Can't Find My Way Home Martin Torgoff, 2004-05-13 Can't Find My Way Home is a history of illicit drug use in America in the second half of the twentieth century and a personal journey through the drug experience. It's the remarkable story of how America got high: the epic tale of how the American Century transformed into the Great Stoned Age. Martin Torgoff begins with the avant-garde worlds of bebop jazz and the emerging Beat writers who embraced the consciousness-altering properties of marijuana and other underground drugs. These musicians and writers midwived the age of marijuana in the 1960s, even as Timothy Leary and Richard Alpert later Ram Dass discovered the power of LSD, ushering in the psychedelic era. While President John Kennedy proclaimed a New Frontier and NASA journeyed to the moon, millions of young Americans began discovering their own new frontiers on a voyage to inner space. What had been the province of a fringe avant-garde only a decade earlier became a mass movement that affected and altered mainstream America. And so America sped through the century dropping acid and eating magic mushrooms at home, shooting heroin and ingesting amphetamines in Vietnam, snorting cocaine in the disco era, smoking crack cocaine in the devastated inner cities of the 1980s, discovering MDMA Ecstasy in the rave culture of the 1990s. Can't Find My Way Home tells this extraordinary story by weaving together first-person accounts and historical background into a narrative vast in scope yet rich in intimate detail. Among those who describe their experiments with consciousness are Allen Ginsberg, Timothy Leary, Robert Stone, Wavy Gravy, Grace Slick, Oliver Stone, Peter Dinklage, David Crosby, and many others from Haight-Ashbury to Studio 54 to housing projects and rave warehouses. But Can't Find My Way Home does not neglect the recovery movement, the war on drugs, and the ongoing debate over drug policy. And even as Martin Torgoff tells the story of his own addiction and recovery, he neither romanticizes nor demonizes drugs. If he finds them less dangerous than the moral crusaders say they are, he also finds them less benign than advocates insist. Illegal drugs changed the cultural landscape of America, and they continue to shape our country with enormous consequences. This ambitious, fascinating book is the story of how that happened. **Business and Public Policy**

Jorge E. Rivera, 2010-08-05 It is increasingly common for businesses to face public policies and government regulation that demand some form of environmental or social protection. These protective public policies have grown in number, complexity, and stringency over the last few decades, not only in industrialized countries but also in the developing world. In this 2010 book, Jorge Rivera presents a theoretical framework for understanding the relationship between protective public policies and business compliance. This framework explains different levels of business compliance in terms of three different factors: the link between the stages of protective public policies and different levels of business resistance; the effect of country context; and the effect of firm-level characteristics. The second part of the book supports and elaborates on this framework by presenting empirical studies that examine two voluntary environmental programs: the US ski industry's Sustainable Slopes Program and the Certification for Sustainable Tourism in Costa Rica. California Coastal Resource Guide California Coastal

Commission, 1987 This comprehensive and authoritative guide to the natural and cultural resources of California's magnificent 1,100 mile coastline is the companion to the best selling California Coastal Access Guide Whereas the Access Guide stressed public access to the California coast the Resource Guide focuses on the rich and varied natural resources of the coast and its diverse habitats including detailed descriptions of flora and fauna the Guide also features accounts of the history of the coast and includes numerous striking and informative drawings photographs and maps Part One consists of sections of statewide interest divided into three categories the first is coastal geography which includes descriptions of coastal mountains rivers marine terraces beaches wetlands nearshore waters and the open ocean the second is living resources covering the flora and fauna of the coast and the third is cultural resources treating history architecture recreation and economy including such topics as parks and beaches recreational fishing amusement parks lighthouses offshore oil tourism agriculture and other coastal industries Part Two is composed of individual sections on each of California's coastal counties as well as San Francisco Bay the Farallon Islands and the Channel Islands This portion of the book includes 150 maps lists of species of interest a summary of each county's history and site by site descriptions of parks beaches rivers wetlands coastal towns and cities missions museums and other coastal resources detailed information on the habitats wildlife and history of each site are included as well as its address and where applicable the phone number Copiously illustrated accessible and above all entertaining this book is an indispensable reference guide for residents and vacationers as well as a fun book to browse in for anyone interested in California's coast

Social Sciences Katherine D. McCann, 2000-12-01 Beginning with volume 41 1979 the University of Texas Press became the publisher of the *Handbook of Latin American Studies* the most comprehensive annual bibliography in the field Compiled by the Hispanic Division of the

Library of Congress and annotated by a corps of more than 130 specialists in various disciplines the Handbook alternates from year to year between social sciences and humanities The Handbook annotates works on Mexico Central America the Caribbean and the Guianas Spanish South America and Brazil as well as materials covering Latin America as a whole Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas The Handbook of Latin American Studies is the oldest continuing reference work in the field Katherine D McCann is acting editor for this volume The subject categories for Volume 57 are as follows Electronic Resources for the Social Sciences Anthropology Economics Geography Government and Politics International Relations Sociology

Sanctuary Practices in International Perspectives Randy K. Lippert, Sean Rehaag, 2013 Sanctuary Practices in International Perspectives examines the diverse complex and mutating practice of providing sanctuary to asylum seekers The ancient tradition of church sanctuary underwent a revival in the late 1970s Immigrants living without legal status and their supporters first in the United Kingdom and then in the US Canada and elsewhere in Europe have resorted to sanctuary practices to avoid and resist arrest and deportation by state authorities Sanctuary appeared amidst a dramatic rise in asylum seekers arriving in Western countries and a simultaneous escalation in national and international efforts to discourage and control their arrival and presence through myriad means including deportation This collection of papers by prominent US European Canadian and Japanese scholars is the first to place contemporary sanctuary practices in international theoretical and historical perspective Moving beyond isolated case studies of sanctuary activities and movements it reveals sanctuary as a far more complex varied theoretically rich and institutionally adaptable set of practices

Technicalities, 1986 **The Rough Guide to Costa Rica** Jean McNeil, 2001 **Spain** Eugene Fodor, William Curtis, 1997 **Books in Print**, 1994 **London '94** Fodor's, Fodor's Travel Publications, Inc. Staff, 1993-10-26

Anthropological Resources Lee S.
