Australian symphonies were most prolific during the 1950s with 36 local entries in the 1951 Commonwealth Jubilee Symphony competition. This extensive repertoire was overshadowed by the emergence of a new generation of composers and critics during the 1960s who tended to regard older Australian music as old fashioned and derivative. The Australian Symphony from Federation to 1960 is the first study of this neglected genre and has four aims: firstly to show the development of symphonic composition in Australia from Federation to 1960; secondly to highlight the achievement of the main composers who wrote symphonies; thirdly to advocate the restoration and revival of this repertoire; and lastly to take a step towards a recasting of the narrative of Australian concert music from Federation to the present. In particular symphonies by Marshall Hall, Hart Bainton, Hughes Le Gallienne and Morgan emerge as works of particular note. *Great Music Makers* Louis Kahan, 2005. Not many Australian artists can boast of designing clothes for Josephine Baker and Colette in Paris in the 1920s or of having served in the French Foreign Legion. Australian born with more than 50 years spent in Australia, Kahan has sketched and painted musicians for most of this time. *A Chronological History of Australian Composers and Their Compositions - Vol. 2* Stephen Pleskun, 2012-12-30. This book is volume 2 of a 4 volume series, the first 3 of which have been published by Xlibris and the 4th almost complete for imminent delivery. In its entirety this work is the most comprehensive and accurate account of Australian Classical Music making ever undertaken. Its scope is from 1901 to 2012 and includes more than 800 composers, famous and obscure, with more than 30 000 compositions, including details of their premieres, where, when, and by whom. Individual performers, ensembles, orchestras, opera and ballet companies, music educators, instrument makers, academics, entrepreneurs, philanthropists, and critics are included as part of the story. The foundation and demise of music institutions, venues, and festivals is recorded chronologically. Altogether, an extensive picture of Australian Classical Music production and performance can be gleaned in any given year. This book is distinct insofar as it can be read conventionally from cover to cover, or one may choose a composer, performer, and follow his/her career year by year, or one may open the book at random and delight in the unusual and esoteric information therein. This book and its companion volumes are valuable and indispensable works for the serious music student, professional musician, performing amateur, cultural aficionado, and inquisitive lay person. **Sidney Nolan** Nancy Underhill, 2015-06-01. Digging through the myths around Australia's most famous artist, many of which he created himself as a masterful self-promoter, this book is the biography that Sidney Nolan deserves. In an authoritative, insightful, and often irreverent biography that fully charts Nolan's life and work, Nancy Underhill peels back the layers from a complicated, expedient, and manipulative artistic genius. She carries the story from Nolan's birth in 1917 to his death in 1992, tracing his early life, his experience as a commercial artist, his involvement in the *Angry Penguins* magazine, his painting and set design, his difficult marriages and friendships with some of the twentieth century's most famous figures: Patrick White, Albert Tucker, Benjamin Britten, Robert Lowell, Stephen Spender, and Kenneth Clark. **The Life and Work of Percy Aldridge Grainger** Teresa R. Balough, 2023-06-08. What goes into the

making of a creative genius and how can their gifts be used to help uplift humankind These were questions that led the Australian American pianist composer and music educator Percy Aldridge Grainger 1882 1961 to exhaustively document his life his thoughts and his associations and establish in the country of his birth a museum dedicated to helping answer those questions Grainger was a creative genius who thought more in terms of the future than of the present and was an advocate for the role that music can play in creating a more harmonious and loving future for humankind This book is the first attempt to bring together in one volume the details of Grainger s life as they relate to his music using his own words and those of the people who knew him It makes use of many heretofore unpublished documents and musical examples and is written in such a way as to be accessible to all while also offering a detailed study of his musical works **The Music of Peggy**
