The Rise and Fall of Faith Drew Bekius, 2017-07-01 The story of religion in the twenty first century West has been defined in part by the stories of once zealous pastors moving beyond their faith to embrace a life of reason But too often and too quickly ardent believers dismiss such accounts as aberrations and fail to consider the real life implications for those who make this transition Atheists and other skeptics meanwhile struggle to understand what took these individuals so long to make such a journey and why others aren t lining up more quickly to do the same As a result the questions posed by one side inevitably mirror those asked by the other Why do believers trust in God the way they do But what factors lead atheists to dismiss religious beliefs so easily How can believers have faith in the face of known science and history But what allows anyone to be so sure their beliefs are based in reality What would it take for believers to stop believing in God But what would it take for nonbelievers to start to believe Drawing on the author s own
