Asger Jorn For The People:

The Art and Politics of Asger Jorn Karen Kurczynski, 2017-07-05 A leading figure of the postwar avant garde Danish artist Asger Jorn has long been recognized for his founding contributions to the Cobra and Situationist International movements yet art historical scholarship on Jorn has been sparse particularly in English This study corrects that imbalance offering a synthetic account of the essential phases of this prolific artists career It addresses his works in various media alongside his extensive writings and his collaborations with various artists groups from the 1940s through the mid 1960s Situating Jorn s work in an international post Second World War context Karen Kurczynski reframes our understanding of the 1950s away from the Abstract Expressionist focus on individual expression toward a more open ended conception of art as a public engagement with contemporary culture and politics Kurczynski engages with issues of interest to twenty first century artists and scholars highlighting Jorn s proposition that the sensory address of art and its complex relationship to popular media can have a direct social impact Perhaps most significantly this study foregrounds Jorn s assertion that creativity is crucial to subjectivity itself in our increasingly mediated Society of the Spectacle **Asger Jorn** Virtus Schade, 1965 *Asger Jorn* Asger Jorn, 2002 Guy Debord, the Situationist International, and the Revolutionary Spirit James Trier, 2019-07-15 Winner of the 2020 Choice Outstanding Academic Title Award Guy Debord the Situationist International and the Revolutionary Spirit presents a history of the two avant garde groups that French filmmaker and subversive strategist Guy Debord founded and led the Lettrist International 1952 1957 and the Situationist International 1957 1972 Debord is popularly known for his classic book *The Society of the Spectacle* 1967 but his masterwork is the Situationist International SI which he fashioned into an international revolutionary avant garde group that orchestrated student protests at the University of Strasbourg in 1966 contributed to student unrest at the University of Nanterre in 1967 1968 and played an important role in the occupations movement that brought French society to a standstill in May of 1968 The book begins with a brief history of the Lettrist International that explores the group s conceptualization and practice of the critical anti art practice of d tournament as well as the subversive spatial practices of the d rive psychogeography and unitary urbanism These practices which became central to the Situationist International anticipated many contemporary cultural practices including culture jamming critical media literacy and critical public pedagogy This book follows up the edited book *D tournament as Pedagogical Praxis* Sense Publishers 2014 and together they offer readers particularly those in the field of Education an introduction to the history concepts and critical practices of a group whose revolutionary spirit permeates contemporary culture as can be seen in the political actions of Pussy Riot in Russia the yellow vest protesters in France the BlackLivesMatter movement and the striking teachers and student protesters on campuses throughout the U S See inside the book **The Situationist City** Simon Sadler, 1999-08-18 Simon Sadler searches for the Situationist City among the detritus of tracts manifestos and works of art that the Situationist International left behind From 1957 to 1972 the artistic and political movement known as the

Situationist International SI worked aggressively to subvert the conservative ideology of the Western world The movement's broadside attack on establishment institutions and values left its mark upon the libertarian left the counterculture the revolutionary events of 1968 and more recent phenomena from punk to postmodernism But over time it tended to obscure Situationism's own founding principles In this book Simon Sadler investigates the artistic architectural and cultural theories that were once the foundations of Situationist thought particularly as they applied to the form of the modern city According to the Situationists the benign professionalism of architecture and design had led to a sterilization of the world that threatened to wipe out any sense of spontaneity or playfulness The Situationists hankered after the pioneer spirit of the modernist period when new ideas such as those of Marx Freud and Nietzsche still felt fresh and vital By the late fifties movements such as British and American Pop Art and French Nouveau Ralisme had become intensely interested in everyday life space and mass culture The SI aimed to convert this interest into a revolution at the level of the city itself Their principle for the reorganization of cities was simple and seductive let the citizens themselves decide what spaces and architecture they want to live in and how they wish to live in them This would instantly undermine the powers of state bureaucracy capital and imperialism thereby revolutionizing people's everyday lives Simon Sadler searches for the Situationist City among the detritus of tracts manifestos and works of art that the SI left behind The book is divided into three parts The first The Naked City outlines the Situationist critique of the urban environment as it then existed The second Formulary for a New Urbanism examines Situationist principles for the city and for city living The third A New Babylon describes actual designs proposed for a Situationist City

Kitsch Monica Kjellman-Chapin, 2020-05-15 Kitsch the mere word evokes mental images of cutesy collectibles treacly trinkets sweetly sentimental scenes thematically trite tabletop tchotchkes or perhaps anemic appropriations of canonical works of art Frequently dismissed as facile lowbrow or one off throwaway aesthetics kitsch elicits responses that range from the sardonic smirk laced with derision to the grin glimmering with the indulgence in a guilty pleasure Kitsch however is surprisingly mobile and complex as evidenced by its recent renewal as kitschy cool This ambiguity not only allows it to gesture towards a disparate array of artifacts and ideations but also to be pushed and pulled in various applicatory directions The contributors to this collection address the problem of how and what kitsch might signify and approach the kitsch question as a complex nuanced interrogative They consider kitsch in relation to its historical association with pseudo art its theoretical underpinnings and connections to class the deliberate mobilization of kitsch in the work of specific artists kitsch as a form of practice as well as kitsch's traffic with race patriotism and postmodernism The essays in this collection necessarily cut a wide interpretative path mapping the terrain of the phenomenon of kitsch historically conceptually practically in multivocal ways befitting the polysemous creature that is kitsch itself Drawing upon art history popular culture studies philosophy and visual culture the authors responses to the big question of kitsch move well beyond habitual artificial boundaries far beyond the simple binaries of good bad high low elite popular or art kitsch into far more

view Debord as the sole motivating figure behind the SI but while Debord's role was indisputably central, Jorn's influence should not be underestimated. In his four years of activity with the group 1957-1961, Jorn not only continued to make some of his best paintings; he also assisted in the editing of the movement's journal *Internationale Situationniste*. This volume provides an introduction to the life and work of this key figure of the European postwar art scene and is illustrated with color reproductions of the museum's entire Jorn collection. **Book Jacket** **Not Bored! Material Imagination Natalie Adamson, Steven Harris, 2017-07-24. *Material Imagination* examines the interrelated concepts of matter, materialism, and materiality in postwar European art from 1946-1972. Provides a unique perspective on European art by prioritizing material dimensions over concept or context while also paying attention to theoretical and historical concerns. Explores artists' methods and materials in order to better understand the social and cultural environments in which their works of art were made. Demonstrates how materials can be harnessed to affect the critical interpretation of artwork. Brings together exceptional illustrations and new research in eight essays by art historians and scholars.

Rethinking Postwar Europe Barbara Lange, Dirk Hildebrandt, Agata Pietrasik, 2019-12-09. The book *Rethinking Postwar Europe* offers an in-depth insight into the largely unexplored topic of artistic practices in the 1940s and 1950s in Europe, which until recently had been obscured by ideologies of the Cold War. Thanks to the authors' diverse methodological backgrounds, the volume presents for the first time a comprehensive, multilayered narrative focusing on the complexities and entanglements in the artistic field. Instead of assessing the postwar period in the traditional way as divided by the Iron Curtain, the contributions investigate processes of contact, interaction, dissemination, overlapping, and networking. Consequently, the analysis of a diversified European modernism in both its aesthetic and its socio-political dimension resonates with all the different case studies. In particular, the volume looks at how artists developed, designed, and re-negotiated identities and discourses and sheds new light on the power of art and creative powers in general in a postwar setting of mutilations, losses, and devastations. **Sacred Medieval Objects and Their Afterlives in Scandinavia**

, 2024-12-16. Interconnected investigations between conservators, historians, heritage scientists, and museum professionals centre on objects that were essential to medieval Christianity in Scandinavia c. 1100-1530. Through new and diverse physical data from polychrome sculptures, shrines, winged altarpieces, and painted banners, the authors probe a range of issues and problems from original devotional functions and changing appearances to the impacts of changing liturgies, locations, and priorities. This book highlights the diversity of theoretical and practical approaches to sacred medieval religious objects and brings together new findings related to the transformations of these objects since the Reformation. Katrine S Scharffenberg J n Vi ar Sigur sson Calin Constantin Steindal No lle L W Streeton Einar Uggerud Anna Vila and J rgen Wadum *Le Corbusier, History and Tradition* Armando Rabaça,2017-05-01 The view of modernism as representing an epistemological break between technology and history and tradition has long been challenged Le Corbusier s work has proved to be an inexhaustible reference point in this debate This is due on the one hand to the legacy of nineteenth century historicism and on the other to his creative process of creation through destruction which as John Summerson has noted is comparable to the processes of avant garde poets and painters The contributions to this book explore particular episodes which bring to light both the operative role of the past in the creation of a new abstract synthesis and Le Corbusier s modernist historical consciousness They illustrate how the past participated in the modernist creative process of abstract art from the 1920s machine aesthetics to the late infatuation with myth They also shed light on the extent to which the operative quality of the history was framed by a comprehensive historical vision that took the form of metanarrative which neither the analytical studies on his architecture nor the synthetic approaches to his philosophical thinking should dismiss **Res: Anthropology and Aesthetics, 53/54** Francesco Pellizzi,2008-12-15 Among other articles this double volume includes The value of forgery Jonathan Hay Affective operations of art and literature Ernst van Alphen Betty s Turn Stephen Melville

50 Years of Recuperation of the Situationist International McKenzie Wark,2008-07-04 In this work the author suggests what is still vital in the Situationist legacy as well as how modern provocateurs have picked up the thread of those who dared to negate their contemporary world as a whole and imagine it anew *Detournement as Pedagogical Praxis* James Trier,2014-09-11 The Situationist International SI was a Paris based artistic and political avant garde group that formed in 1957 went through three distinct phases during its existence and dissolved in 1972 In 1967 SI leader Guy Debord published his book The Society of the Spectacle which presents his theory of how the Spectacle i e the Capitalist system in its totality works endlessly though not always successfully to transform people into spectators whose sole purposes are to consume commodities and to live de politicized passive isolated and contemplative lives To challenge and subvert the Spectacle Debord and his SI associates theorized and practiced the anti spectacular critical art they called detournement which entails reusing existing artistic and mass produced elements to create new combinations or ensembles As Debord wrote in 1956 detournement has the potential to be a powerful cultural weapon in the service of real class struggle In this edited book the authors contribute chapters about how they created their own detournements and used them as central audio visual texts in critical projects that they designed and carried out in a variety of pedagogical situations Most of the projects involved preservice teachers in teacher education courses and the anti spectacular purposes include challenging Hollywood s problematic representations of Native Americans subverting the racist stereotypes of Latin s in a popular children s book and critiquing the neoliberal agenda of the charter school movement This book offers readers detailed accounts of pedagogical projects that can serve as examples of the critical possibilities of detournement Scandinavian Blue Jack

Stevenson,2015-09-02 This book traces the development of modern Scandinavian erotic cinema as it evolved in Denmark and Sweden from the gentle Swedish naturalist films starting with *One Summer of Happiness* in the 50s to the controversial groundbreakers like *I Am Curious Yellow* of the 60s and on through to the dawn of Liberated Denmark where in the early 70s the abolition of censorship was celebrated in films like *24 Hours with Ilse* and the production of a number of other films that were blatantly pornographic Also considered is the influence of these films on other countries particularly the United States where Scandinavian erotic cinema helped to set in motion the sexual revolution and contributed to the end of film censorship
