Weymouth, PhD,2013-09 The terminal diagnosis is given the knock on the door comes and someone you love is dying or has just died Death happens every day yet as one hospital chaplain said Most of the time we just live life as if it isn t an issue until it s in our face It s not as if death is a secret It s on the news and in the newspaper daily but we don t talk about it very much almost pretending as if it won t happen to us or our loved ones But by not talking and not preparing we make dying and death scarier and more difficult than it needs to be That is one of the messages that the storytellers in What Obituaries Don t Tell You Conversations about Life and Death want to impart Talk and prepare is a theme repeated over and over In these stories and interviews you are sure to find people and narratives that are meaningful to you helping you heal from loss assuring you that you are not alone in your experiences and allowing you to find your voice and speak your truth in your own conversations about life and death You may also be surprised Did you know that there is a strong correlation between whether a death is deemed good or bad easy or difficult and the relationships in a person s life including one s relationship to religious or spiritual beliefs Whether you are a person who has lost a loved one a person thinking about your own death and wanting to prepare for it or a student or professional preparing to or already working with issues of death in any way you may find that the information that helps you the most is not imparted to you in obituaries but in the stories behind the scenes *The Beginning of Politics* Kirsi Pauliina Kallio,Jouni Hakli,2016-02-05 The conventional wisdom according to which children s lives should be safe from adult concerns tends to situate them categorically outside the political Thus understood

children become political agents when they reach maturity and eligibility to formal participation Alternatively political skills and competences may be seen to develop gradually through political socialization Both views are challenged in recent scholarship on youthful politics beyond the formal adult centered political world This book considers politics as it appears and unfolds in children and young people s everyday lives The collection problematizes several key concepts in the research field and introduces a relational reading of youthful political agency based on social spatial and political theorization The chapters engage with youthful realities in Sri Lanka Palestine Sweden New Zealand the US and the UK revealing a variety of ways in which children and youth are important political actors in their own right The book also includes an extensive literary review on the study of children and young people s politics in the past decade This book was originally published as a special issue of Space and Polity
