As I Was Saying Vol 1 Texas Pre Texas Cambridge:

As I Was Saying, Volume 1 Colin Rowe, 1999-08-18 Colin Rowe has achieved legendary status as one of a handful of outstanding studio teachers of architecture and urban design to emerge within the last two generations. His writings reveal the powerful insight and dispassionate authoritative intelligence that mark him as one of the preeminent architectural thinkers of this perplexing half century. Divided into three volumes in more or less chronological order, *As I Was Saying* includes articles, essays, eulogies, lectures, reviews, and memoranda. Some appeared only in obscure journals and many are published here for the first time.

Radical Pedagogies Beatriz Colomina, Ignacio G. Galán, Evangelos Kotsioris, Anna-Maria Meister, 2022-05-31 Experiments in architectural education in the post World War II era that challenged and transformed architectural discourse and practice. In the decades after World War II, new forms of learning transformed architectural education. These radical experiments sought to upend disciplinary foundations and conventional assumptions about the nature of architecture as much as they challenged modernist and colonial norms, decentered building, imagined new roles for the architect, and envisioned participatory forms of practice. Although many of the experimental programs were subsequently abandoned, terminated, or assimilated, they nevertheless helped shape and in some sense define architectural discourse and practice. This book explores and documents these radical pedagogies and efforts to defy architecture's status quo. The experiments include the adaptation of Bauhaus pedagogy as a means of unlearning under the conditions of decolonization in Africa; a movement to design for every body, including the disabled; by architecture students and faculty at the University of California Berkeley; the founding of a support network for women interested in the built environment regardless of their academic backgrounds; and a design studio in the USSR that offered an alternative to the widespread functionalist approach in Soviet design. Viewed through their dissolution and afterlife as well as through their founding stories, these projects from the last century raise provocative questions about architecture's role in the new century.
