The Man Who Invented Gender Professor Department of English Terry Goldie, Terry Goldie, 2014-01-01 In 1955 the controversial and innovative sexologist John Money first used the term gender in a way that we all now take for granted to describe a human characteristic Money s work broke new ground and gave currency to medical ideas about human sexuality As an ardent advocate for sexual liberation he became something of a fixture in the popular imagination This book cuts through Money's talent for polemic and self promotion by digging into the substance of Money's theories and achievements It offers for the first time a balanced and probing textual analysis of this pioneering scholar's writing to assess Money's profound impact on the debates and research on sexuality and gender that dominated the last half of the twentieth century Through his analysis Goldie recovers Money's brilliance and insight from simplistic dismissals of his work due to his involvement in the tragic David Reimer case while never losing sight of his flaws Social Psychology and Human Sexuality Roy F. Baumeister, 2001 Presents a selected group of influential articles dealing specifically with the social aspects of sexuality topics covered include differences between male and female sexuality virginity harassment rape and coercion and jealousy Metacontent Ashkan Tashvir,2024-07-26 How do you make sense of the world and everything in it Imagine possessing the ability to delve into the depths of why you make sense of existence and everything in it as you do and then act accordingly Would you be able to move past current limitations actual or perceived Could you identify new opportunities you hadn t seen before Would you understand yourself others and the world in a more comprehensive and accurate way In a world overflowing with information rife with confusion and inauthenticities and where quick fixes and superficial solutions are commonly favoured the key to genuine comprehension and sustainable change lies deep beneath the surface In METACONTENT Ashkan Tashvir takes you on an insightful journey into the intricate multi dimensional aspects of sense making how we interpret complex information and experiences to create meaning and navigate the world Failing to adhere to a comprehensive sense making process leads to further confusion misunderstandings suboptimal decisions decision paralysis and missed opportunities impacting your ability to lead a fulfilling and effective life Tashvir not only synthesises a range of insights from science and philosophy but also introduces a disruptive metacontent discourse that dispels the myths explores the profound depths of sense making and reveals the intricate layers that shape our understanding of everything from material reality to abstract ideas and manufactured constructs and institutions Discover the groundbreaking Nested Theory of Sense making Central to this book Tashvir reveals his Nested Theory of Sense making for the first time This original concept provides a structured multilayered approach for navigating life's complexities and transforming your analysis and decision making abilities METACONTENT follows Tashvir's best selling books BEING HUMAN BEING and BECOMING The Emergence of Being Far from the Tree
