As Others Read Us International Perspectives On American Literature:

Parapositions: Prefacing American Literature in Bulgarian Translation 1948-1998 Milena Katsarska, 2021-07-07

This study analyzes the social significance of prefaces with reference to Bulgarian editions of American literature published between 1948 and 1998. Such prefaces present a diverse body of texts in different voices involving numerous actors in the cultural sphere. These raise a range of interesting questions: How do prefaces in Bulgaria structure American literary and cultural studies? What ideological dimensions are found in them through the communist period and immediately afterwards? How are questions about race mediated? What do they indicate about Bulgaria's relations to the USA, the former USSR and other European countries? How aware are American Studies scholars of the underlying presumptions of their professional field? These and other important questions are carefully considered in this book while exploring a large body of fascinating source material which has received little systematic attention so far.

The History of American Literature on Film Thomas Leitch, 2019-06-13

From William Dickson's Rip Van Winkle films 1896 to Baz Luhrmann's big budget production of *The Great Gatsby* 2013 and beyond cinematic adaptations of American literature participate in a rich and fascinating history. Unlike previous studies of American literature and film which emphasize particular authors like Edith Wharton and Nathaniel Hawthorne, particular texts like *Moby Dick*, particular literary periods like the American Renaissance or particular genres like the novel, this volume considers the multiple functions of filmed American literature as a cinematic genre in its own right, one that reflects the specific political and aesthetic priorities of different national and historical cinemas, even as it plays a decisive role in defining American literature for a global audience.

Nineteenth-Century U.S. Literature in Middle Eastern Languages Jeffrey Einboden, 2013-05-20

A transnational study of the American Renaissance which explores the literary circulation of Middle Eastern translations of 19th century U.S. literature. In a pioneering approach to classic U.S. Literature, Jeffrey Einboden traces the global afterlives of literary icons from Washington Irving to Walt Whitman and analyses 19th century American authors as they now appear in Arabic, Hebrew and Persian translation. Crossing linguistic, cultural and national boundaries, Middle Eastern renditions of U.S. texts are interrogated as critical readings and illuminating revisions of their American sources. Why does *Moby Dick* both invite and resist Arabic translation? What are the religious and aesthetic implications of re-writing *Leaves of Grass* in Hebrew? How does rendering *The Scarlet Letter* into Persian transform Hawthorne's infamous symbol? Uncovering the choices and changes made by prominent Middle Eastern translators, this study is the first to reveal the significance of orienting American classics.

Comparative Cultural Studies and Latin America Sophia A.

McClennen, Earl E. Fitz, 2004. The genesis of Comparative Cultural Studies and Latin America stems from the contributors' conviction that, given its vitality and excellence, Latin American literature deserves a more prominent place in comparative

literature publications curricula and disciplinary discussions The editors introduce the volume by first arguing that there still exists in some quarters a lingering bias against literature written in Spanish and Portuguese Secondly the authors assert that by embracing Latin American literature and culture more enthusiastically comparative literature would find itself reinvigorated placed into productive discourse with a host of issues languages literatures and cultures that have too long been paid scant academic attention Following an introduction by the editors the volume contains papers by Gene H Bell Villada on the question of canon by Gordon Brotherston and Lucia de S on the First Peoples of the Americas and their literature by Elizabeth Coonrod Mart nez on the Latin American novel of the 1920s by Rom n de la Campa on Latin American Studies by Earl E Fitz on Spanish American and Brazilian literature by Roberto Gonz lez Echevarr a on Latin American and comparative literature by Sophia A McClennen on comparative literature and Latin American Studies by Alberto Moreiras on Borges by Julio Ortega on the critical debate about Latin American cultural studies by Christina Marie Tourino on Cuban Americas in New York City by Mario J Vald s on the comparative history of literary cultures in Latin America and by Lois Parkinson Zamora on comparative literature and globalization The volume also contains a bibliography of scholarship in comparative Latin American culture and literature and biographical abstracts of the contributors to the volume **Richard**

Cold War the United States encountered unexpected challenges from Italy and France two countries with the strongest and determinedly most anti American Communist Parties in Western Europe Based primarily on new evidence from communist archives in France and Italy as well as research archives in the United States Alessandro Brogi's original study reveals how the United States was forced by political opposition within these two core Western countries to reassess its own anticommunist strategies its image and the general meaning of American liberal capitalist culture and ideology Brogi shows that the resistance to Americanization was a critical test for the French and Italian communists own legitimacy and existence Their anti Americanism was mostly dogmatic and driven by the Soviet Union but it was also at crucial times subtle and ambivalent nurturing fascination with the American culture of dissent The staunchly anticommunist United States Brogi

argues found a successful balance to fighting the communist threat in France and Italy by employing diplomacy and fostering instances of mild dissent in both countries Ultimately both the French and Italian communists failed to adapt to the forces of modernization that stemmed both from indigenous factors and from American influence Confronting America illuminates the political diplomatic economic and cultural conflicts behind the U S communist confrontation *The Americanization of Europe* Alexander Stephan,2006 Using Germany as a case study of the impact of American culture throughout a period characterized by a totalitarian system two destructive wars ethnic cleansing and economic disaster this book explores the political and cultural parameters of Americanization and anti Americanism **Literary Agents in the Transatlantic Book**

Trade Cécile Cottenet,2017-04-07 By way of a case study of one of the oldest French book agencies Agence Hoffman this book analyzes the role played by French literary agents in the importation of US fiction and literature into France in the years following World War II It sheds light on the material conditions of the circulation of texts across the Atlantic between 1944 and 1955 exploring the fine mechanisms of agents negotiations which allowed texts and ideas to cross borders While providing comparative insights into the history of publishing in France and in the United States in the immediate aftermath of the war this book aims at foregrounding the role of the book agent an all too often neglected intermediary in the field of book history Grounded in archival work conducted both in France and the United States this study is based on previously unexamined correspondence Considering the concept of mediation as central in the field of print culture this book addresses the dearth of scholarship on literary agents on both sides of the Atlantic and intersects with the current scholarship on transatlantic internationalism and transnational cultural and trade networks as evidenced by the recently emerged field of sociology of translation in Europe **Contemporary American Fiction in the European Classroom** Laurence W.

Mazzeno,Sue Norton,2022-04-06 This book offers insight into the ways students enrolled in European classrooms in higher education come to understand American experience through its literary fiction which for decades has been a key component of English department offerings and American Studies curricula across the continent and in Great Britain and Ireland The essays provide an understanding of how post World War II American writers some already elevated to canonical status and some not are represented in European university classrooms and why they have been chosen for inclusion in coursework The book will be of interest to scholars and teachers of American literature and American studies and to students in American literature and American studies courses Transatlantic Conversations Beth L. The Prague Spring and the Warsaw Pact Invasion of Czechoslovakia in 1968 Günter Bischof, Stefan Karner, Peter

Ruggenthaler, 2010-01-01 On August 20 1968 tens of thousands of Soviet and East European ground and air forces moved into Czechoslovakia and occupied the country in an attempt to end the Prague Spring reforms and restore an orthodox Communist regime The leader of the Soviet Communist Party Leonid Brezhnev was initially reluctant to use military force and tried to pressure his counterpart in Czechoslovakia Alexander Dubcek to crack down But during the summer of 1968 after several months of careful deliberations the Soviet Politburo finally decide that military force was the only option left A large invading force of Soviet Polish Hungarian and Bulgarian troops received final orders to move into Czechoslovakia within 24 hours they had established complete military control of Czechoslovakia bringing an end to hopes for socialism with a human face Dubcek and most of the other Czechoslovak reformers were temporarily restored to power but their role from late August 1968 through April 1969 was to reverse many of the reforms that had been adopted In April 1969 Dubchek was forced to step down for good bringing a final end to the Prague Spring Soviet leaders justified the invasion of Czechoslovakia by claiming that the fate of any socialist country is the common affair of all socialist countries and that the Soviet Union had both a right and a sacred duty to defend socialism in Czechoslovakia The invasion caused some divisions within the Communist world but overall the use of large scale force proved remarkably successful in achieving Soviet goals The United States and its NATO allies protested but refrained from direct military action and covert operations to counter the Soviet led incursion into Czechoslovakia The essays of a dozen leading European and American Cold War historians analyze this turning point in the Cold War in light of new documentary evidence from the archives of two dozen countries and explain what happened behind the scenes They also reassess the weak response of the United S
