Anglo-Saxon England: Volume 30 Michael Lapidge, Malcolm Godden, Simon Keynes, 2002-07-12 The pre eminence of Anglo Saxon England in its field can be seen as a result of its encouragement of interdisciplinary approaches to the study of all aspects of Anglo Saxon culture Thus this volume includes an important assessment of the correspondence of St Boniface in which it is shown that the unusually formulaic nature of Boniface s letters is best understood as a reflex of the saint s familiarity with vernacular composition A wide ranging historical contextualization of The Letter of Alexander to Aristotle illuminates the way English readers of the later tenth century may have defined themselves in contradistinction to the monstrous unknown and a fresh reading of the gendering of female portraiture in a famous illustrated manuscript of the Psychomachia of Prudentius CCCC 23 shows the independent ways in which Anglo Saxon illustrators were able to respond to their models The usual comprehensive bibliography of the previous year s publications rounds off the book and a full index of the contents of volumes 26 30 is provided Previous indexes have appeared in volumes 5 10 15 20 and 25 The Earliest English Kings D. Perspectives on Early Medieval England Debby Banham, 2022 Interrogations of materiality and geography narrative framework and boundaries and the ways these scholarly pursuits ripple out into the wider cultural sphere Early medieval England as seen through the lens of comparative and interconnected histories is the subject of this volume Drawn from a range of disciplines its chapters examine artistic archaeological literary and historical artifacts converging around the idea that the period may not only define itself but is often defined from other perspectives specifically here by modern scholarship The first part considers the transmission of material culture across borders while querying the possibilities and limits of comparative and transnational approaches taking in the spread of bread wheat the collapse of the art historical decorative and functional and the unknowns about daily life in an early medieval English hall The volume then moves on to reimagine the permeable boundaries of early medieval England with perspectives from the Baltic Byzantium and the Islamic world

including an examination of Vercelli Homily VII from John Chrysostom's Greek Homily XXIX Heron ibn Ya'y's Arabic descriptions of Bar Niyah Britain and an consideration of the Old English Orosius The final chapters address the construction of and responses to Anglo Saxon narratives past and present they look at early medieval England within a Eurasian perspective the historical origins of racialized Anglo Saxonism's and views from Oceania comparing Hiberno Saxon and Anglican Melanesian missions as well as contemporary reactions to exhibitions of Anglo Saxon kingdoms and Pacific Island cultures Contributors Debby Banham Britton Elliott Brooks Caitlin Green Jane Hawkes John Hines Karen Louise Jolly Kazutomo Karasawa Carol Neuman de Vegvar John D Niles Michael W Scott Jonathan Wilcox

Representing Beasts in Early Medieval England and Scandinavia Michael D. J. Bintley, Thomas J. T. Williams, 2015 Essays on the depiction of animals birds and insects in early medieval material culture from texts to carvings to the landscape itself For people in the early Middle Ages the earth air water and ether teemed with other beings Some of these were sentient creatures that swam flew slithered or stalked through the same environments inhabited by their human contemporaries Others were objects that a modern beholder would be unlikely to think of as living things but could yet be considered to possess a vitality that rendered them potent Still others were things half glimpsed on a dark night or seen only in the mind's eye strange beasts that haunted dreams and visions or inhabited exotic lands beyond the compass of everyday knowledge This book discusses the various ways in which the early English and Scandinavians thought about and represented these other inhabitants of their world and considers the multi faceted nature of the relationship between people and beasts Drawing on the evidence of material culture art language literature place names and landscapes the studies presented here reveal a world where the boundaries between humans animals monsters and objects were blurred and often permeable and where to represent the bestial could be to hold a mirror to the self Michael D J Bintley is Senior Lecturer in Medieval Literature at Canterbury Christ Church University Thomas J T Williams is a doctoral researcher at UCL's Institute of Archaeology Contributors No l Adams John Baker Michael D J Bintley Sue Brunning L szl S ndor Chardonnens Della Hooke Eric Lacey Richard North Marijane Osborn Victoria Symons Thomas J Williams

Medieval Herbal Remedies Anne Van Arsdall, 2023-02-28 Featured here is a modern translation of a medieval herbal with a study showing how this technical treatise on herbs was turned into a literary curiosity in the nineteenth century The contours of this second edition replicate the first however it has been revised and updated throughout to reflect new scholarship and new findings New information is presented on Oswald Cockayne the nineteenth century philologist who first translated the Old English medical texts for the modern world Here the medieval text is read as an example of technical writing i e intended to convey instructions information not as literature The audience it was originally aimed at would know how to diagnose and treat medical conditions and knew or was learning how to follow its instructions For that reason while working on the translation specialists in relevant fields were asked to shed light on its terse wording for example herbalists and physicians Unlike many current studies this work discusses the Herbarium and

other medical texts in Old English as part of a tradition developed throughout early medieval Europe associated with monasteries and their libraries The book is intended for scholars in cross cultural fields that is with roots in one field and branches in several such as nineteenth century or medieval studies for historians of herbalism medicine pharmacy botany and of the Western Middle Ages broadly and inclusively defined and for readers interested in the history of herbalism and medicine

Imagining a Medieval English Nation Kathy Lavezzo,2004 The first comprehensive analysis of English national identity in the late Middle Ages During the late Middle Ages the increasing expansion of administrative legal and military systems by a central government together with the greater involvement of the commons in national life brought England closer than ever to political nationhood Examining a diverse array of texts ranging from Latin and vernacular historiography to Lollard tracts Ricardian poetry and chivalric treatises this volume reveals the variety of forms England assumed when it was imagined in the medieval West These essays disrupt conventional thinking about the relationship between premodernity and modernity challenge traditional preconceptions regarding the origins of the nation and complicate theories about the workings of nationalism Imagining a Medieval English Nation is not only a collection of new readings of major canonical works by leading medievalists it is among the first book length analyses on the subject and of critical interest

Ramsey Anne Reiber DeWindt, Edwin Brezette DeWindt, 2006 The people of Ramsey included clerics knights and laborers and their activities overlapped to the point that the infamous tripartite division of medieval society into those who prayed fought and worked becomes meaningless The book also crosses chronological boundaries moving through decades of rebellion plague demographic turnover violence bloodshed and war and ending with religious upheaval that spelled the death of the 600 year old abbey and the intrusion of an ambitious new lay landlord with courtly connections **BOOK JACKET** **The**

Gender and the City before Modernity Lin Foxhall, Gabriele Neher, 2012-04-17 Gender and the City before Modernity presents a series of multi disciplinary readings that explore issues relating to the role of gender in a variety of cities of the ancient medieval and early modern worlds Presents an inter disciplinary collection of readings that reveal new insights into the intersection of gender temporality and urban space Features a wide geographical and methodological range Includes numerous illustrations to enhance clarity [Bishop Æthelwold, His Followers, and Saints' Cults in Early Medieval England](#) Alison Hudson, 2022 An exploration of how Æthelwold and those he influenced deployed the promotion of saints to implement religious reform Bishop Æthelwold of Winchester and his associates were some of the most radical monastic reformers in tenth century Europe In two generations they took over most of the powerful churches in the kingdom of England and implemented a number of the policies found in their ambitious monastic manifestos They also had a major impact on the early development of the kingdom itself taking a role in the establishment of a shire system that lasted a thousand years negotiations with invaders and attempts to create a standardized English language Æthelwold and his circle were also enthusiastic venerationers of saints This book examines a range of sources from hagiographies to charters from liturgy to archaeological remains to argue that saints cults helped these men and women secure their power wealth and relationships with groups outside their monasteries The saints that Æthelwold's circle promoted most lavishly were not necessarily the ones that they studied or the ones that matched their ideological agenda Rather Æthelwold's monks and nuns connected themselves to a wide range of saints including the Virgin Mary St Swithun Æthelthryth of Ely Iudoc Grimbald Botulf Cuthbert and many others Venerating these saints helped Æthelwold and his followers appeal to other groups in society including unreformed ecclesiastics lay nobles and the workers on their estates This book therefore not only has implications for the study of early English history and literature but also for the history of western European monasticism and saints cults more generally [A Historical Introduction to English Law](#) Russell Sandberg, 2023-05-11 Designed for those studying law for the first time this book explores where the English common law came from **Medicine in the English Middle Ages** Faye Getz, 1998-11-02 This book presents an engaging detailed portrait of the people ideas and beliefs that made up the world of English medieval medicine between 750 and 1450 a time when medical practice extended far beyond modern definitions The institutions of court church university and hospital which would eventually work to separate medical practice from other duties had barely begun to exert an influence in medieval England writes Faye Getz Sufferers could seek healing from men and women of all social ranks and the healing could encompass spiritual legal and philosophical as well as bodily concerns Here the author presents an account of practitioners English Christians Jews and foreigners of medical works written by the English of the

emerging legal and institutional world of medicine and of the medical ideals present among the educated and social elite How medical learning gained for itself an audience is the central argument of this book but the journey as Getz shows was an intricate one Along the way the reader encounters the magistrates of London who confiscate a bag said by its owner to contain a human head capable of learning to speak and learned clerical practitioners who advise people on how best to remain healthy or die a good death Islamic medical ideas as well as the poetry of Chaucer come under scrutiny Among the remnants of this far distant medical past anyone may find something to amuse and something to admire
