Exploration and supposition to understanding      *Arctic Bibliography* Arctic Institute of North America, 1956      *Literature of Travel and Exploration* Jennifer Speake, 2014-05-12 Containing more than 600 entries this valuable resource presents all aspects of travel writing There are entries on places and routes Afghanistan Black Sea Egypt Gobi Desert Hawaii Himalayas Italy Northwest Passage Samarkand Silk Route Timbuktu writers Isabella Bird Ibn Battuta Bruce Chatwin Gustave Flaubert Mary Kingsley Walter Raleigh Wilfrid Thesiger methods of transport and types of journey balloon camel grand tour hunting and big game expeditions pilgrimage space travel and exploration genres buccaneer narratives guidebooks New World chronicles postcards companies and societies East India Company Royal Geographical Society Society of Dilettanti and issues and themes censorship exile orientalism and tourism For a full list of entries and contributors a generous selection of sample entries and more visit the Literature of Travel and Exploration An Encyclopedia website      **From Northeast Passage to Northern Sea Route** , 2022-09-12 The notion of a waterway north of Eurasia conceived in the first half of the sixteenth century remained only a dream for centuries due to ice unmapped coastlines and a lack of geographical knowledge This volume is the first comprehensive scholarly account in English of the slow but steady exploration and commercial exploitation of the Siberian coastal waters and it proves that this was a truly international endeavour However in the end the Northern Sea Route as a through traverse route came to be used primarily by the Soviet Union for which it became a crucial vehicle for the geopolitical and economic integration of its vast territories As an international trade route the Northern Sea Route is only today about to win its way essentially as a result of global warming This being the case should we rejoice or despair      **Atlantic History** Jack P. Greene, Philip D. Morgan, 2008-12-31 This title offers an incisive look at how interpretations of the Atlantic world have changed over time and from a variety of national perspectives This volume discusses key areas of the Atlantic world including the British Dutch French Iberian and African Atlantic as well as the movement of ideas peoples and goods      **Lobsticks and Stone Cairns** Richard Clarke Davis, 1996 Lobsticks and stone cairns are landmarks that mark paths and commemorate events The one hundred biographies in this book also offer themselves as paths to be taken Centuries of human endeavour hardship folly and suffering are collapsed into stories through which we can discover what the Arctic is and has been Profiled in this book are human landmarks dating from as far back as the sixteenth century to those still active in the North today Included are stories of adventurers military officers authors guides culture heroes police traders and even the occasional charlatan The biographies are of Inuit European American Indian and Canadian men and women What appears here is the essence of each person rendered by an expert and put in a new context bringing the history and geography of the North to life      [Russians in Alaska, 1732-1867](#) Lydia Black, 2004 This definitive work the crown jewel in the distinguished career of Russian America scholar Lydia T Black presents a comprehensive overview of the Russian presence in Alaska Drawing on extensive archival research and employing documents only recently made available to scholars Black shows how Russian expansion was the culmination of centuries of social and

economic change Black s work challenges the standard perspective on the Russian period in Alaska as a time of unbridled exploitation of Native inhabitants and natural resources Without glossing over the harsher aspects of the period Black acknowledges the complexity of relations between Russians and Native peoples She chronicles the lives of ordinary men and women the merchants and naval officers laborers and clergy who established Russian outposts in Alaska These early colonists carried with them the Orthodox faith and the Russian language their legacy endures in architecture and place names from Baranof Island to the Pribilofs This deluxe volume features fold out maps and color illustrations of rare paintings and sketches from Russian American Japanese and European sources many have never before been published An invaluable source for historians and anthropologists this accessible volume brings to life a dynamic period in Russian and Alaskan history A tribute to Black s life as a scholar and educator Russians in Alaska will become a classic in the field     *The Journal of Midshipman Chaplin* Tatiana S. Fedorova,Viktor G. Sedov,Peter Ulf Moller,Carol L. Urness,2010-09-13 The First Kamchatka Expedition is a classic among the voyages of discovery being famous for the discovery of the Bering Strait between Asia and North America Chaplin s journal holds a special place among the documents of the expedition It is the only official document that preserves its history in detail day by day from the author s departure from St Petersburg on 24 January 1725 until his return to the Russian capital on 1 March 1730 The publication includes introductory articles and commentary by leading specialists a glossary indexes and maps     **Terra Cognita** Eviatar Zerubavel,2018-04-17 Most of us are fascinated by the conventional storybook account of Christopher Columbus heroic discovery of America in 1492 Yet should the credit for discovering America go to a man who insisted it was but a few islands off the shores of China In Terra Cognita Eviatar Zerubavel argues that physical encounters are only one part of the complex multifaceted process of discovery Such encounters must be complemented by an understanding of the true identity of what is being discovered The small group of islands claimed by Columbus to have been discovered off the shores of Asia was a far cry from what we now call America The discovery of the New World was not achieved in a single day but was a slow process mental as well as physical that lasted almost three hundred years By celebrating 1492 as a year of discovery we inevitably distort the reality of history In vividly documenting how a slowly emerging New World gradually forced itself into Europe s consciousness Zerubavel shows that Columbus did not discover America on October 12 1492 Supplemented by fascinating old maps and a new preface written for this paperback edition Terra Cognita will be of interest to historians geographers cognitive scientists sociologists and students of culture     *The Life of Captain James Cook* J. C. Beaglehole,1992-04-01 The culmination of the life work of the most distinguished historian of Pacific exploration this lavishly illustrated biography places Cook in the context of his times and affirms his eminence in the history of maritime discovery
