Berlin Cri:

Bulletin ,1992 **Brothers** David Talbot,2007 Acclaimed journalist Talbot tells in a riveting well researched narrative just how explosively alienated the Kennedy administration was from its own national security apparatus and that Robert Kennedy planned to open an investigation into his brother s assassination **Fragments of Our Time** Martin Joseph Hillenbrand,1998 As a high ranking American diplomat during the Cold War Martin J Hillenbrand was witness to some of the most exciting moments in twentieth century history Fragments of Our Time is a richly detailed gracefully written account of a career that spanned seven presidencies and more than half a century After stints in Africa and Asia the bulk of Hillenbrand s career was spent in Europe He recounts with authority his experiences in postwar Germany his involvement with the Cuban missile crisis his appointment as the first American ambassador to Hungary and his posts as assistant secretary of state for European affairs and ambassador to Germany Hillenbrand writes with a keen wit and discerning eye of the people and events that shaped contemporary American foreign policy **International Cold War Military Records and History** William W. Epley,1996 **Driving the Soviets up the Wall** Hope M. Harrison,2011-06-27 The Berlin Wall was the symbol of the Cold War For the first time this path breaking book tells the behind the scenes story of the communists decision to build the Wall in 1961 Hope Harrison s use of archival sources from the former East German and Soviet regimes is unrivalled and from these sources she builds a highly original and provocative argument the East Germans pushed the reluctant Soviets into building the Berlin Wall This fascinating work portrays the different approaches favored by the East Germans and the Soviets to stop the exodus of refugees to West Germany In the wake of Stalin s death in 1953 the Soviets refused the East German request to close their border to West Berlin The Kremlin rulers told the hard line East German leaders to solve their refugee problem not by closing the border but by alleviating their domestic and foreign problems The book describes how over the next seven years the East German regime managed to resist Soviet pressures for liberalization and instead pressured the Soviets into allowing them to build the Berlin Wall Driving the Soviets Up the Wall forces us to view this critical juncture in the Cold War in a different light Harrison s work makes us rethink the nature of relations between countries of the Soviet bloc even at the height of the Cold War while also contributing to ongoing debates over the capacity of weaker states to influence their stronger allies **The United States and Germany in the Era of the Cold War, 1945-1990** Detlef Junker,Philipp Gassert,Wilfried Mausbach,David B. Morris,2004-05-17 Publisher Description [The Papers of Dwight David Eisenhower](#) Dwight David Eisenhower,2003-04-30 The final set of volumes Vol 18 21 sold separately of The Papers of Dwight David Eisenhower contain 1 783 documents drawn from Eisenhower s second term as president from 20 January 1957 to 20 January 1961 Completing a monumental project that began with publication of The War Years in 1970 this final set of volumes of The Papers of Dwight David Eisenhower contains 1 783 documents drawn from Eisenhower s second term as president from 20 January 1957 to 20 January 1961 In these years Eisenhower worked hard to hold the focus of American

national politics on the two major objectives he had set for his presidency in 1952 to sustain the policy of containment without precipitating a war with the Soviet Union and to reduce the role of the federal government in U S domestic affairs In both cases events at home and abroad intruded diverting attention to immediate problems endangering the peace and forcing the White House to devote most of its leadership to the crises of the day As president during this tense period Eisenhower maintained an extensive and revealing correspondence with prominent individuals as well as with personal friends These letters together with the occasional entries made in his diary shed considerable light upon the major national concerns of the 1950s The volumes also include private and secret correspondence previously unavailable to scholars Some of these items have been only recently declassified and many appear here in print for the first time Taken as a whole the Eisenhower papers from 1957 61 provide firm documentary evidence of the manner in which Eisenhower dealt with the complex internal and external problems faced by all of our modern political leaders

Michael M. Walker, Col., USMC (Ret.),2022-09-14 The conventional narrative of the Vietnam War often glosses over the

decade leading up to it Covering the years 1954 1963 this book presents a thought provoking reexamination of the war s long prelude from the aftermath of French defeat at Dien Bien Phu through Hanoi s decision to begin reunification by force to the assassination of South Vietnamese President Ngo Dinh Diem Established narratives of key events are given critical reappraisal and new light is shed on neglected factors The strategic importance of Laos is revealed as central to understanding how the war in the South developed De-ranged global power and air mobility for the new millennium

Robert A. Colella, This is a story of long range airpower from Gen Henry H Hap Arnold s vision of a global mission to the Global Strike Task Force and expeditionary air forces of the year 2001 It examines global power from its origins as Strategic Air Command built a fleet of bombers and tankers to meet the needs of the global nuclear deterrent policy of the Cold War With the end of the Cold War and the changes in force structure that followed USAF soon lost its historical roots in global power This evolution is traced through the studies and commissions of the 1990 s established to determine the force structure for the twenty first century The assumptions that were made to develop a force focused on expeditionary short range airpower to project global power are established and then examined with four case studies in the application of airpower over long range Operation Nickel Grass the U S airlift to Israel during the 1973 Yom Kippur War the British airpower experience in the Falkland Islands War with its Vulcan Black Buck missions Operation Eldorado Canyon and Operation Desert Strike are used to provide evidence to support and refute the assumptions made during the 1990 s to structure the USAF force structure around short range expeditionary forces with the intention of forward deploying them in a crisis These case studies are evaluated and recommendations are offered for the force structure of the twenty first century to ensure an adequate global power force capable of executing a global power strategy The conclusions of this study do not make recommendations for long or short range airpower but rather offer recommendations for methods to enable those forces in the future with a sturdy in flight refueling force capable of supporting long range missions free from the entanglements of foreign support and reliance on forward basing
