## **Berlin Raids:**

The Berlin Raids Martin Middlebrook, 2000-03 Martin Middlebrook enjoys an international reputation with his superbly researched compelling accounts of major turning points in the two World Wars An absorbing account of the biggest bombing offensive in World War Two based on the accounts of those who experienced it on both sides in the air and on the ground

**The Berlin Raids** Martin Middlebrook, 2010-07-12 A meticulously documented account that covers the RAF's controversial attempt to end World War II by the aerial bombing of Berlin Kirkus Reviews The Battle of Berlin was the longest and most sustained bombing offensive against one target in the Second World War Bomber Command Commander in Chief Sir Arthur Harris hoped to wreck Berlin from end to end and produce a state of devastation in which German surrender was inevitable He dispatched nineteen major raids between August 1943 and March 1944 more than ten thousand aircraft sorties dropped over thirty thousand tons of bombs on Berlin It was the RAF's supreme effort to end the war by aerial bombing But Berlin was not destroyed and the RAF lost more than six hundred aircraft and their crews The controversy over whether the Battle of Berlin was a success or failure has continued ever since Martin Middlebrook brings to this subject considerable experience as a military historian In preparing his material he collected documents from both sides many of the German ones never before used he has also interviewed and corresponded with over four hundred of the people involved in the battle and has made trips to Germany to interview the people of Berlin and Luftwaffe aircrews He has achieved the difficult task of bringing together both sides of the Battle of Berlin the bombing force and the people on the ground to tell a coherent single story His straightforward narrative covers the 19 major raids with a detailed description of three in particular and includes recollections by British and German airmen as well as German civilians who weathered the storm

Publishers Weekly **Bomber Battle for Berlin** Martin Middlebrook, 2010 The Battle of Berlin was the longest and most sustained bombing offensive against one target in the Second World War Bomber Command's Commander in Chief Sir Arthur Harris hoped to wreck Berlin from end to end and produce a state of devastation in which German surrender is inevitable He dispatched nineteen major raids between August 1943 and March 1944 more than 10 000 aircraft sorties dropped over 30 000 tons of bombs on Berlin It was the RAF's supreme effort to end the war by aerial bombing But Berlin was not destroyed and the RAF lost more than 600 aircraft and their crews The controversy over whether the Battle of Berlin was a success or failure has continued ever since Martin Middlebrook brings to this subject considerable experience as a military historian In preparing his material he collected documents from both sides many of the German ones never before used he has also interviewed and corresponded with over 400 of the people involved in the battle and has made trips to Germany to interview the people of Berlin and Luftwaffe aircrews He has achieved the difficult task of bringing together both sides of the Battle of Berlin the bombing force and the people on the ground to tell a coherent single story The author describes the battle month by month as the bombers waited for the dark nights with no moon to resume their effort to destroy Berlin and end the war

He recounts the ebb and flow of fortunes identifying the tactical factors that helped first the bombers then the night fighters to gain the upper hand Through the words of the participants he brings to the reader the hopes fears and bravery of the young bomber aircrews in the desperate air battles that were waged as the Luftwaffe attempted to protect their capital city And he includes that element so often omitted from books about the bombing war the experiences of ordinary people in the target city showing how the bombing destroyed homes killed families affected morale and reduced the German war effort Martin Middlebrook's meticulous attention to detail makes *The Bomber Battle of Berlin* one of his most accomplished books to date

**The Berlin Raids** Martin Middlebrook,1990 *Dispatch from Berlin, 1943* Anthony Cooper,Thorsten Perl,2023-04-01 In December 1943 five courageous correspondents join a British air raid on Berlin They are Australians Alf King from the Sydney Morning Herald and Norm Stockton from the Sydney Sun Americans Ed Murrow from CBS and Lowell Bennett from the International News Service and Norwegian journalist and activist Nordahl Grieg Each is assigned to one of the 400 Lancaster bombers that fly into the hazardous skies over Germany on a single night Of the five only two land back at base to file their stories After parachuting out of his doomed aircraft one reporter is taken prisoner From there his captors take him on a remarkable tour of bombed out German cities In *Dispatch from Berlin 1943* Anthony Cooper and Thorsten Perl uncover this incredible true story of life on both sides of the war An extraordinary tale of five brave reporters and their eyewitness accounts of the horrors of aerial warfare during and after a raid on Berlin A compelling tribute to the 57 205 young men killed while serving with bomber command during the Second World War Ian McPhedran This book captures the life and death drama that saw five war correspondents two of them Australian assigned to RAF Bomber Command to report on the most dangerous campaign of the Second World War bombing Berlin Neither they nor the crew knew if they would survive the night A compelling story of a single raid that has remained untold for too long Peter Rees A deep intimate and remarkable story indeed a rare personal window into the huge and devastating machinery of the air war over Europe during World War Two The trials and tribulations of five intrepid journalists is an exciting tale in its own right but it simultaneously gives a unique keyhole with which to view the tenure and drama of the era Well written and equally well researched this book is a gem for those with even a passing interest in military history of the Second World War and scholars of the field alike Craig Stockings *Dispatch from Berlin 1943* takes you on a heart stopping bombing raid over enemy territory as brave allied air crew battle flak fighters and fate Told through the eyes of five brave journalists who went with them this is a remarkable book about the horror and humanity of war Mark Willacy [Berlin Raids](#) Martin Middlebrook,1997-11-01 The Battle of Berlin was the longest most sustained offensive against a single target and its merits remain a subject of debate even today Here is the story behind these costly raids including crucial tactical shifts within the R A F and month by month coverage of the most important runs Based on over 400 interviews of both British and German aircrews **The Peenemünde Raid** Martin Middlebrook,2006-02-16 The author of *The First Day on the Somme* recounts Operation Hydra

the British bombing on a Nazi army research center during World War II On the night of August 17 18 1943 RAF Bomber Command attacked a remote research establishment on the German Baltic coast The site was Peenemunde where Hitler's scientists were developing both the V 1 flying bomb and the V 2 rocket whose destructive powers could have swung the course of the war The raid was meticulously planned and hopes were high But the night sky was so cloudless that the British bombers presented an easy target for German night fighters and over 40 were lost Martin Middlebrook draws on the memories of over 400 people involved in the dramatic events on that night RAF and Luftwaffe aircrew German personnel at the research site and foreign laborers who had been forced to work there The result is a truly compelling account of this hazardous attempt to disrupt Hitler's V weapons program

United States. Department of State. Historical Office, 1968 Presents documentation on the international Conferences attended by President Franklin D Roosevelt **Prologue**, 1994 **One Voice** Vera Brittain, 2006-08-31 Here is a reissue of two books by Vera Brittain which make a strong plea for Christian Pacifism This edition includes a preface by her daughter Shirley Williams *Royal Air Force Quarterly and Commonwealth Air Forces Journal*, 1946 *Beneficial Bombing* Mark Clodfelter, 2010-01-01 The Progressive Era marked by a desire for economic political and social reform ended for most Americans with the ugly reality and devastation of World War I Yet for Army Air Service officers the carnage and waste witnessed on the western front only served to spark a new progressive movement to reform war by relying on destructive technology as the instrument of change In *Beneficial Bombing* Mark Clodfelter describes how American airmen horrified by World War I's trench warfare turned to the progressive ideas of efficiency and economy in an effort to reform war itself with the heavy bomber as their solution to limiting the bloodshed They were convinced that the airplane used as a bombing platform offered the means to make wars less lethal than conflicts waged by armies or navies Clodfelter examines the progressive idealism that led to the creation of the U S Air Force and its doctrine that the finite destruction of precision bombing would end wars more quickly and with less suffering for each belligerent What is more his work shows how these progressive ideas emerged intact after World War II to become the foundation of modern U S Air Force doctrine Drawing on a wealth of archival material including critical documents unavailable to previous researchers Clodfelter presents the most complete analysis ever of the doctrinal development underpinning current U S Air Force notions about strategic bombing

*The Other Few* Larry Donnelly, 2004 This title pays tribute to the achievements of Bomber and Coastal Command pilots who made such a vital contribution to the war but whose efforts have gone largely unrecorded **Collision of Empires** A. D. Harvey, 1992-01-01 The only previous war to match the world wars of the twentieth century in scale and impact was the French War of 1793 1815 This book is the first book to compare these conflicts which together shaped the history of the modern world A D Harvey relates the causes conduct and outcome of these wars to the fundamental nature of the societies

which fought them Political decisions economic power and social attitudes interfaced with the demands of military technology to determine the outcome of each case Britain is the centre of focus but is seen against a background of the other combatants Harvey's ability to make large scale generalisations is backed up by a wealth of fascinating and carefully documented detail making this outstanding and exceptionally well written book a pleasure to read The author has tackled a huge subject and has not been afraid to face up to either its complexities or its implications By asking new questions and using a range of unfamiliar sources this book provides an unusually profound analysis not only of these wars but also of the nature of modern society and of our understanding of the past

**Berlin at War** Roger Moorhouse, 2011-10-31 Berlin was the nerve centre of Hitler's Germany the backdrop for the most lavish ceremonies it was also the venue for Albert Speer's plans to forge a new world metropolis and the scene of the final climactic bid to defeat Nazism Yet while our understanding of the Holocaust is well

developed we know little about everyday life in Nazi Germany In this vivid and important study Roger Moorhouse portrays the German experience of the Second World War not through an examination of grand politics but from the viewpoint of the capital s streets and homes He gives a flavour of life in the capital raises issues of consent and dissent morality and authority and above all charts the violent humbling of a once proud metropolis Shortlisted for the Hessel Tiltman History Prize
