Appalachian Bibliography, 1980, 1980 Appalachian Ways Jill Durrance, Appalachian Regional Commission, 1976 **Slavery in the American Mountain South** Wilma A. Dunaway, 2003 Wilma Dunaway breaks new ground by focusing on slave experiences on small plantations in the Upper South She argues that a region was not buffered from the political economic and social impacts of enslavement simply because it was characterized by low black population density and small slaveholdings By drawing on a massive statistical data base derived from antebellum census manuscripts and county tax records of 215 counties in nine states on a vast array slaveholder manuscripts and on regional slave narratives she pinpoints several indicators that distinguished Mountain South enslavement from the Lower South

Dunaway,2000-11-09 In The First American Frontier Wilma Dunaway challenges many assumptions about the development of preindustrial Southern Appalachia s society and economy Drawing on data from 215 counties in nine states from 1700 to 1860 she argues that capitalist exchange and production came to the region much earlier than has been previously thought Her innovative book is the first regional history of antebellum Southern Appalachia and the first study to apply world systems theory to the development of the American frontier Dunaway demonstrates that Europeans established significant trade relations with Native Americans in the southern mountains and thereby incorporated the region into the world economy as early as the seventeenth century In addition to the much studied fur trade she explores various other forces of change including government policy absentee speculation in the region s natural resources the emergence of towns and the influence of local elites Contrary to the myth of a homogeneous society composed mainly of subsistence homesteaders Dunaway finds that many Appalachian landowners generated market surpluses by exploiting a large landless labor force including slaves In delineating these complexities of economy and labor in the region Dunaway provides a perceptive critique of Appalachian exceptionalism and development **From Anatolia to Appalachia** Joseph Mendelsohn Scolnick,2003 Turkic people have been migrating to America for many centuries but this significant influx has been largely unrecognized In From Anatolia to Appalachia Scolnick and Kennedy initiate a dialogue regarding this neglected area of American history and culture This volume begins the communication with an essay reviewing existing evidence followed by interviews with knowledgeable persons about selected aspects of the population movements An introduction and conclusion give focus and unity to the various elements of the dialogue It is anticipated that this and subsequent volumes will 1 give information regarding studies of the movements of Turkic peoples to America 2 broaden understanding of American history and society 3 allow many especially in the Southeast Atlantic region of the US to better appreciate their background and place in American society 4 stimulate interest in the main subject or aspects of it both in the US and abroad 5 tie together disparate aspects of the subject as well as the persons studying them and 6 add to the general knowledge regarding migrations of peoples over many centuries In sum this dialogue intends not only to inform and interest others but also to pull together available research on the subject and stimulate new research in this and related areas of study Mountain Life & Work ,1978 Encouraging American Craftsmen Charles Counts,1972 High Mountains Rising Richard A. Straw,H. Tyler Blethen,2010-10-01 This collection is the first comprehensive cohesive volume to
