Class And Revolution In Ethiopia

Andargachew Tiruneh

Class And Revolution In Ethiopia:

Class and Revolution in Ethiopia John Markakis, Nega Ayele, 1978 *The Ethiopian Revolution 1974-1987* Andargachew Tiruneh, 1993-04-08 This book is a comprehensive account of the Ethiopian revolution dealing with the entire span of the revolutionary government's life. Particular emphasis is placed on effectively isolating and articulating the causes and outcomes of the revolution. The author traces the revolution's roots in the weaknesses of the autocratic regime of Haile Selassie, examines the formative years of the revolution in the mid-seventies when the ideology of scientific socialism was espoused by the ruling military council, and finally charts the consolidation of Mengistu Haile Miriam's power from 1977 to the adoption of a new constitution in 1987. In examining these events, Dr. Tiruneh makes extensive use of primary sources written in the national official language. He was also the first Ethiopian nation to write a book on this subject. This book is thus a unique account of a fascinating period, capturing the mood of the revolution as never before, yet firmly grounded in scholarship.

Transformation and Continuity in Revolutionary Ethiopia Christopher Clapham, 1990-10-25 This 1988 text traces the continuities between revolutionary Ethiopia and the development of a centralised Ethiopian state since the nineteenth century.

Understanding Ethiopia's Tigray War Martin Plaut, Sarah Vaughan, 2023-02-16 The war in Ethiopia's northern region of Tigray began in November 2020. It inflicted more casualties than any other contemporary conflict in the world. It has also been among the least understood. The fighting and accompanying blockade led to an estimated 600,000 deaths, more than the number who died in the 1984-5 famine. International journalists were banned as the region was sealed off from the outside world by Ethiopian and Eritrean governments prosecuting a strategy designed to crush Tigray at almost any cost. Hatred of Tigrayans was stoked by senior advisers to Ethiopia's Prime Minister Abiy Ahmed; they have called Tigrayans weeds who must be uprooted, their place in history extinguished. Their language was reminiscent of that which preceded the genocide in Rwanda. The war was also orchestrated by Eritrea's President Isaias Afwerki, who came to wield increasing influence over Ethiopian affairs. It drew in Somali troops as well as Eritrean forces. Peace agreements signed in November 2022 ended the worst of the violence but without resolving the war's underlying drivers, which continue to feed a tense and uncertain situation. This book provides the first clear explanation of the factors that led to the conflict, unravelling their roots in Ethiopia's long and complex history. It describes the battles that were fought at such terrible cost and the immense suffering, particularly of women who were brutally abused.

Revolutionary Ethiopia Edmond J. Keller, 1988 an excellent comprehensive account of the Ethiopian revolution, essential for anyone who wishes to understand revolutionary Ethiopia. Perspective. This masterly history deals with the Emperor and the Dergue on their own terms. Keller buttresses his analysis with careful and useful detail. Foreign Affairs. Keller's analytic grasp of the complex features of Ethiopian history and society from a wide range of sources is remarkable. African Affairs.

Land and Society in the Christian Kingdom of Ethiopia Donald Crummey, 2000 A study of gult from the 13th century to 1910, revealing much about

the history of highland Christian Ethiopia **Ethiopian Revolution 1974-1991** Teferra Haile-Selassie, 2013-12-19 First published in 1997 Ethiopia the only country in Africa to survive the nineteenth century European scramble for the continent has a long unique and complex history This stretches back over three million years to Lucy or as the Ethiopians call her Dinkeneshe the earliest known ancestor of the human race to the political turmoil of late twentieth century Africa Teferra Haile Selassie writes partly as a historian but also and perhaps more importantly as a sincere and sensitive observer who lived through the later historical events which he describes and indeed played a notable role in several of them *The Ethiopian Labour Movement* Samuel Andreas Admasie, 2025-08-04 This book offers a comprehensive history of the Ethiopian labour movement exploring the impact of trade unions and workers militancy from the 1960s onwards The author analyses the sharp variation in the orientation and vicissitudes of the labour movement over time and how these have affected labour conditions and wages Drawing from new data gathered through extensive archival research in Ethiopia and abroad this book is the first of its kind It presents new datasets on strikes unrest and wage levels shedding light on how capitalist labour and industrial relations have developed in Ethiopia Addressing a huge gap in the literature on African labour movements this book makes a significant contribution to debates on trade unionism workers agency and wage determination in peripheral capitalist settings and challenges existing assumptions through detailed investigation Understanding Contemporary Ethiopia Gérard Prunier, Éloi Ficquet, 2015 Seeks to dispel the myths and clichés surrounding contemporary perceptions of Ethiopia by providing a rare overview of the country's recent history politics and culture Explores the unique features of this often misrepresented country as it strives to make itself heard in the modern world Publisher description **Revolution and Genocide in Ethiopia and Cambodia** Edward Kissi, 2006-01-01 Revolution and Genocide in Ethiopia and Cambodia is the first comparative study of the Ethiopian and Cambodian revolutions of the early 1970s One of the few comparative studies of genocide in the Third World this book presents the positions of traditional genocide scholars but the book's author Kissi takes a different position arguing that the Cambodian genocide and the Ethiopian genocide had very different motives Revolution Rosemary H. T. O'Kane, 2000 All of the major work on the subject of revolutions is collected in this useful set Including work from seminal figures such as Hatto and Gottschalk in the 1940s as well as the most important literature all the way through 1998 the articles reprinted here consider the concept theory and causes of revolution revolutionary state building and the outcomes of revolutions case studies of great revolutions and much more **Prosecution of Politicide in Ethiopia** Marshet Tadesse Tessema, 2018-09-26 This book investigates the road map or the transitional justice mechanisms that the Ethiopian government chose to confront the gross human rights violations perpetrated under the 17 years rule of the Derg the dictatorial regime that controlled state power from 1974 to 1991 Furthermore the author extensively examines the prosecution of politicide or genocide against political groups in Ethiopia Dealing with the violent conflict massacres repressions and other mass atrocities of the past is necessary not for its own sake but to clear the way for a new beginning In

other words ignoring gross human rights violations and attempting to close the chapter on an oppressive dictatorial past by choosing to let bygones be bygones is no longer a viable option when starting on the road to a democratic future. For unaddressed atrocities and a sense of injustice would not only continue to haunt a nation but could also ignite similar conflicts in the future. So the question is what choices are available to the newly installed government when confronting the evils of the past? There are a wide array of transitional mechanisms to choose from but there is no one size fits all mechanism. Of all the transitional justice mechanisms namely truth commissions, lustration, amnesty, prosecution and reparation, the Ethiopian government chose prosecution as the main means for dealing with the horrendous crimes committed by the Derg regime. One of the formidable challenges for transitioning states in dealing with the crimes of former regimes is an inadequate legal framework by which to criminalize and punish egregious human rights violations. With the aim of examining whether or not Ethiopia has confronted this challenge, the book assesses Ethiopia's legal framework regarding both crimes under international law and individual criminal responsibility. This book will be of great relevance to academics and practitioners in the areas of genocide studies, international criminal law and transitional justice. Students in the fields of international criminal law, transitional justice and human rights will also find relevant information on the national prosecution of political violence in particular and the question of confronting the past in general.

Marshet Tadesse Tessema is Assistant Professor of the Law School, College of Law and Governance at Jimma University in Ethiopia and Postdoctoral Fellow of the South African German Centre University of the Western Cape in South Africa.

The Ethiopian Revolution and Its Impact on the Politics of the Horn of Africa, 1987

Ethiopia in Transit Pietro Toggia, Abebe Zegeye, 2013-10-18

The writings in this edition explore historical and contemporary issues in Ethiopia as the country underwent change and celebrated its new millennium. However, despite the recognition of socio-economic and political changes, Ethiopia still faces enduring problems and challenges to its stability and continuity. The political past haunts the country while it is facing the future with optimism and hope. The contributors in this edition examine historical and contemporaneous issues with different lenses; they investigate the multiplicity and complexity of the contradictions that define traditional and modern Ethiopia. The contributions highlight the significance of the instability, dislocation, conflict and transformation inherent in any society. None of these writings, however, celebrate the forces that create the conflict; they are cautious not to glorify the present and romanticize the past. On the contrary, they seek to contextualize the challenges which the country faces with a view to opening a dialogue not exclusively among Ethiopians but with scholars and social activists in the rest of Africa as well as the international community. The contributions cover and examine such important topics as historiography, political power and legitimacy, ideology and radical views, knowledge transmission and modernity, emigration and the Ethiopian Diaspora, ethnic and linguistic identity, patriarchy and feminist discourses in a traditional society, public policies and economic development, traditional and modern art and

Dinka,2025-10-16 Fifty years after the 1974 Ethiopian revolution Etana H Dinka brings together a who s who of modern Ethiopian studies in order to offer this long overdue analysis of the revolution and its legacies With contributions both from seasoned academics many of whom wrote about the revolution as it developed and from representatives of a younger generation this six part collection offers new insights not only into the revolution itself but also into issues such as the Red Terror the EPRDF revolution of 1991 and Abiy Ahmed s repositioning of Ethiopia after 2018 Such wide ranging analyses cumulatively cast Ethiopia s three successive post revolution regimes not as separate entities but rather as successive attempts to fulfil the promise of the revolution surrounding issues such as ethnicity the nationalities question economic development and the land tenure question In developing this model the collection captures the defining developments and issues in Ethiopia the Horn and the Red Sea region over the past fifty years and it speaks directly to a global body of knowledge about revolutions state making projects and empires and warfare and military interventions in politics A unique collection that expands the historical revolutionary analyses of Ethiopian politics and society to the present in order to suggest new ways of ensuring social economic and environmental justice for all this book is a must read for researchers and upper level students interested in Ethiopia the Horn of Africa African Studies and revolutionary politics and land economics in general *Marxist Governments* Bogdan Szajkowski,1981-07-30
