable of delivering any of the weapons in America s nuclear arsenal without modification To achieve this part of its role the Peacemaker had an operational range of 10 000 miles being capable of intercontinental flight without refueling It is difficult to imagine a modern aircraft remaining airborne for two days without refueling but such missions were relatively routine for the B 36 crews while there were at the time of its service questions around its flight speed the Peacemaker flew so high that this was considered of little concern few fighters of its era could reach the same altitudes and operational surface to air missiles were still in the future The B 36 despite its seemingly conventional appearance pushed the state of the art technology further than any other aircraft of its era Its sheer size brought with it structural challenges while its high altitude capabilities led to engine cooling and associated problems However all of these were finally overcome and the B 36 served well as the first Big Stick of the Cold War **Subject Catalog** Library of Congress, 1981 Flying Magazine , 1954-09
