Asia and Japan Andrew J. L. Armour, 1985      *International Monetary Cooperation Since Bretton Woods* Mr. Harold James, 1996-06-15 This comprehensive history published jointly by the IMF and Oxford University Press was written to mark the fiftieth anniversary of international monetary cooperation From the establishment of the postwar international monetary system in 1944 to how the framework functions in a vastly expanded world economy historian Harol James describes the tensions negotiations challenges and progress of international monetary cooperation This narrative offers a global perspective on the events and decisions that have shaped the world economy during the past fifty years      **In Search of an East Asian Development Model** Peter L. Berger, Hsiao Hsin-Huang Michael, 2024-11-01 The papers collected in this volume were presented at a conference sponsored by the Carnegie Council on Ethics and International Affairs formerly the Council on Religion and International Affairs The conference In Search of an East Asian Development Model was held at the Carnegie Council s headquarters in New York in June 1985 The purpose was to discover if there is any such thing as an East Asian development model Was it rooted in common cultural characteristics which arose only in Asia and therefore had no relevance elsewhere or did the cultural and social characteristics thus revealed have transcendent features applicable at all times and in all places Was the recognition of general Asian economic success a post facto situation an attempt at later rationalizations to fit a logic and inevitability into a process that essentially lurched along without any particular direction      Japan and South Asia Abul Kalam, 1996      Japanese Studies in South and Southeast Asia: Essays , 1997      **Civilization, Nation and Modernity in East Asia** Chih-Yu Shih, 2012-06-25 This book explores the crisis of cultural identity which has assaulted Asian countries since Western countries began to have a profound impact on Asia in the nineteenth century Confronted by Western civilization and by modernity Asian countries have been compelled to rethink their identity and to consider how they should relate to Western civilization and modernity The result the author argues has been a redefining by Asian countries of their own character as nations and an adaptation of civilization and modernity to their own special conditions Asian nations the author contends have thereby engaged with the West and with modernity but on their own terms occasionally and in various inconsistent ways in which they could assert a sense of difference forcing changes in the Western concept of civilization Drawing on postmodern theory the Kyoto School Confucian and other traditional Asian thought and the actual experiences of Asian countries especially China and Japan the author demonstrates that Asian countries redefining of the concept of civilization in the course of their quest for an appropriate postmodern national identity is every bit as key a part of the rise of Asia as economic growth or greater international political activity      **Civilization, Nation and Modernity in East Asia** Zhiyu Shi, 2012 This book explores the crisis of cultural identity which has assaulted Asian countries since Western countries began to have a profound impact on Asia in the nineteenth century Confronted by Western civilization and by modernity Asian countries have been compelled to rethink their identity and to consider how they should relate to Western civilization

and modernity The result the author argues has been a redefining by Asian countries of their own character as nations and an adaptation of civilization and modernity to their own special conditions Asian nations the author contends have thereby engaged with the West and with modernity but on their own terms occasionally and in various inconsistent ways in which they could assert a sense of difference forcing changes in the Western concept of civilization Drawing on postmodern theory the Kyoto School Confucian and other traditional Asian thought and the actual experiences of Asian countries especially China and Japan the author demonstrates that Asian countries redefining of the concept of civilization in the course of their quest for an appropriate postmodern national identity is every bit as key a part of the rise of Asia as economic growth or greater international political activity

**Politics and Economics of Japan** W. D. Alema,1992 *The Search for Reconciliation* Yinan He,2009-04-27 Why have some former enemy countries established durable peace while others remain mired in animosity When and how does historical memory matter in post conflict interstate relations Focusing on two case studies Yinan He argues that the key to interstate reconciliation is the harmonization of national memories Conversely memory divergence resulting from national mythmaking harms long term prospects for reconciliation After WWII Sino Japanese and West German Polish relations were both antagonized by the Cold War structure and pernicious myths prevailed in national collective memory In the 1970s China and Japan brushed aside historical legacy for immediate diplomatic normalization But the progress of reconciliation was soon

impeded from the 1980s by elite mythmaking practices that stressed historical animosities Conversely from the 1970s West Germany and Poland began to de mythify war history and narrowed their memory gap through restitution measures and textbook cooperation paving the way for significant progress toward reconciliation after the Cold War Newsletter, East Asian Art and Archaeology ,1994 *East Asian International Relations in History* Kyu-hyun Jo,2024-08-28 This book provides a sweeping overview of East Asian international relations in history from the nineteenth century onwards with a focus on Korea and its relationship with East Asia and the USA In contrast with many books which concentrate exclusively on the twentieth century this book offers a long term perspective on modernity and modernization in East Asia It addresses the tributary system the Meiji Restoration Japanese imperialism in East Asia and the Cold War in East Asia It also incorporates the First and Second Indochina Wars from Vietnam s perspective and expands the geographical scope of East Asia beyond the traditional framework of Korea Japan and China The book begins with the tributary system as a starting point of East Asian modernity in contrast to the old view that the tributary system was not a modern system It rejects the idea that Japan was modernizing while Korea remained stagnant and shows why Japanese colonialism continues to be controversial and problematic Through the book s emphasis on Vietnam s perspective of the Indochina Wars it places much value on nationalism anti imperialism and decolonization as forces of modernity and modernization Relevant to scholars and students in history international relations and East Asian studies more broadly the book brings with it a novel fresh and innovative approach to East Asian history **The US-Japan Alliance** David Arase,Tsuneo Akaha,2013-01-11 Japan s use of Soft power in its international politics is as yet understudied Soft power presents as many challenges as promises This book explores the way Japan uses soft power in its relationship with the US its Asian neighbours and Europe and aims to contribute to a deeper understanding of the role of soft power in international relations Hard power on the other hand is more tangible and has received far greater scholarly scrutiny than soft power However as this collection makes clear hard power has its limitations and counterproductive consequences as an instrument of policy This book makes it clear that hard power alone will not provide Japan with the peace and security it desires A smart balancing or mixture of hard and soft power is required Is Japan up to this challenge While this book cannot give a definitive answer to this question the excellent line up of contributors present their best analyses of the effectiveness of Japan s current attempt at balancing the two components of national power in meeting its bilateral and multilateral security challenges The US Japan Alliance is suitable for upper undergraduates postgraduates and academics in International Politics Political Science Security studies and Japanese studies Winner of The Masayoshi Ohira Memorial Special Prize 2011 *Approaches to Modern Chinese History* Albert Feuerwerker,Mary Clabaugh Wright,
