anger coexist in the workplace and are constant With everyone in your workplace vulnerable to these highly personal potential sources of anger anger management can be particularly challenging This course will help you understand anger in the workplace by examining how people express anger pinpointing some common causes of anger and discussing how to use anger positively in the workplace After learning about these aspects of anger you ll be better prepared to manage your anger when you feel it and then use that anger to bring about positive outcomes whenever possible People have been considering and debating the right way to handle anger for millennia As long ago as 350 BC the philosopher Aristotle stated Those who are not angry at the things they should be angry at are thought to be fools and so are those who are not angry in the right way at the right time or with the right persons Virtually everyone experiences anger But it s important to realize that anger in itself is not a good or bad thing It s simply a set of physical responses emotions and behaviors triggered by a perceived threat or frustration How people cope with their own anger and anger in others makes the difference between anger as a destructive emotion and a constructive emotion In this course you ll discover that anger can be expressed appropriately and dealt with productively You ll learn about managing and controlling your own anger You ll also learn how to appropriately and effectively deal with other people s anger including how to evaluate the issue and provide constructive feedback
