**Time on Target** William R. Buster, 2021-05-11 A vivid recounting of WWII combat by a highly decorated soldier Few can match Buster in the description of his personal wartime actions and impressions Filson Club History Quarterly He graduated from West Point in 1939 just in time to serve through one of the most crucial periods in national and world history William R Buster born in Harrodsburg Kentucky knew a soldier's combat experience and left a firsthand account of it His story tells of the incredible expansion arming and training of the US Army as well as his experience in the great conflict itself from North Africa and Sicily to the hedgerow country of Normandy the Battle of the Bulge and on to Berlin For his service he received the Silver Star with Oak Leaf Cluster the Bronze Star the Air Medal and the French Croix de Guerre Includes photographs To my mind this memoir rings as true as steel Any combat soldier will recognize episodes and experiences recounted here Anyone possessing a grain of empathy with the human being caught in the toils of war will find the story interesting in detail and moving in emotional effect Charles P Roland Emeritus Professor of History University of Kentucky [Battle of Britain Target London](#) Dilip Sarkar MBE, 2025-02-13 Dilip Sarkar's fifth volume examines September 1940 in the Battle of Britain challenging myths with detailed research and firsthand accounts In this unprecedented series exploring the big story of the Battle of Britain renowned historian Dilip Sarkar investigates the wider context and intimate details of the epic aerial conflict in the summer of 1940 from all sides In so doing he gives due acknowledgement to the roles of Bomber and Coastal Commands in addition to the fabled Few of Fighter Command This unique narrative draws upon a lifetime of research the author having enjoyed a long relationship with survivors and the relatives of casualties his innumerable interviews and first hand accounts collated in addition to privileged access to personal papers providing essential human interest to this inspirational story In this the fifth volume Battle of Britain Target London Dilip continues to examine the fighting on a day by day combat by combat basis from 7 September to 17 September 1940 It was on 7 September that the Luftwaffe changed tack and instead of continuing its successful strikes on 11 Group and its airfields switched its focus to the round the clock bombing of London According to popular narrative this move lost the Germans the Battle of Britain providing Fighter Command an opportunity to recover This however is not necessarily the opinion of certain German scholars all of which is explored by the author The events of 7 September also saw the 12 Group Duxford Wing go into action for the first time the effects of which are analysed This review confirms that the formation massively over claimed and was not therefore as successful as believed at the time by certain senior commanders and politicians Likewise the events of 15 September 1940 long accepted as Battle of Britain Day are often stated to represent a great turning point in the aerial fighting of the summer of 1940 but is this correct Two days later Hitler postponed Operation Sealion the invasion of the United Kingdom indefinitely Could therefore this day be considered the date the Battle of Britain really ended Through diligent research combined with crucial official primary sources and personal papers Dilip unravels many myths often challenging the accepted narrative This

is not simply another dull record of combat losses and claims far from it Drawing upon unique first hand accounts from a wide range of combatants and eyewitnesses along with Daily Home Intelligence Reports and numerous other primary sources this book forms part of what is likely to be the first and last such comprehensively woven account of this epic air battle

Harrowing true stories of WWII Allied airmen who were shot down and survived with maps and photos included Allied air power made a major arguably decisive contribution to victory in the Second World War both in the European and Pacific theaters But the cost in men and machines was horrific with Bomber Command suffering 50% aircrew casualties While many perished others shot down over enemy territory or water survived only after overcoming extraordinary danger and hardship Their experiences often remained untold not just for the duration of the war but for many years In this book Bryn Evans has gathered together a wealth of unpublished stories from airmen of many nationalities be they British Commonwealth or American Some involve avoiding or escaping from capture others surviving against all the odds braving extreme elements and dodging death from wounds drowning or starvation Importantly the accounts of those who survived the battle in the skies cheating the enemy and the grim reaper give us a chilling insight into the fate of the many thousands of brave young men who were not so fortunate The result is an inspiring and gripping read which bears testimony to human courage and resilience     *IBM Spectrum Protect Plus Practical Guidance for Deployment, Configuration, and Usage* Bert Dufrasne,Gerd
