Beale, 2024-02-02 In *Transforming Choral Singing An Activist's Guide for Choir Directors* author Charles W Beale draws from his many years of choral directing experience to put forth a new vision for choral singing to move audiences and change the world He lays down a non canonical and inclusive framework grounded in critical musicology and pedagogy for mission driven and activist oriented engagement with the choral arts and provides practical takeaways for choral practitioners and conductors through a lively mix of practical workshops tips and suggestions *The Choral Singer's Survival Guide* Tony Thornton, 2005 **The Creative Choir** James Neilson Graham, 2015-05-25 Choral singing is enjoying a renaissance and this timely book contributes to our understanding of what choir work can and should be about Starting from the idea that education underpins the rehearsal process James Neilson Graham delves into the theory and practice of working with singers drawing on the insights of Emile Jaques Dalcroze in relation to movement and Valborg Werbeck Svrdrstr m in relation to the voice Singing is an aspect of our common humanity and the health of the socio musical organism finds its reflection in the choral sound How can the individual flourish in the midst of so many How can the conductor facilitate the process In lively fashion with more than seventy music examples diagrams and illustrations James Neilson Graham challenges orthodoxies and opens up new developmental pathways for the choir leader and the choral singer

Choral Singing Ursula Geisler, Karin Johansson, 2014-10-16 What role does contemporary choral activity play in the construction of social and musical meaning How can historical knowledge and analysis shed light on contemporary choral problems and possibilities And how can choral research promote the development and expansion of new music today Questions like these are addressed in this anthology from a wide range of disciplines and perspectives The book comprises a selection of papers presented at the International Conference on the Concepts and Practices of Choral Singing in Lund Sweden in October 2012 The aim of the conference was to highlight the contemporary dynamic developments in choral research and to explore interdisciplinary investigations and interaction between practice based and historical approaches The conference was also the fourth meeting of the network Choir in Focus which was initiated in 2009 at Southern Choral Centre K rcentrum Syd a joint venture between Malm Academy of Music the Department of Musicology Odeum all at Lund University Malm Symphony Orchestra and Music South Musik i Syd Sweden The continuous ambition of the network has been to provide a forum for co operation across national and disciplinary borders and to encourage debates around the musical and social function of choirs in modern society as mirroring collective and individual needs for meaning music making and well being In the introductory chapter the editors describe choral practice as a field of simultaneous re presentation re production and re creation and suggest that these three aspects may be seen as umbrella themes for the

fifteen chapters of the anthology The authors come from Sweden Norway Finland Estonia Germany United Kingdom Portugal and Belgium and explore choral practice from differing theoretical and methodological starting points Together they contribute to a transdisciplinary discussion about the origins functions and meanings of choral singing

Journal of the Fine Arts and Musical World ,1850 *Singing Out* Heather MacLachlan,2020-12-01 Can you change the world through song This appealing idea has long been the professed aim of singers who are part of choruses affiliated

with the Gay and Lesbian Association of Choruses GALA Theses choruses first emerged in the 1970s and grew out of a very American tradition of often gender segregated choral singing that explicitly presents itself as a community based activity By taking a close look at these choruses and their mission Heather MacLachlan unpacks the fascinating historical and cultural dynamics behind groups that seek to change society for the better by encouraging acceptance of LGBT identified people and promoting diversity more generally She characterizes their mission as integrationist rather than liberationist and zeroes in on the inherent tension between GALA s progressive social goals and the fact that the music most often performed by GALA groups is deeply rooted in a fairly narrowly conceived tradition of art music that identifies as white Euro centric and middle class and that much of the membership identifies as white and middle class as well Pundits often wax eloquent about the power of music asserting that it can in some positive way change the world Such statements often rest on an unexamined claim that music can and does foster social justice Singing Out GALA Choruses and Social Change tackles the premise underlying such claims analyzing groups of amateur singers who are explicitly committed to an agenda of social justice
