International Handbook of Underwater Archaeology

Carol V. Ruppe,Jane F. Barstad,2013-11-11 Although underwater archaeology has assumed its rightful place as an important subdiscipline in the field the published literature has not kept pace with the rapid increase in the number of both prehistoric and historic underwater sites The editors have assembled an internationally distinguished roster of contributors to fill this gap In addition to both geographical and topical approaches the chapters also focus on technology law public and private institutional roles and goals and the research and development of future technologies and public programs *Nā Kua'āina*

Davianna Pōmaika'i McGregor,2007-04-30 The word kua ina translates literally as back land or back country Davianna Pōmaika'i McGregor grew up hearing it as a reference to an awkward or unsophisticated person from the country However in the context of the Native Hawaiian cultural renaissance of the late twentieth century kua ina came to refer to those who actively lived Hawaiian culture and kept the spirit of the land alive The mo'olelo oral traditions recounted in this book reveal how kua ina have enabled Native Hawaiians to endure as a unique and dignified people after more than a century of American subjugation and control The stories are set in rural communities or cultural kōpuka oases from which traditional Native Hawaiian culture can be regenerated and revitalized By focusing in turn on an island Mōloka'i moku the districts of Hana Maui and Puna Hawai'i and an ahupua'a Waipi'o Hawai'i McGregor examines kua ina life ways within distinct traditional land use regimes The lelo no'eau descriptive proverbs and poetical sayings for which each area is famous are interpreted offering valuable insights into the place and its overall role in the cultural practices of Native Hawaiians Discussion of the landscape and its settlement the deities who dwelt there and its rulers is followed by a review of the effects of westernization on kua ina in the nineteenth century McGregor then provides an overview of social and economic changes through the end of the twentieth century and of the elements of continuity still evident in the lives of kua ina The final chapter on Kaho'olawe demonstrates how kua ina from the cultural kōpuka under study have been instrumental in restoring the natural and cultural resources of the island

Astronomy Across Cultures

Helaine Selin,2012-12-06 Astronomy Across Cultures A History of Non Western Astronomy consists of essays dealing with the astronomical knowledge and beliefs of cultures outside the United States and Europe In addition to articles surveying Islamic Chinese Native American Aboriginal Australian Polynesian Egyptian and Tibetan astronomy among others the book includes essays on Sky Tales and Why We Tell Them and Astronomy and Prehistory and Astronomy and Astrology The essays address the connections between science and culture and relate astronomical practices to the cultures which produced them Each essay is well illustrated and contains an extensive bibliography Because the geographic range is global the book fills a gap in both the history of science and in cultural studies It should find a place on the bookshelves of advanced undergraduate students graduate students and scholars as well as in libraries serving those groups

Hawai'i Canoes of the Grand Ocean Nancy Jane Morris, Love Dean, 1992 Anne Di Piazza, Erik Pearthree, 2008 This collection of essays examines the canoes of the Pacific islands The first section reflects the strangeness of the canoes to early European explorers looking at their accounts and at exchanges between islanders and Europeans There is also a fascinating piece about the importance of the canoe in Polynesian conceptions of space and time

Indigenous Perspectives on Sacred Natural Sites Jonathan Liljeblad, Bas Verschuuren, 2018-12-17 Much previous literature on sacred natural sites has been written from a non indigenous perspective In contrast this book facilitates a greater self expression of indigenous perspectives regarding treatment of the sacred and its protection and governance in the face of threats from various forms of natural resource exploitation and development It provides indigenous custodians the opportunity to explain how they view and treat the sacred through a written account that is available to a global audience It thus illuminates similarities and differences of both definitions interpretations and governance approaches regarding sacred natural phenomena and their conservation The volume presents an international range of case studies from the recent controversy of pipeline construction at Standing Rock a sacred site for the Sioux people spanning North and South Dakota to others located in Australia Canada East Timor Hawaii India Mexico Myanmar Nigeria and the Philippines Each chapter includes an analytical introduction and conclusion written by the editors to identify common themes unique insights and key messages The book is therefore a valuable teaching resource for students of indigenous studies anthropology religion heritage human rights and law nature conservation and environmental protection It will also be of great interest to professionals and NGOs concerned with nature and heritage
