Political Economy of South Africa's Post-apartheid Transition Benjamin Fine, 2025-05-26 South Africa's post apartheid transition has proven disastrous It is marked by the emergence of a black elite of enriched capitalists out of the globalisation neoliberalisation and financialisation of the economy in general and of its Minerals Energy and Financial Complex in particular By contrast inequalities poverty and failing social provision have persisted Recent attention has shifted to how this disastrous trajectory was initiated some suggesting a lack of available alternative policy options at the time of transition This is shown to be false with a full range of progressive alternatives being rejected with corresponding consequences from state capture to electoral defeat **Current Contents of Periodicals on the Middle East**, 1988 *Sorcery in the Black*

Atlantic Luis Nicolau Parés, Roger Sansi, 2011-01-15 Most scholarship on sorcery and witchcraft has narrowly focused on specific times and places particularly early modern Europe and twentieth century Africa And much of that research interprets sorcery as merely a remnant of premodern traditions Boldly challenging these views *Sorcery in the Black Atlantic* takes a longer historical and broader geographical perspective contending that sorcery is best understood as an Atlantic phenomenon that has significant connections to modernity and globalization A distinguished group of contributors here

examine sorcery in Brazil Cuba South Africa Cameroon and Angola Their insightful essays reveal the way practices and accusations of witchcraft spread throughout the Atlantic world from the age of discovery up to the present creating an indelible link between sorcery and the rise of global capitalism Shedding new light on a topic of perennial interest Sorcery in the Black Atlantic will be provocative compelling reading for historians and anthropologists working in this growing field
