Asia And Australia:

Looking North to South-East Asia Australian Institute of International Affairs,1976 There Goes the Neighbourhood Michael Wesley,2011 Pithy and reflective this book highlights the key economic and political issues that Australia should currently be considering as a Western country geographically and economically tied to Asia For the first time in history Australia will be uncomfortably close to the designs and demarches of competing great powers and this book argues that rather than continuing to be insular and introspective Australia needs to take the initiative in global affairs This highly readable and relevant book by one of Australia s best and most prominent thinkers calls for a renewed public engagement and debate regarding the future of the continent s foreign policy **Australia And South Asia: The**

Crystallisation Of A Relationship Ravindra Varma,2003-06 Southeast Asia has become a battleground of power politics today where even the so called Middle Powers have their vital stakes Australia s participation in the Southeast Asian drama has naturally aroused the interest of commentators and policy makers in Asia and abroad Australia is Asia s nearest white neighbour and 70% of its diplomatic activity is concerned with Asian affairs Dr Ravindra Varma s analysis of Australia s involvement in Southeast Asia since the Second World War forms the first full length study by an Asian writer of Australia s Asian policies The book has grown out of the author s research in India Australia and a number of Southeast Asian countries such as Malaysia Thailand Singapore South Vietnam The Philippines and Indonesia His discussions with officials politicians diplomats and statesmen of various nations in the area have helped the book to achieve a perspective which is intimate and detached at the same time The book is indispensable to students of international politics in general and specialists on South and Southeast Asia in particular *Southern Asia, Australia, and the Search for Human Origins* Robin Dennell,Martin Porr,2014-02-24 This is the first book to focus on the role of Southern Asia and Australia in our understanding of modern human origins and the expansion of Homo sapiens between East Africa and Australia before 30 000 years ago With contributions from leading experts that take into account the latest archaeological evidence from India and Southeast Asia this volume critically reviews current models of the timing and character of the spread of modern humans out of Africa It also demonstrates that the evidence from Australasia should receive much wider and more serious consideration in its own right if we want to understand how our species achieved its global distribution Critically examining the Out of Africa model this book emphasises the context and variability of the global evidence in the search for human origins **Australian Foreign**

Policy in Asia Allan Patience,2017-12-12 This book sets out to discuss what kind of middle power Australia is and whether its identity as a middle power negatively influences its relationship with Asia It looks at the history of the middle power concept develops three concepts of middle power status and examines Australia s relationships with China Japan and Indonesia as a focus It argues that Australia is an awkward partner in its relations with Asia due to both its historical colonial and discriminatory past as well its current dependence upon the United States for a security alliance It argues this should be

changed by adopting a new middle power concept in Australian foreign policy *Japan, Australia and Asia-Pacific Security* Brad Williams, Andrew Newman, 2006-09-27 The threats to security in Southeast Asia have been serious and constant since the end of the Second World War The book provides an absorbing account of the evolution of a key axis of regional stability defence contacts between Japan and Australia tracing the relationship from the early post war period to the post 9 11 present Though most works have focused on their economic nexus Japan and Australia s defences and security ties have assumed increasing importance since the mid 1990s With problems such as North Korea s nuclear program and the China Taiwan standoff threatening regional stability the two countries have sought to strengthen bilateral relations and indications are that this relationship is likely to grow in the future Japan Australia and Asia Pacific Security explores the evolution of their relationship in the broader context of Asia Pacific security addressing regional sub regional and transnational issues This captivating book will be welcomed by those with an interest in Asian politics international relations and security studies

Hughes William Hughes,1860 **Australia Faces Southeast Asia** Amry Vandenbosch,Mary Belle Vandenbosch,2021-03-17 Australia as a Western society in the Orient faces a unique and paradoxical challenge in her relations with her close but unfamiliar neighbors of Southeast Asia Explicitly dependent upon British foreign policy until the fall of Singapore in 1942 Australia has reluctantly and painfully begun the task of developing a policy of her own The Japanese conquest of Southeast Asia and many of the Pacific islands during the Second World War awakened Australia to the need to secure her own defenses and later when Britain began a gradual withdrawal from Southeast Asia Australia was thrown upon her own resources in dealing with her politically unstable and volatile neighbors and also with the larger Asian threat posed by Communist China In **Australia Faces Southeast Asia** Amry and MaryBelle Vandenbosch trace Australia s attempts to reconcile her cultural heritage and her geography **Far Off, Or, Asia and Australia Described** Favell Lee Mortimer,1856 **Asian Security Handbook 2000** David G. Wiencek,2000 Contested Ideas of Regionalism in Asia Baogang He,2016-09-13 Deepening regionalism in Asia demands new leadership Strong elites who are committed to a supranational identity are a minimum requirement of successful regionalism Regional leaders are increasingly seen as a new set of leaders in Europe Currently Asian regional leaders largely come from the diplomacy community or trade and economic sectors Yet further regionalization demands a new type of leadership from civil society and citizens In this context it is important to cultivate new regional leadership through the development of regional citizenship This book examines contested ideas of regionalism in Asia with a particular focus on two competing ideas of pan Asianism and Pacificism It also identifies a new trend and contestation the fundamental shift from a civilization understanding of regionalism to a technocratic and functional understanding of regionalism in the form of regulatory regionalism It also examines the other contested imaginations of regionalism in Asia including elitist versus participatory approaches to regionalism and democracy centric versus nationalism centric approaches to regionalism **Official Year Book of Australia** Australian Bureau of Statistics,1975 *Australia's Security in China's Shadow* Euan Graham,2023-03-21 A major shift in the paradigm undergirding relations between Australia and China has become clear in the early 2020s with geopolitical concerns trumping economic considerations Canberra has implemented a range of new policies in response to the risks it perceives in Australia s economic relations with China the Chinese Communist Party s efforts to exert political influence in Australia the expanding capabilities and presence of the People s Liberation Army and Beijing s economic and diplomatic gains in Southeast Asia and the Southwest Pacific China s policies towards Australia have become more coercive in economic as well as diplomatic terms However Australia has withstood Beijing s punitive trade measures without suffering significant economic damage China s more assertive regional posture has prompted far reaching changes to Australia s defence and alliance policy settings including new capability acquisitions and strategic initiatives such as AUKUS In this

Adelphi book Euan Graham argues that Australia has provided an imperfect but nevertheless useful exemplar of how governments may respond effectively to multifarious security challenges from China In particular the Australian case shows how measures to address domestic vulnerabilities may serve as the foundation for a successful China policy at the international level **Australia's Asian Future** Gareth J. Evans,1990
