Class Against Itself:

A Class Against Itself Doug McEachern, 1980-10-23 This book is a study of the complicated disputes between 1945 and 1970 over the nationalisation of the British steel industry It examines in detail the ways in which the views of different classes and pressure groups in society were reflected in the history of steel nationalisation **Society Against Itself**

Howard S. Schwartz, 2018-05-08 Political correctness involves much more than a restriction of speech It represents a broad cultural transformation a shift in the way people understand things and organize their lives a change in the way meaning is made The problem addressed in this book is that for reasons the author explores some ways of making meaning support the creation and maintenance of organization while others do not Organizations are cultural products and rely upon psychological roots that go very deep The basic premise of this book is that organizations are made up of the rules common understandings and obligations that the father represents and which are given meaning in the oedipal dynamic In anti oedipal psychology however they are seen as locuses of deprivation and structures of oppression Anti oedipal meaning then is geared toward the destruction of organization **Socialisme ou Barbarie: An Anthology** Cornelius

Castoriadis, Sébastien de Diesbach, Jacques Gautrat, Claude Lefort, Jean-François Lyotard, Alberto Masó, Paul Romano, Pierre Souryi, Benno Sternberg, Jack Weinberg, 2018-10-01 SOCIALISME OU BARBARIE 1948 67 was a revolutionary group whose journal of the same name helped inspire France's May 68 student worker rebellion and influenced generations of radicals worldwide This Anthology for the first time in print in the English language restores the collective nature of the group's adventure where manual and intellectual workers creatively and not without profound disagreements reflected and acted together in anticipation of a non hierarchical self governing society The group radically reoriented critical revolutionary theory by affirming how social change emerges through ordinary people's everyday lives and struggles In a world divided into two competing bureaucratic capitalist camps the autonomous grassroots response to rationalized forms of outside control State corporation trade union political party would be workers management a conclusion stunningly confirmed against traditional Left expectations by the workers revolts of 1953 and 1956 in the East and by increasingly widespread challenges to established organizational forms in the 1960s in the West These texts not only examine the overall crisis of systems of domination but explore their creative contestation in the workplace in changing relations between the sexes and between generations and in movements for national liberation China Algeria to bring out the positive content of socialism while remaining clear eyed about how bureaucratization may be reintroduced into emancipatory struggles **The Death of the Left** Simon Winlow, Steve Hall, 2022-11-15 The left is dead Its ailments cannot be cured The only way to resurrect what was once valuable in leftist politics is to declare the left dead and begin from the beginning again Winlow and Hall identify the root causes of its maladies describe how new cultural obsessions displaced core unifying principles and explore the yawning chasm that now separates the left from the working class Drawing upon a wealth of historical evidence to structure

their story of entryism corruption fragmentation and decline they close the book by outlining how a new reincarnation of the left can win in the 21st century

Critical Marxist Theory Lukas Meisner, 2025-06-08 This book argues why Critical Theory as first developed in the Zeitschrift für Sozialforschung must be updated to help us tackling today's capitalist polycrisis from economic via political to ecological crises Yet following the dissolution of the Institute for Social Research in New York and the latest with the death of Adorno in 1969 and the death of Marcuse almost exactly ten years later there has been a domestication of the main strands of the Frankfurt School To understand and overcome this domestication the book traces with the means of philosophy and sociology its two affirmative steps in a liberal and in a postmodern turn As an alternative to both it defends Habermas's project of modernity yet only by disentangling it in Marxian fashion from the capitalist process of modernisation This disentanglement is at the same time a political radicalisation It is necessary because the cultural political ideal's of the project of modernity from human autonomy via rational society to qualitative individuality can only be realised beyond the framework of capitalism As their conceptual concentrate the book proposes political autonomy as a key concept confined neither by Kantian or liberal approaches nor by autonomist or operaist traditions Rather it draws on thinkers like Herbert Marcuse Ellen Meiksins Wood and Martin Hoggelund to rephrase Marxist concepts such as social freedom democratic socialism and the end of prehistory In this way political autonomy is developed both as a legit criterion for justified critique and as the philosophical foundation and emancipatory goal of a pluralist yet transcaptalist Critical Marxist Theory

Studies in the Theory of Ideology John B. Thompson, 2023-11-10 The study of ideology has traditionally been concerned not only with political ideas and doctrines but also with the ways in which social relations are sustained through the representation of institutions and events These traditional concerns have been transformed in recent years by investigations into the nature of language and its role in social life Exploring the links between language and ideology has become one of the most pressing tasks of social and political analysis In this volume John B Thompson examines some of the outstanding contemporary contributions to the study of ideology He focuses primarily on European social theorists and philosophers providing concise and critical appraisals of their work In addition to assessing the contributions of well known thinkers such as Jürgen Habermas and Paul Ricoeur Thompson introduces the reader to a rich variety of authors who have been neglected in the English speaking world Cornelius Castoriadis Claude Lefort Pierre

Bourdieu Michel Pecheux Jean Pierre Faye This work of these authors is analyzed with a constructive aim through a sympathetic assessment of their views Thompson formulates the elements of a novel account of ideology By addressing substantive and methodological issues as well as abstract questions of justification and critique this account seeks to integrate sociological and philosophical considerations in a unified framework for the analysis of ideology Studies in the Theory of Ideology will be essential reading for anyone interested in the most important developments in European philosophy and modern social thought This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1984 The Critical Thinking Toolkit Galen A. Critical Theory and the Critique of Political Economy Werner Bonefeld, 2014-05-08 Subversive thought is none other than the cunning of reason when confronted with a social reality in which the poor and miserable are required to sustain the illusion of fictitious wealth Yet this subsidy is absolutely necessary in existing society to prevent its implosion The critique of political economy is a thoroughly subversive business It rejects the appearance of economic reality as a natural thing argues that economy has not independent existence expounds economy as political economy and rejects as conformist rebellion those anti capitalist perspectives that derive their rationality from the existing conceptuality of society Subversion focuses on human conditions Its critical subject is society unaware of itself This book develops Marx's critique of political economy as negative theory of society It does not conform to the patterns of the world and demands that society rid itself of all the muck of ages and founds itself anew **Soviet Russia** ,1920 *Between Labor and Capital* Pat Walker, 1978 The lead essay by Barbara and John Ehrenreich opens the debate about the nature of the middle class Do those who work between labor and capital constitute a third class or will different sectors tend to ally with either the working class or the capitalist class or is a whole new conception of the dynamics of social change necessary *The Jewish Veteran* ,1938 French Existentialism
