Collaboration in the Holocaust M. Dean,2019-06-12 What was the role played by local police volunteers in the Holocaust

Using powerful eye witness descriptions from the towns and villages of Belorussia and Ukraine Martin Dean s new book reveals local policemen as hands on collaborators of the Nazis They brutally drove Jewish neighbors from their homes and guarded them closely on the way to their deaths Some distinguished themselves as ruthless murders Outnumbering German police manpower in these areas the local police were the foot soldiers of the Holocaust in the east **Wintergreen** Anna Elisabeth Rosmus,2014-02-11 DIVDIVFollowing her acclaimed memoirs Against the Stream and Out of Passau Anna Rosmus revisits the crimes perpetrated in her German hometown during the Second World War divDIV Passau a small Bavarian city situated along the border with Austria had gone decades without acknowledging the roles however small or large its citizenry played in the atrocities of World War II When Anna Rosmus attempted to rectify this oversight she was met with praise from everywhere but Passau itself where threats and vitriol from the local population eventually led her to emigrate from Germany to the United States In Wintergreen Rosmus writes of the prisoners of war and forced laborers the Jews and other Eastern Europeans who lost their lives in Passau to the Nazi regime and whose graves were hastily consigned to the cheapest plot of land in town divDIV Deftly researched and powerfully written Wintergreen is a tragic history of the atrocities committed in and around Passau a searing rebuke of those who seek to suppress them and a moving tribute to the victims of the Holocaust and the importance of keeping their memory alive div div **The United States Holocaust Memorial Museum**

Encyclopedia of Camps and Ghettos, 1933-1945: Volume I Geoffrey P. Megargee,2009-05-22 Winner of the National Jewish Book Award This valuable resource covers an aspect of the Holocaust rarely addressed and never in such detail Library Journal This is the first volume in a monumental seven volume encyclopedia reflecting years of work by the Jack Joseph and Morton Mandel Center for Advanced Holocaust Studies at the United States Holocaust Memorial Museum which will describe the universe of camps and ghettos many thousands more than previously known that the Nazis and their allies operated from Norway to North Africa and from France to Russia For the first time a single reference work will provide detailed information on each individual site This first volume covers three groups of camps the early camps that the Nazis established in the first year of Hitler s rule the major SS concentration camps with their constellations of subcamps and the special camps for Polish and German children and adolescents Overview essays provide context for each category while each camp entry provides basic information about the site s purpose prisoners guards working and living conditions and key events in the camp s history Material from personal testimonies helps convey the character of the site while source citations provide a path to additional information Tracing and Documenting Nazi Victims Past and Present Henning

Borggräfe,Christian Höschler,Isabel Panek,2020-06-08 After World War II tracing and documenting Nazi victims emerged against the background of millions of missing persons and early compensation proceedings This was a process in which the Allies international aid organizations and survivors themselves took part New archives documentation centers and tracing bureaus were founded amid the increasing Cold War divide They gathered documents on Nazi persecution and structured

them in specialized collections to provide information on individual fates and their grave repercussions the loss of relatives the search for a new home physical or mental injuries existential problems social support and recognition but also continued exclusion or discrimination By doing so institutions involved in this work were inevitably confronted with contentious issues such as varying political mandates neutrality vs solidarity with those formerly persecuted data protection vs public interest and many more Over time tracing bureaus and archives changed methods and policies and even expanded their activities using historical documents for both research and public remembrance This is the first publication to explore this multifaceted history of tracing and documenting past and present **The Origins of Nazi Genocide** Henry

Friedlander, 2000-11-09 Tracing the rise of racist and eugenic ideologies Henry Friedlander explores in chilling detail how the Nazi program of secretly exterminating the handicapped and disabled evolved into the systematic destruction of Jews and Gypsies He describes how the so called euthanasia of the handicapped provided a practical model for the later mass murder thereby initiating the Holocaust The Nazi regime pursued the extermination of Jews Gypsies and the handicapped based on a belief in the biological and thus absolute inferiority of those groups To document the connection between the assault on the handicapped and the Final Solution Friedlander shows how the legal restrictions and exclusionary policies of the 1930s including mass sterilization led to mass murder during the war He also makes clear that the killing centers where the handicapped were gassed and cremated served as the models for the extermination camps Based on extensive archival research the book also analyzes the involvement of the German bureaucracy and judiciary the participation of physicians and scientists and the nature of popular opposition
