community react to the father's position. They also consider the children's adaptation to the motherless situation and their new relationships with the father or a mother substitute. In the final chapter the authors examine the ways in which social class and social values affect the definitions of social problems and the formulation of social policy. Both administrators and practitioners in the social services as well as students of related subjects will welcome the research contained in this book and will find the authors' conclusions of particular help in their approach to the problems of all types of one parent families.

The American Farmer, 1849 **Rightsize Today to Create Your Best Life Tomorrow** Marni Jameson, 2024-01-02 A gentle guide for helping readers over a certain age discover their best life by finding the right sized home in the best location. Moving is no fun. Neither is getting rid of stuff. And both jobs get harder as we get older. So when those over a certain age say in the last third of life are looking to downsize and move all at the same time many will conclude I'll just stay put thank you very much. It's not just the acquired possessions holding them back but also the intangibles. Their memories their family history their identities are all in jeopardy they think. And yet that reluctance to lighten up let go and move on is commonly all that stands between them and a better life. *Rightsize Today to Create Your Best Life Tomorrow* will help this group of root bound home dwellers cross the bridge between stuck in the past and a lighter better future. It will encourage them to embrace the fact that now when they're no longer tethered to a school system or to a job they need to be near is their chance to live where they want to live. Every section contains checklists some soul searching should you or shouldn't you move some practical what every kitchen must have and some logistical where's your happy place to help readers on their journey. Included are enlightening profiles of those who proactively changed their housing in the last third of their life. Whether they moved to a smaller place remodeled their existing home or even moved to a larger home which one third do whether they moved to a new city to a senior community or to a new home in the same neighborhood they all reimagined their lives re-evaluated their belongings and made a move toward a better and possibly their best life yet. To live your best life now requires an honest appraisal of who you are and who you're becoming where you are in your life and where you're going or want to go. This book is designed to help those who are stuck explore what's holding them back and provide them with the insights experiences and courage to move forward. Congressional Record United States.
