Foreign and Commonwealth Office,2012 The Government in consultation with the Territories and other stakeholders has developed a strategy of re engagement strengthening links between the Territories and the UK strengthening governance and enhancing support to the Territories This White Paper sets out priorities for action in terms of defending the Territories supporting successful economic development preserving the Territories rich environmental heritage and addressing the challenges of climate change making government work better community issues and strengthening links with international and regional organisations or other countries Taking this forward will require a partnership between the UK Government and Territory Governments The UK wants to strengthen political engagement between Ministers in the UK and the Territories particularly through the proposed Joint Ministerial Council and is determined to live up to its responsibilities to the Territories

Colonial Office,1951 **Where to Legally Invest, Live & Work Without Paying Any Taxes**
Adam Starchild,2000-04 There is an old saying The only two things you can count on in life are death and taxes That may have been true in the past but there are opportunities that can substantially reduce your tax burden and in some cases relieve you of it entirely Several countries and jurisdictions throughout the world offer impressive incentives and plans through which you can greatly minimize your tax burden Some have passed legislation that supports a business friendly environment providing a host of tax advantages a minimization of red tape and a variety of grants and special plans that are designed to increase a company s edge in an increasingly competitive economic climate Other places offer various tax incentives to individuals Indeed there are places where you can live virtually tax free In the following pages the most

advantageous of these countries and jurisdictions will be examined These are by no means backwater enclaves or small municipalities they are highly desirable places to live work and invest Some prefer to remain reticent about the financial benefits they offer while others openly promote their tax and investment plans and incentives If you genuinely desire to reduce your tax burden all deserve careful consideration You might be wondering why a place would offer tax benefits to both its citizens and foreigners By offering major tax incentives to investors tax haven countries and jurisdictions increase the amount of money that flows into the tax haven This money can then be used to stimulate the tax haven s economy The underlying principal here is that low taxes result in economic growth To take full advantage of some of these opportunities you may need to satisfy residency requirements Some countries require that you remain in the country for a particular length of time to benefit from tax incentives others have few or negligible conditions that you must meet In some to fully take advantage of their tax laws you must become a citizen This is often not as daunting as it sounds because in most cases you will be able to carry dual citizenship Thus if you are a citizen of the United States you may also become a citizen of another nation Of course this can become tricky under some circumstances and you should always research your situation carefully assessing your plans and goals in the light of each country s laws For some people it is quite beneficial to change their citizenship if it results in major tax savings
