Artists Of World War II:

The Sketchbook War Richard Knott, 2013-06-01 During the Second World War British artists produced over 6 000 works of war art but this is not a book about art rather the stories of nine courageous war artists who ventured closer to the front line than any others in their profession Edward Ardizzone Edward Bawden Barnett Freedman Anthony Gross Thomas Hennell Eric Ravilious Albert Richards Richard Seddon and John Worsley all travelled abroad into the dangers of war to chronicle events by painting them They formed a close bond yet two were torpedoed two were taken prisoner and three died two in 1945 when the war was nearly over Men who had previously made a comfortable living painting in studios were transformed by military uniforms and experiences that were to shape the rest of their lives and their work significantly influenced the way in which we view war today Portraying how war and art came together in a moving and dramatic way and incorporating vivid examples of their paintings this is the true story behind the war artists who fought lived and died for their art on the front line of the Second World War *Artists of World War II* Barbara McCloskey, 2005-05-30 The first global survey of art in WWII this volume presents artists whose work both supported and criticized their nations war efforts Art from the Second World War Imperial War Museum (Great Britain), Roger Tolson, 2007 IWM has one of the most important collections of 20th century British art in the world Here we showcase some of the most compelling works from the Second World War Paul Nash Henry Moore and Stanley Spencer sit alongside artists who are less well known but who provide an equally fascinating powerful insight into the impact and legacy of the Second World War Publisher description World War II in American Art Robert Henkes, 2001-01-01 Analyzes American painting depicting various aspects of World War II including battle prisoners the homefront recreation and victory British Romantic Art and the Second World War Stuart Sillars, 1991-06-18 An examination of the ways in which the artists and writers of the 1940s developed and extended approaches from earlier English romanticism to provide a direct and compassionate response to the reality of contemporary destruction **A Combat Artist in World War II** Edward Reep, 2014-07-15 Many artists have fought in wars and renowned painters have recorded heroic scenes of great battles but those works were usually done long after the battles were waged Artists have also been commissioned to visit briefly war torn areas and make notes of the devastation and horror Yet few artists who were members of any armed services have drawn or painted daily while they fought alongside their comrades Edward Reep as an official combat artist in World War II painted and sketched while the battles of the Italian campaign raged around him He was shelled mortared and strafed At Monte Cassino the earth trembled as he attempted to paint the historic bombing of that magnificent abbey Later racing into Milan with armed partisans on the fenders of his Jeep he saw the bodies of Mussolini and his beautiful mistress cut down from the gas station where they had been hanged by their heels That same day he witnessed at first hand the spectacle of a large German army force holed up in a high rise office tower waiting for the chance to surrender to the proper American brass for fear of falling into the hands of the vengeful partisans

Reep's recollections of such desperate days are made more memorable in *Combat Artist* by the many painfully vivid paintings and drawings that accompany the text. Reep's battlefield drawings show us with unrelenting honesty the horrors and griefs and the bitter comedy of that war fought to end wars that only spawned more.

They Drew Fire Brian Lanker, Nicole Newnham, 2000 After the bombing of Pearl Harbor many artists sought ways to contribute to the war effort. Here is a compelling collection of paintings, drawings, and sketches that provide a stunning record of life in the trenches on the front lines and behind the scenes.

Images of War Ken McCormick, 1990 This record of war as portrayed by artists in World War II includes 500 paintings and drawings by 75 artists from 14 combatant countries.

Art and the Second World War Monica Bohm-Duchen, 2013 First published in 2013 by Lund Humphries.

War Paint Brian Foss, Professor of Art History, School for Studies in Art and Culture, 2007-01-01 In this groundbreaking examination of British war art during the Second World War, Brian Foss delves deeply into what art meant to Britain and its people at a time when the nation's very survival was under threat. Foss probes the impact of war art on the relations between art, state patronage, and public interest in art, and he considers how this period of duress affected the trajectory of British Modernism. Supported by some two hundred illustrations and extensive archival research, the book offers the richest, most nuanced view of mid-century art and artists in Britain yet written. The author focuses closely on Sir Kenneth Clark's influential War Artists' Advisory Committee and explores topics ranging from censorship to artists' finances, from the depiction of women as war workers to the contributions of war art to evolving notions of national identity and Britishness. Lively and insightful, the book adds new dimensions to the study of British art and cultural history.

[Art and Artists of Twentieth-Century China](#) Michael Sullivan, 2023-12-22 This visually stunning book focuses on the rebirth of Chinese art in the twentieth century under the influence of Western art and culture. Michael Sullivan, recognized throughout the world as a leading scholar of Chinese art, vividly documents the conflicting pulls of traditional and Western values on Chinese art and provides 364 illustrations in color and black and white to show the great range of artistic expression and the historical processes that occurred within various movements. A substantial biographical index of twentieth-century Chinese artists is a valuable addition to the text. Sullivan discusses artists and their work against China's background of oppression and relaxation, despair and hope. He expertly conveys the diverse and at times bizarre intertwining of Chinese cultural history and art during this century. Included are the intense debates between traditionalists and reformers, the creation of the first art schools, and the birth of the idea, shocking in ethnocentric China, that art is a world language that obliterates all frontiers. The scholarly traditions of classical Chinese painting, the belated discovery of Western modernism, the artistic upheaval under Communism, and China's rethinking of the very nature of art all have a place in Sullivan's fascinating history. Michael Sullivan has known many of the major figures in China's modern art movement of the 1930s and 1940s and has also gained the confidence of younger artists who rose to prominence following the 1979 Peking Spring. This long-awaited book is richly documented and abundantly

illustrated is a capstone to Sullivan's work and will be enthusiastically welcomed by art lovers everywhere

American Women During World War II Doris Weatherford, 2009-10-16 American Women during World War II documents the lives and stories of women who contributed directly to the war effort via official and semi-official military organizations as well as the millions of women who worked in civilian defense industries ranging from aircraft maintenance to munitions manufacturing and much more. It also illuminates how the war changed the lives of women in more traditional home front roles. All women had to cope with rationing of basic household goods and most women volunteered in war-related programs. Other entries discuss institutional change as the war affected every aspect of life including schools, hospitals, and even religion. American Women during World War II provides a handy one-volume collection of information and images suitable for any public or professional library.
