Sister Ignatia Mary C. Darrah,2001-08-31 Sister Ignatia Second Edition **Alcoholism, a Source Book for the Priest**,1960 **Alcoholism and Other Drug Problems** James E. Royce,1996 The Curve of the Sacred Constantin V. Ponomareff,Kenneth A. Bryson,2006-01-01 This interdisciplinary book examines the nature of spirituality and the role it plays in the search for meaning Spirituality is a loving tendency towards the sacred In a secular environment the sacred is taken to be a power greater than self In a religious environment the Sacred refers to God or Higher Power The book examines the developments of the s Sacred in great works of art and literature as well as in medicine theology psychology philosophy and religion Spirituality also functions as an unloving tendency towards disunity or a force for evil The first part of the book examines the ways of the spiritual as a force for good and evil We have just witnessed one of the bloodiest centuries in human history The experience of two World Wars leaves a legacy of brokenness Where Nossack s reminiscences bore poetic compassionate and personal witness to the disaster Eliot s poetry reads more like a sacred and religious poem taking contemporary Western European civilization to task much like the biblical prophets of old for its spiritual bankruptcy Albert Einstein Edvard Munch s Madonna and Carl Jung s unconscious touch the curve of the Sacred in more promising places The second part examines how the search for meaning works The distinction between being human and being a person plays a central role in the life of the spiritual the spiritual is manifest in the activities taking place in the central self The central self is the locus of all thoughts feelings acts of reason and judgment conscious and unconscious processes alike The central self is the place where social relationships and environmental relationships are processed The essential feature of the central self is that it does not exist outside these processes The same spiritual energies that light up great works of art also light up our destructive side only the associations change The Priest and Mental Health Eamonn Feichin O'Doherty,1963 *The Annotated Bibliography of Alcoholics Anonymous, 1939-1989* Charles Bishop,Bill Pittman,1989 This essential reference work contains over 1 400 publications by and about AA in its 50 year history in print Intended for professional personnel in various fields e g psychiatrists librarians and clergy Covers popular and scholarly journal articles books chapters pamphlets dissertations and all AA publications Entries give bibliographical information and concise annotation Index Alcoholism, a Source Book for the Priest Raymond J. 1933 and 1956 when it is erroneously believed that the American Medical Association declared alcoholism to be a disease. This book blows out of the water the myths that AA invented the disease theory that Hazelden invented treatment that everyone flocked to Hazelden to learn how to do treatment and that AA convinced the American Medical Association to declare alcoholism to be a disease. This book shows how the scholars at Yale University created a coast to coast science based alcoholism treatment industry in the 1940s and 1950s. This book further demonstrates how Hazelden and its close ally the Johnson Institute hijacked this science based alcoholism treatment industry in the 1960s and 1970s and replaced it with one based on mysticism and faith healing. These are the events which have led to the current divorce of addiction treatment from addiction science. This book also chronicles the rebirth of pre Prohibition secret aversion treatments in the hands of new entrepreneurs such as HALCO Laboratories and the Samaritan Institutions and shows how Shadel Sanitarium turned these nostrums into legitimate scientific medicine. This book also covers the Salvation Army Volunteers of America and other faith based programs. Finally this book shows how AA groups set up AA indoctrination programs in general hospitals throughout the country starting in the 1930s. Kenneth Anderson is an extremely important voice on addiction penetrating original and deeply wise. This volume is an

important contribution to our understanding of culture and alcohol in the United States. Its appearance is also a milestone in the history of alcohol studies in American anthropology. Over the last six years the volume s editors initially along with Miriam Rodin have served as the coorganizers of the Alcohol and Drug Study Group of the American Anthropological Association AAA. In this capacity they have organized sessions at the AAA and other meetings greatly strengthened the research network with a regular and informative newsletter and painstakingly promoted the publication of anthropological work on alcohol and drugs. Appearing just as the responsibility for the Study Group is passed on to others this book is a fitting emblem of the care and energy with which its editors have built an institutional nexus for alcohol and drug anthropology in North America. The contents of this volume offer a uniquely wide sampling of the diversity of cultural patterns that make up the American experience with alcohol. The collective portrait the editors have assembled extends in several dimensions through time and history across such social differentiations as gender age grade and social class and through such major social institutions as the church and the family. Clearly the dominant dimension of variation in the material that follows however is ethnicity. The book offers us a sampler of unprecedented richness of the different
