China and International Institutions Marc Lanteigne, 2005-11-14 China has shifted its foreign policy from one that avoided engagement in international organizations to one that is now embracing them. These moves present a new challenge to international relations theory. How will the global community be affected by the engagement of this massive global power with international institutions? This new study explores why China has chosen to abandon its previous doctrine of institutional isolation and details how it is currently unable to balance American power unilaterally and details an indirect path to greater power. In addition, it includes the first major analysis of the Shanghai Cooperation Organization comprising China, Russia, and most of Central Asia. In contrast to many works on the rise of China, which place an emphasis on her material goods and powers, this book delivers a new approach. It shows how the unique barriers Beijing is facing are preventing the country from taking the traditional paths of territorial expansion and political economic domination in order to develop as a great power. One of these barriers is the United States and its inherent military and economic strength. The other is the existence of nuclear weapons, which makes direct great power conflict unacceptably costly. China has therefore opted for a new path using institutions as stepping stones to great power status. This book will be of great interest to students and scholars of international relations, world politics, world history, and Asia.

Chinese Foreign Policy Marc Lanteigne, 2015-12-22 This updated and expanded 3rd edition of *Chinese Foreign Policy* seeks to explain the processes, actors, and current history behind China's international relations, as well as offering an in-depth look at the key areas of China's modern global relations. Among the key issues are: The expansion of Chinese foreign policy from regional to international interests; China's growing economic power in an era of global financial uncertainty; Modern security challenges including maritime security, counter-terrorism, and protection of overseas economic interests; The shifting power relationship with the United States, as well as with the European Union, Russia, and Japan; China's engagement with a growing number of international and regional institutions and legal affairs; The developing great power diplomacy of China. New chapters address not only China's evolving foreign policy interests but also recent changes in the international system and the effects of China's domestic reforms. In response to current events, sections addressing Chinese trade, bilateral relations, and China's developing strategic interest in Russia and the Polar Regions have been extensively revised and updated. This book will be essential reading for students of Chinese foreign policy and Asian international relations and highly recommended for students of diplomacy, international security, and IR in general.

Multinationals and Economic Growth in East Asia Shujiro Urata, Chia Siow Yue, Fukunari Kimura, 2006-11-22 This is a comprehensive examination of the role of foreign direct investment in East Asia before and after the financial crisis of mid 1997.

Asia and Europe Lay Hwee Yeo, 2004-03 *Asia and Europe* provides a thorough examination of the Asia-Europe Meeting (ASEM) process, which brings together the 15 EU member states, the European Commission, and ten East and Southeast Asian countries.

Maghreb Regional and Global Integration: A Dream to be Fulfilled, 2008

Encyclopedia of the Developing World Thomas M. Leonard, 2013-10-18 A RUSA 2007 Outstanding Reference Title. The Encyclopedia of the

Developing World is a comprehensive work on the historical and current status of developing countries. Containing more than 750 entries, the Encyclopedia encompasses primarily the years since 1945 and defines development broadly, addressing not only economics but also civil society and social progress. Entries cover the most important theories and measurements of development, relate historical events, movements, and concepts to development both internationally and regionally, where applicable, examine the contributions of the most important persons and organizations, and detail the progress made within geographic regions and by individual countries.

APEC Ippei Yamazawa, 2012. APEC is a crucial trans-regional arrangement that draws the US into constructive economic engagement with East Asia. This book makes it clear why APEC remains such a crucial element of regional economic architecture and defines an agenda for the future to which regional leaders should aspire.

APEC at 20 K. Kesavapany, Hank Lim, 2009. Spanning 20 years of history, the achievements of APEC may seem uneventful in the eyes of some observers. Yet careful deliberation will point to APEC's many remarkable high points as well as some of the challenges. The foundations of APEC were set in place about 40 years ago based on the achievements of the Association of Southeast Asian Nations (ASEAN) and the Pacific Economic Cooperation Council (PECC). One of the cornerstones of APEC's vision is to achieve a free and open trade area among its member economies. This vision is anchored in the Bogor Goals that remain the centrepiece of the APEC process. The Bogor Goals represent a cause for celebration as well as angst. Celebration because the region has moved towards achieving a much more liberalized environment of trading and investment since 1989; angst because the deadlines for achieving the goals have not yet been fully realized. Today APEC embraces many of the world's dynamic developed and developing economies that are better poised to meet the new challenges of this century. For those seeking to get a quick sweep of APEC, this book recalls, reflects, and provides enough food for thought on the possible remake of APEC. The chapters are carefully written by experts who have been directly involved in the APEC process one way or another. The invaluable insights serve to place the whole APEC process in a balanced perspective, yet with candid deliberations.

Reshaping the Asia Pacific Economic Order Christopher Findlay, Hadi Soesastro, 2004-08-02. Relationships and alignments among the nations of the world's most populous and productive region, the Asia Pacific, are in flux. Current global political, economic, and security uncertainty, heightened by 9/11 and the subsequent War on Terror, has fuelled a reassessment by many Asia Pacific nations about the structure and form of future economic and political cooperation and development. Featuring contributions from some of the most eminent and influential economists and political scientists in the Asia Pacific region, this book explores the forces reshaping the Asia Pacific economic order and where these changes may lead. Focusing on the origins of the shift towards policy-driven integration, the book examines what new structures may eventually emerge on both sides of the Pacific, the ways in which this shift will affect the progress of economic integration, and how cross-Pacific relations will therefore be affected.

International Institutions and Economic Development in Asia Thanh Tri Vo, 2010-11-16. Covers the influence of international public goods and landmark

developments and assesses how they have affected Asia's development through the Golden and Silver Ages of economic development. It also considers the challenges for the continuation of a new Platinum Age of development driven by China and India.

Assessing APEC's Progress Richard E. Feinberg, Ye Zhao, 2001. In its first ten years what has the Asia Pacific Economic Cooperation (APEC) accomplished? Has the 21 member forum including the United States, Japan, China, Mexico, and most of Southeast Asia fulfilled its promise? To answer these vital questions, leading scholars at APEC Study Centres from thirteen APEC member economies undertook detailed studies of such central issues as trade in services, investment policy, human resource development, food and agriculture, energy, and financial stability. The findings are summarized in a policy report, *Learning From Experience*, that has received wide praise and close scrutiny from senior government officials. The report concludes that APEC has successfully established itself as a world class forum that has contributed to the affirmation of a coherent set of positive ideas. However, the report notes shortcomings in each of the critical areas of trade and investment liberalization, economic and technical cooperation, and institutional structure, and offers remedial policy recommendations to improve APEC's future performance. This volume contains both the policy report and the issue studies. It is the product of the APEC International Assessment Network (APIAN), a collaborative independent project among participating APEC Study Centres to track and assess the design and execution of key APEC initiatives.

East Asian Regionalism Christopher M. Dent, 2016-06-02. East Asia is one of the world's most dynamic and diverse regions and is also becoming an increasingly coherent region through the interplay of various integrative economic, political, and socio-cultural processes. Fully updated and revised throughout, this new edition explores the various ways in which East Asian regionalism continues to deepen. The second edition has been expanded to incorporate coverage of significant issues that have emerged in recent years, including growing tensions in the region over maritime territory and historical issues, competing regional free trade agreement negotiations, the impact of the global financial crisis on financial cooperation and engagement with global governance, Obama's pivot to Asia, and developments in US relations with East Asia. The influence of new technology and social media on micro-level regional relations, the growing importance of new diplomacy issues such as energy security, climate change, food security, and international migration. Key pedagogical features include end-of-chapter study questions, case studies that discuss topical issues with study questions, also provided useful tables and figures which illustrate key regional trends in East Asia. Extensive summary conclusions covering the chapter's main findings from different international political economy perspectives. *East Asian Regionalism* is an essential text for courses on East Asian regionalism, Asian politics, and Asian economics.
