Animal And Shaman Ancient Religions Of Central Asia:

Animal and Shaman Julian Baldick, 2012-10-22 *Animal and Shaman* a comparative study of the indigenous pre Christian and pre Muslim religions of Central Asia describes a common inheritance among the beliefs of the various peoples who have lived in Central Asia or have migrated from there Scythians Huns Mongols Manchus Finns and Hungarians Shamans holy men and healers among the pagan faiths relied heavily on animal sacrifices to create spiritual purity and to nourish the soul and as a result animals and spirituality were locked in a mutually dependent embrace Julian Baldick demonstrates that in pagan times there were remarkable common features in the forms of worship and spiritual expression and that these similarities were largely based on the roles of animals in the different cultures of Central Asia He shows that these have not only survived in the myths and legends of the region but have also found their way into the mythologies of the West This analysis will be of importance to historians as well as to cultural and social anthropologists Jacket **'Pre-Islamic**

Charles Weller, 2023-04-30 The book traces the conceptual lens of historical cultural survivals from the late 19th century theories of E B Tylor James Frazer and others in debate with monotheistic degenerationists and Protestant anti Catholic polemicists back to its origins in Jewish Christian and Muslim traditions as well as later more secularized forms in the German Enlightenment and Romanticist movements These historical sources particularly the dual faith tradition of Russian Orthodoxy significantly shaped both Tsarist and later Soviet ethnography of Muslim Central Asia helping guide and justify their respective religious missionary social legal political and other imperial agendas They continue impacting post Soviet historiography in complex and debated ways Drawing from European Central Asian Middle Eastern and world history the fields of ethnography and anthropology as well as Christian and Islamic studies the volume contributes to scholarship on syncretism and conversion definitions of Islam history as identity and heritage and more It is situated within a broader global historical frame addressing debates over pre Islamic Survivals among Turkish and Iranian as well as Egyptian North African Berber Black African and South Asian Muslim Peoples while critiquing the legacy of the Geertzian cultural turn within Western post colonialist scholarship in relation to diverging trends of historiography in the post World War Two era **Early Chinese Religion, Part Two: The Period of Division (220-589 AD) (2 vols.)** John

Lagerwey, Pengzhi Lü, 2009-11-23 After the Warring States treated in Part One of this set there is no more fecund era in Chinese religious and cultural history than the period of division 220 589 AD During it Buddhism conquered China Daoism grew into a mature religion with independent institutions and together with Confucianism these three teachings having each won its share of state recognition and support formed a united front against shamanism While all four religions are covered Buddhism and Daoism receive special attention in a series of parallel chapters on their pantheons rituals sacred geography community organization canon formation impact on literature and recent archaeological discoveries This multi disciplinary approach without ignoring philosophical and theological issues brings into sharp focus the social and historical matrices of

Chinese religion Shamans in Asia Clark Chilson, Peter Knecht, 2003-12-08 Shamans throughout much of Asia are regarded as having the power to control and coerce spirits Many Asians today still turn to shamans to communicate with the world of the dead heal the sick and explain enigmatic events To understand Asian religions therefore a knowledge of shamanism is essential Shamans in Asia provides an introduction to the study of shamans and six ethnographic studies each of which describes and analyses the lives and activities of shamans in five different regions Siberia China Korea and the Ryukyu islands of southern Japan Bangladesh and Pakistan The essays show what type of people become shamans what social roles they play and how shamans actively draw from the worldviews of the communities in which they operate As the first book in English to provide in depth accounts of shamans from different regions of Asia it allows students and scholars to view the diversity and similarities of shamans and their religions Those interested in spiritual specialists the anthropological study of religion and local religions in Asia will be intrigued if not entranced by Shamans in Asia **Early Chinese Religion** John Lagerwey, Pengzhi Lü, 2009-10-30 After the Warring States treated in Part One of this set there is no more fecund era in Chinese religious and cultural history than the period of division 220 589 AD During it Buddhism conquered China Daoism grew into a mature religion with independent institutions and together with Confucianism these three teachings having each won its share of state recognition and support formed a united front against shamanism While all four religions are covered Buddhism and Daoism receive special attention in a series of parallel chapters on their pantheons rituals sacred geography community organization canon formation impact on literature and recent archaeological discoveries This multi disciplinary approach without ignoring philosophical and theological issues brings into sharp focus the social and historical matrices of Chinese religion South Asian Folklore Peter Claus, Sarah Diamond, Margaret Mills, 2020-10-28 With 600 signed alphabetically organized articles covering the entirety of folklore in South Asia this new resource includes countries and regions ethnic groups religious concepts and practices artistic genres holidays and traditions and many other concepts A preface introduces the material while a comprehensive index cross references and black and white illustrations round out the work The focus on south Asia includes Afghanistan Bangladesh India Pakistan and Sri Lanka with short survey articles on Tibet Bhutan Sikkim and various diaspora communities This unique reference will be invaluable for collections serving students scholars and the general public **Islam and the Army in Colonial India** Nile Green, 2009-05-14 Set in Hyderabad in the mid nineteenth and early twentieth centuries this book a study of the cultural world of the Muslim soldiers of colonial India focuses on the soldiers relationships with the faqir holy men who protected them and the British officers they served Drawing on Urdu as well as European sources the book uses the biographies of Muslim holy men and their military followers to recreate the extraordinary encounter between a barracks culture of miracle stories carnivals drug use and madness with a colonial culture of mutiny memoirs Evangelicalism magistrates and the asylum It explores the ways in which the colonial army helped promote this sepooy religion while at the same time attempting to control and suppress certain

aspects of it The book brings to light the existence of a distinct barracks Islam and shows its importance to the cultural no less than the military history of colonial India *Approaching Chaos* Lucy Wyatt,2010-01-16 Twenty first century civilization faces economic ecological and spiritual meltdown To survive this century as civilized people we need to refer back to a time when city life was in harmony with nature and the wider environment We cannot dismiss the ancients as primitive when they had a blueprint for civilization that first appeared over 5 000 years ago Perhaps we should look at the ancient past for solutions **Turkish Myth and Muslim Symbol** Carole Hillenbrand,2007-11-21 Turks ruled the Middle East for a millennium and eastern Europe for many centuries and it is an undoubted fact that they moulded the lands under their

dominion It is therefore something of a paradox that the history of Turkey and aspects of the identity and role of the Turks both as Muslims and as an ethnic group still remain little known in the west and undervalued in the Arabic and Persian speaking worlds This book contributes to historical scholarship on Turkey by focusing on its key foundational myth the battle of Manzikert in 1071 the Turkish equivalent of the battle of Hastings Manzikert destroyed the hold of Christian Byzantium on eastern Turkey and opened the whole country to the spread of Islam a process completed with the fall of Constantinople and Trebizond some four centuries later Translations and a close analysis of all the extant Muslim sources both Arabic and Persian which deal with the battle of Manzikert are provided in the book It also looks at these writings as literary works and vehicles of religious ideology and analyses the ongoing confrontation between the Muslim Turks and Christian Europe and the importance of Manzikert in the formation of the modern state of Turkey since 1923 *Sacred and Mythological Animals* Yowann Byghan,2020-03-25 From the household cat to horses that can fly a surprisingly wide range of animals feature in religions and mythologies all across the world The same animal can take on different roles the raven can be a symbol of evil a harbinger of death a wise messenger or a shape changing trickster In Norse mythology Odin s magical ravens perch on his shoulders and bring him news This compendium draws upon religious texts and myths to explore the ways sacred traditions use animal images themes and associations in rituals ceremonies texts myths literature and folklore across the world Sections are organized by the main animal classifications such as mammals birds reptiles fish amphibians and insects Each chapter covers one significant grouping such as dogs cats or horses first describing an animal scientifically and then detailing the mythological attributes Numerous examples cite texts or myths A final section covers animal hybrids animal monsters and mythical animals as well as stars constellations and Zodiac symbols An appendix describes basic details of the religions and mythologies covered A glossary defines uncommon religious terms and explains scientific animal names

supernatural A variety of elements of religion can be identified These include spirits ghosts life after death heaven shamans To try to reduce religion to a single original element is a mistake There may be no single origin But the individual elements have separate origins and these can be traced The common subjective component of religious elements is the numinous which is commonly ascribed to external sources identified as supernatural and spiritual The numinous sense is explained by means of certain neural processes with a focus in the temporal lobes Probably for the first time evidence is brought to bear from primatology palaeoanthropology ethnography ancient history and history of religions as well as theology neurology and psycho pharmacology The field of origins of religion has been neglected by anthropology since the 1930s but has enjoyed renewed interest from the 1990s This wide ranging interdisciplinary book makes an important contribution to the field
