Asia Pacific Michael Stewart Dobbs-Higginson, 1993 **Asia-Pacific Regional Security Assessment 2023** The International Institute for Strategic Studies (IISS), 2023-06-02 The Asia Pacific Regional Security Assessment examines key regional security issues relevant to the policy focused discussions of the IISS Shangri La Dialogue Asia's premier defence summit convened by the International Institute for Strategic Studies It is published and launched at the Dialogue and the issues analysed within its covers are central to discussions at the event Since February 2022 the war in Ukraine has provided a bleak backdrop for discussions about international security While the war has affected many aspects of security and defence in the Asia Pacific the region also has its own dynamics and important security related developments have occurred there since the invasion Among these China's ever growing power and increasingly assertive posture remain the leading long term challenges for the region This tenth edition of the Asia Pacific Regional Security Assessment contains an introduction and six chapters authored by IISS experts which investigate important dimensions of the regional security environment supported by maps graphs charts and tables Topics include the war in Ukraine and the Asia Pacific balance of power strained US China relations and the growing threat to Taiwan Asia Pacific naval and maritime capabilities China's Belt and Road Initiative Japanese security and defence policy and the conflict in Myanmar and the international response Authors include leading regional analysts and academics at the forefront of research and analysis James Crabtree Euan Graham Nigel Inkster Nick Childs Meia Nouwens Robert Ward Yuka Koshino Aaron Connelly and Shona Loong , *Europe's Evolving Role in US Grand Strategy* Linde Desmaele, 2023-11-10 This book looks at the evolution of the role of Europe in US grand strategy and unpacks how US administrations have instrumentalized this relationship in pursuit of extra European objectives The work considers geopolitical pressures in conjunction with leaders strategic ideas to provide an account of the evolution of the role of Europe in the context of US grand strategy Observers generally agree on the vague notion that Europe has been de prioritized in Washington's external affairs Against this background the book makes the case that such de prioritization of Europe in the context of US grand strategy also entails a reconceptualization of the transatlantic relationship namely as a region featuring long standing relationships that can at times be leveraged in pursuit of non European goals The United States has a long history of seeking European support or acquiescence for its role as the leader of the international system but whereas during the Cold War Washington enlisted its European allies in a grand strategic struggle against a European power more recently it has sought to enlist European allies in extra European struggles of different types Thinking about the role of Europe in US grand strategy now requires new theoretical and empirical tools that allow for the recognition of this very fact Accordingly this book proposes that strategic ideas on the viability of international cooperation held within the White House crucially shape what if any type of support the United States seeks from Europe on the global stage In doing so the book adds important nuance to other accounts proclaiming either the proverbial death of the transatlantic relationship or

the eternal and unchanging nature thereof This book will be of much interest to students of European security US foreign policy and International Relations **Congressional Record** United States. Congress,2007 **Art and AsiaPacific** ,2006

Trafficking Women in Korea Sallie Yea,2015-03-24 Based on in depth ethnographic work this book presents a study of Filipinas trafficked to South Korea focusing on women who entered South Korea as migrant entertainers and subsequently became deployed in exploitative work environments around US military bases there It contributes to the extension of our knowledge about human trafficking in the Asian region through an exploration of the experiences of more than 100 women who took part in the study The book challenges many of the accepted understandings about trafficking victims and unravels

the implications of these narrow understandings for the women themselves It explores the ways women negotiate trafficking largely outside of the emerging formal anti trafficking framework and explains how new community formations and social networks emerge crafted by the women themselves to manage and overcome their vulnerabilities in migration **East Asia**
