Encounters with British Composers Andrew Palmer,2015 Contemporary British composers talk about their music with the emphasis on the aesthetic sensibilities and psychological processes behind composing rather than technique This book

features interviews with leading and upcoming British composers who use the same raw materials but produce classical music that takes very different forms. Uniquely, Andrew Palmer approaches the sometimes baffling world of contemporary music from the point of view of the inquisitive music-loving amateur rather than the professional critic or musicologist. Readers can eavesdrop on conversations in which composers are asked a number of questions about their professional lives and practices with the emphasis on the aesthetic sensibilities and psychological processes behind composing rather than technique. Throughout the book, it seeks to explore why composers write the kind of music they write and what they want their music to do. Along the way, readers are confronted with an unspoken but equally important question: if some composers are writing music that the public doesn't want to engage with, who's to blame for that? Are composers out of touch with their public, or are we too lazy to give their music the attention it deserves?

ANDREW PALMER is a freelance writer and photographer. He is editor of *Composing in Words*. William Alwyn on His Art, Toccata Press, 2009; author of *Divas In Their Own Words*, Vernon Press, 2000; and co-author of *A Voice Reborn*, Arcadia Books, 1999. Since 1998, he has been a corresponding editor of *Strings* magazine, USA. Interviewees include Julian Anderson, Simon Bainbridge, Sally Beamish, George Benjamin, Michael Berkeley, Judith Bingham, Harrison Birtwistle, Howard Blake, Gavin Bryars, Diana Burrell, Tom Coult, Gordon Crosse, Jonathan Dove, David Dubery, Michael Finnissy, Cheryl Frances Hoad, Alexander Goehr, Howard Goodall, Christopher Gunning, Morgan Hayes, Robin Holloway, Oliver Knussen, James MacMillan, Colin Matthews, David Matthews, Peter Maxwell Davies, John McCabe, Thea Musgrave, Roxanna Panufnik, Anthony Payne, Elis Pehkonen, Joseph Phibbs, Gabriel Prokofiev, John Rutter, Robert Saxton, John Tavener, Judith Weir, Debbie Wiseman, Christopher Wright.

Encounters of Mind, Douglas L. Berger, 2015-02-23. Discusses the journey of Buddhist ideas on awareness and personhood from India to China. *Encounters of Mind* explores a crucial step in the philosophical journey of Buddhism from India to China and what influence this step, once taken, had on Chinese thought in a broader scope. The relationship of concepts of mind or awareness to the constitution of personhood in Chinese traditions of reflection was to change profoundly after the Cognition School of Buddhism made its way to China during the sixth century. India's Buddhist philosophers had formulated the idea that in order for human beings to achieve perfect enlightenment, they had to produce a state of awareness through practice that they described as luminous. However, once introduced to the Chinese tradition, the concept of the luminous mind was to become a condition already found within human nature for the possibility of achieving human ideals. This notion of the luminous mind was to have far-reaching significance both for Chinese Buddhism and for medieval Confucianism. Douglas L. Berger follows the transforming path of conceptions of the luminosity of consciousness and the perfectibility of personhood in order to bring into clearer relief the history of Indian and Chinese philosophical dialogue as well as in the hope that such dialogue will be reignited.

research with state of the art instruments such as the Hubble Space Telescope that can see back to nearly the beginning of the Universe By combining archival research that reveals fascinating details about the personalities rivalries and insights of the astronomers who created extragalactic astronomy with the latest data gleaned from a host of observations the authors provide a view of galaxies and their place in our understanding of the Universe as they have never been seen before
