Tipton, 1998-05-01 For many years Japan was seen as the peculiar exception in Asia a highly dynamic economy isolated in an otherwise moribund continent With the rise of the Southeast Asian and Chinese economies however it has now become clear that Asia as a whole is experiencing an extraordinary revolution which will result within a very few years in living standards for some countries being on a par with those in the West The results of this transformation can only be guessed at but The Rise of Asia adds a far greater sophistication to our understanding of how this process came about treating the key areas of Asian life economics society and politics as an integrated whole and avoiding the trap of most commentators who see the phenomenon as an exclusively postwar economic issue Balancing the uniquely Asian aspects with global developmental factors Dr Tipton creates a convincing picture of how this amazing change has occurred **Southeast Asia** Jonathan Rigg, 2004-08-02 The revised edition of Southeast Asia provides a grounded account of how people in the region are responding to and being affected by the changes sweeping through the region **East Asia** United States International Trade Commission, 1993 **Non-tariff Barriers, Regionalism And Poverty: Essays In Applied International Trade Analysis** L Alan Winters, 2015-03-26 Non Tariff Barriers Regionalism and Poverty is a collection of key articles in three important areas of applied international trade research measuring non tariff barriers and their effects the consequences of regional trading arrangements especially on the countries excluded from them and the connection between international trade and poverty Drawing from 30 years of research and experience L Alan Winters illustrates the development of techniques of this field and his continued commitment to answering real policy questions at the times at which they are debated The collection shows the ways in which economic and econometric analysis can be used to answer

real world problems rigorously in the area of international trade and trade policy Readers will find that some of the research included is of current methodological relevance and some of more historical significance This volume is invaluable to anyone who is keen on developing their knowledge on trade policy regionalism or poverty three pressing issues in today's globalized world
