## **Best In Class:**

**Best Class You Never Had** Jim Cullen, 2021-07-06 History teacher Kevin Lee is retiring from Seneca Falls High School where he has worked for the past forty years. He decides to use the freedom of his pending exit to toss the state curriculum and teach the U S survey as the story of the alluring inspiring murderous concept we know as the American Dream which he understands his students regard with justified if instinctive skepticism. Lee discusses the rise fall and legacy of the Dream with these smart funny and irreverent eleventh graders in a narrative peppered with memos email exchanges text messages student journalism and other documents from beyond the walls of his classroom. The result is the best history class you never had. A chronological history of the United States this compelling novel also offers a snapshot of American education written by a veteran teacher who slices through the arid literature of pedagogy to vividly depict the life of the classroom. Finally it offers a deeply affectionate and patriotic vision of American life one fully aware of the nation's limits and failures while honoring the longings so many of us have to believe in our country even as we harbor deepening doubts about our nation.

**Best School** Nathaniel Max Rock, 2009-08-04 Rock explains how to identify schools that use action research to produce outstanding education results. The Best School in Jerusalem Laura S. Schor, 2013-12-03 Annie Edith Hannah Judith Landau 1873-1945 born in London to immigrant parents and educated as a teacher moved to Jerusalem in 1899 to teach English at the Anglo Jewish Association's Evelina de Rothschild School for Girls. A year later she became its principal a post she held for forty five years. As a member of Jerusalem's educated elite Landau had considerable influence on the city's cultural and social life often hosting parties that included British Mandatory officials Jewish dignitaries Arab leaders and important visitors. Her school which provided girls of different backgrounds with both a Jewish and a secular education was immensely popular and often had to reject candidates for lack of space. A biography of both an extraordinary woman and a thriving institution this book offers a lens through which to view the struggles of the nascent Zionist movement World War I poverty and unemployment in the Yishuv and the relations between the religious and secular sectors and between Arabs and Jews as well as Landau's own dual loyalties to the British and to the evolving Jewish community. **America's Best School Teachers and Principals** United States. **Top Student, Top School?** Alexandria Walton Radford, 2013-06-07 Most of us think that valedictorians can write their own ticket. By reaching the top of their class they have proven their merit so their next logical step should be to attend the nation's very best universities. Yet in Top Student Top School Alexandria Walton Radford of American Institutes for Research

reveals that many valedictorians do not enroll in prestigious institutions Employing an original five state study that surveyed nine hundred public high school valedictorians she sets out to determine when and why valedictorians end up at less selective schools showing that social class makes all the difference Radford traces valedictorians paths to college and presents damning evidence that high schools do not provide sufficient guidance on crucial factors affecting college selection such as reputation financial aid and even the application process itself Left in a bewildering environment of seemingly similar options many students depend on their parents for assistance and this allows social class to rear its head and have a profound impact on where students attend Simply put parents from less affluent backgrounds are far less informed about differences in colleges quality the college application process and financial aid options which significantly limits their child s chances of attending a competitive school even when their child has already managed to become valedictorian Top Student Top School pinpoints an overlooked yet critical juncture in the education process one that stands as a barrier to class mobility By focusing solely on valedictorians it shows that students paths diverge by social class even when they are similarly well prepared academically and this divergence is traceable to specific failures by society failures that we can and should address Watch an interview of Alexandria Walton Radford discussing her book here <http://www.youtube.com/watch?v=F81c1D1BpY0>
